TUESDAY MORNING, APRIL 8.

Supreme Court Decisions. JANUARY TERM.
All of the decisions rendered at the January term of the Supreme Court have been carefully collated and issued in pamphlet form, by the Union office. The work wil contain an index, and will be found to be particular convenient to members of the legal profession. For sale

FIRST PAGE .- On the outside will be found twenty decisions rendered in the Supreme Court on yesterday.

at the counter of this office, and in San Francisco by L

P. Fisher, corner Montgomery and Washington streets

Wagon Road. Read the spirited proceedings of a meeting held upon this subject in Placerville, El Dorado county, which we give in this paper. We are glad to see that our fellow-citizens in the mountain counties are moving, and recommend that meetings be held, resolutions passed and memorials signed in every town of note in the State. There should be manifested a complete unity of feeling upon this question throughout the State. A unanimous demand upon Congress from 100,000 freemen, will surely induce that body to act in the prefice also, in addition to building the road, to pay for a daily or try-weekly mail from St. Louis to this city for one year. In fact, if the government will protect the route from hostile Indians and appropriate \$500,000 a year for two years, for carrying the mail, we believe the road would be placed in good traveling condition by the enterprise of individuals.

In connection with this question, we may mention that Mr. Frank M. Pixley, of San Francisco, is many signatures as possible to memorials to be laid before Congress. Two attempts, we are sorry to say, have been

made here to hold a meeting, but the first failed at the very life of their health and usefulness. because the night was a rainy one, and the other because the election was approaching, and Judge Baker was to deliver a lecture on spiritualism .-We hear another attempt is to be made on Friday night next, at which time we hope to see a full turn out and consequently a large meeting.

Supervisors.

Sometime since a bill passed the Assembly to raise the per diem of the members of the Board bill was sent to the Senate and has not since been

. It is a measure of sheer justice to the members of the Board, and should be called up and passed in the Senate. Under the present law the members are only paid six dollars a day, and then a

ment.

The operous and responsible duties devolved by the law upon the Board of Supervisors in this present Board. Its members have managed the affairs of the county judiciously, economically affairs of the county judiciously, economically county have been faithfully discharged by the affairs of the county judiciously, economically and, we believe, with the purest intentions to wards the people. It is a Board of leading importance, and its members ought, in strict justice, to be liberally compensated. They have saved | ville : the tax-payers of Sacramento county thousands during the past six months. They have served the people faithfully, and ought to be paid for

In keeping the records of the Board, it is found absolutely necessary to have a clerk. The law now provides for one, at so much per day, but further provides that he shall, in the aggregate, only receive three hundred dollars for the year. His per diem exhausted the three hundred dollars some time ago, and he is now living and working

In view of these facts we trust the Senate will perceive the propriety of passing the bill sent into that body from the Assembly.

THE TRINITY INDIANS .- The Shasta Courier is informed by a gentleman from Weaverville, that there has been a difficulty between the Indians and whites, on the South Fork of Trinity river. The Indians demanded some squaws with whom white men were living, and being refused them, raised a party of some four hundred, said to be Klamath Indians, armed with rifles and revolvers. They came upon the whites stealthily, and drove quite a number of them into an old building, where they had them corraled when our informant left. Sheriff Niblett, with a small party, had left Weaverville and gone to the assistance of the whites.

COARSE GOLD .- On Saturday week, says the Shasta Courier, Mr. Patrick Fehely, while prospecting at Lewiston, near the Trinity Bridge, found seven pieces of gold, the smallest of which weighed fifty cents, and the largest one dollar and a half. This is the first discovery of coarse gold in that vicinity. The miners in that locality are doing well-there is plenty of diggings and abundance of water. The "Rush Creek Ditch Co." charge \$12 per week for water.

RICH STRIKE .- The Shasta Courier says that Messrs. Johnson & Co., mining on Jackass Hill, took out in five days last week, one hundred and nine ounces, or about \$1,853. The company con-sists of only three men. These diggings compare favorably with '49 diggings. There are many more places about there equally as rich.

ARREST .- Fom the Shasta Courier we learn that Sheriff Dreibelbis, on Friday last, arrested a man by the name of P. G. Riley, at the Eagle Hotel, in that place, on suspicion of his being an accomplice of Carter, in the Trinity mountain robbery. Riley arrived in the stage on Thurs-

day evening from Marysville. What has become of the bill to regulate the business of Bankers, introduced by Mr. Cartter into the Assembly, and which passed that body the accidental discharge of his gun, while hunt some time since? Is it not time for it to turn up

again somewhere about the Capitol? sembly will bring up the bill to make an appro- ground, when it went off, injuring him severely. priation for building a State Capitol, at an early day, and that it will pass through that body

STATE FAIR PREMIUMS .- The California Farmer publishes a list of the premiums offered by ing any injury except barking the tree. the State Agricultural Society, for the next State fair, to be held in San Jose, on October 7th.

Education-Intellectual and Physical. Upon this universally interesting subject, the sensible views, which we think ought to be generally read, and therefore copy them.

As the schools are now the subject of public consideration, these sentiments of a man who has some fifteen years experience in school teaching, may not seem inappropriate. The Chronicle's estimate of the great importance of attending to the education and expansion of the body and Harris muscles, is not one jot too high. Many are the minds and bodies which have been totally wrecked for life by a neglect of the physical organization for the benefit of the intellectual development of the student:

There are many defects and deficiencies in our

American systems of education, from our primary schools to our universities, but none so great as that which does not provide at all for the education that which does not provide at all for the education of the body, its health and development. With the exception of a very few preparatory academies, and two or three colleges, the physique of the student is entirely ignored as if it did not exist, or were unworthy of the teacher and professor. Should he be sick, his body is recognized so far as to dose it with horrible physic; or if he should prove too turbulent, perhaps his terrestial properties might be thought suitable for punishment. But otherwise, the poor body is left to grow or to stagnate, to form a healthy and perfect agent and medium for the mind, or to grow deformed or stop at a half development as accident may determine. trials and parent's disappointments at the feeble progress of the child in his studies, result simply from the fact that his physical condition has been neglected, and his memory, resuming faculties and ambition have become weak, torpid, and insufficient in consequence. The boy is termed "stupid," simply because his physical development and health here here predected.

health have been neglected.

This is true in boys' schools; it is perhaps mare njurious in colleges-for there the student has not the same opportunities for voluntary exercise; nor has he the same boyish delight in play. In a very few cases, manual labor has been introduced tion that Mr. Frank M. Pixley, of San Francisco, is now in this city and contemplates visiting most of the important mining towns in the State, with the view of assisting in getting up meetings where none have been held, and also to obtain as many signatures as possible to memorials to be ous climate, it is true, and children indicat fact by their general appearance of health. But we have noticed now the daily routine of a school without sufficient and suitable exercise, is striking

The children who have been attending our schools The children who have been attending our schools in this city for two or three years steadily, are not as healthy looking as they were three years ago. One of the most intelligent and experienced teachers says that he finds many of his pupils hollow-chested, stooping, droop-shouldered, and some of them showing an evident tendency to pulmonary complaints. And all these conditions in nearly all cases are undunftedly the effects of neglected. cases are undoubtedly the effects of neglected physical training. The children sit at a low bench, bend over it, throw, or let their shoulders gradually curve forward, and a contraction of the chest, a of Supervisors of the county from six dollars to eight dollars; it ought to have been ten. The bill was sent to the Sanate and has not since here.

effort generally, follow just as inevitably as any effect can follow its cause.

Some of our teachers, feeling the necessity of a reform in this respect, from the condition of many of their pupils, have attempted to get the Board of Education to introduce gymnastic exercises and apparatus into the common schools, but in vain. At his own expense, however, one of the teachers has done so, and has employed the heat gymeat in bers are only paid six dollars a day, and then a proviso added that their annual pay shall not exceed the sum of \$800.

The business of the Board in this county is extensive; its sessions have already consumed the \$800 to each member, and unless the law is amended as proposed, the members must serve the remainder of the year without compensation, or resign and leave the county without a government.

Why may not this most excellent plan be acted pon, and made a part of our school system. It seed not at all interfere with the school hours. The lessons can be given and the exercises all gone through with, before the regular hours for the

BUTTE COUNTY .- We take the following items

ment of this canal has just been completed, and the miners all along its line who have been anxiously awaiting for the consummation, are in high d are improving its increased facilities t good advantage.

DEEP DIGGINGS.—Between this place and Dry Creek, we counted about thirty shafts from which dirt was being thrown up to wash, some of which prospects very well. We were at Mr. Harlow's claim his week; his pay dirt is about twenty feet below the surface, and five feet and a half thick, and averages a bit to the pan. Three feet of it, we were told, would pay twenty cents to the bucket. This claim has been prospected about thirty feet in each direction, and the lead is found to hold out. Mr. Harlow valued his claim at

The shaft of Mr. Sullivan's, near by, is of about the same richness, and the boy tell us they would not take \$1,200 each for their interests. About a thousand feet from these claims, the Live Oak Company have sunk a shaft forty feet, and found a lead three or four feet thick, portions of which pays as high as sixty-six cents to the pan.

Those miners who have been prospecting in this vicinity for the past few weeks, assure us that the whole bluff for miles up and down, is certain to worked, now that we have got water. RESUMED .- We are authorized to state that the Oroville Banks have resumed specie payment, and that unless overtaken by some special misfortune they will never again suspend, at least not before the year 1900. On or about Monday next, we will commence issuing sight drafts on these numerous institutions, payable in sums of from two twenty dollars daily, as long as they are present

could not "remove the deposits." "Present arms, gentlemen, singly, doubly, or in platoons—these banks will stand the heaviest 'run,' and never refers to expedience the stand that " fuse to come down with the dust." GOOD PROSPECTS .- We were shown by Major Young, this morning, about one dollar's worth of dust, washed out of 2½ buckets of dirt. This dirt was taken from a shart just sank this side of Dry Creek. The stratum is two and a half feet thick

in due form and order. The specie in the vaults is inexhaustible, and General Jackson himself

twenty feet under the surface, and pays twenty-five IMPROVEMENTS. — We notice several buildings going up in different parts of the town. Pretty well, in these dry times, for a town that is as badly

"gone in" as we are supposed to be. LOOK AT THIS .- To give our readers at a distance some idea of the business and population that cen-ters at this point, we inquired of our postmaster the number of letters that are distributed at this office, and we are informed that between four and

TEAMSTER'S MEETING .- The Republican says that at a meeting of teamsters held in Stockton on Saturday evening, for the purpose of adopting a uniform scale of prices for freight to all parts of the Southern mines, the members of the association bound themselves in a penalty of \$100 not to haul freight to any point in the mines at less rates than these enumerated in the scale.

ACCIDENT .- The Volcano Ledger says that Mr. J. C. Corwin had his right arm badly injured by ing a few days ago. He had cocked his gun for the purpose of shooting a hare, but failing to Any information concerning the boy will be grate fully acknowledged by the distressed parents. CAPITOL .- We hope our members in the As- make the shot, he set the gun down on the

> LIGHTNING .- A large tree standing near the Shasta Courier office was struck by lightning on Sunday last. It commenced at the top and wound several times around it to the bottom without do-

AGRICULTURAL .-- A meeting for the purpose of No NICARAGUA STEAMER .- No tidings of the perfecting the Joint Agricultural Society for the Brother Jonathan up to a late hour last night. | counties of Yolo and Sacramento, will be held at Her passengers are now thirty days out from New the Water Works Building, in this city, on the 12th inst.

ELECTION RETURNS.

We give below the result of the election yester-San Francisco Chronicle advances the following day so far as the votes have been canvassed at the present writing-2 o'clock A. M. First Ward.

Of 750 straight tickets, Redding has 390; Harris, 360. 498 split tickets to conat.

The vote for Mayor alone was canvassed and shows a majority for Redding of 12. Second Ward-Complete.

FOR MAYOR.368 Redding......441 FOR RECORDER. ...899 Price..... 410 FOR TREASURER.328 Brainard478 FOR CITY COLLECTOR. 377 Housman FOR ATTORNEY. FOR SUPERINTENDENT PUBLIC SCHOOLS. .421 FOR ALDERMEN. .344 Gallup......418 .358 Dreman

Of 874 straight tickets, Redding has 483, Harris 391. The entire vote for Mayor in this Ward gives Redding 22 majority.

Redding is elected Mayor by a majority of 107 and the entire Democratic ticket with the exception possibly of the Recorder and Superintendent of Public Schools.

THE CITY.

THE CHARTER ELECTION .- The charter election for unicipal officers was held yesterday, and passed off without any serious disturbance, although rather more than the average number of knockdowns occurred during the day, principally, however, in the vicinity of the 1st Ward poll. The whole number of votes cast was 3,448, as follows: 1st Ward.

quently but a meager vote polled, while at the gubernatorial election there were a great many persons in the city who were entitled to vote the State ticket, but disqualified with respect to a municipal

POWDER VESSEL SUNK - SERIOUS LOSS. - The storeship Ninus, which has been used during the past two years as a powder magazine, sank at her moorings at the foot of R street about 10 o'clock yesterday morning, careening towards the levee, below her main deck. It is supposed that the accident was caused by the upper seams of the vessel opening during the dry weather and permitting the vater to find ready ingress on the rise in the river. As nearly as we have been able to ascertain, the powder on board was of the aggregate value of about \$90,000, belonging to the various dealers in the city. The principal sufferers are J. & P. Carolan; Massol, Merwin & Co.; Hammond & Co. and Huntington & Hopkins. Two schooners, a lighter and sundry small boats were called into requisition immediately, into which a considerable portion of the powder was transferred. That above water the powder was transferred. That above water being a small proportion, the greater part of the cargo is a total loss. J. & P. Carolan and Massol, Merwin & Co., we understand, placed one thousand kegs each on the hulk on Saturday. The powder was stored on the main deck in private apartments, and may have been badly stowed and thereby contributed to the accident as the hulk was forcontributed to the accident, as the hulk was furnished with but little ballast and careened easily. As the Ninus is the only place in which powder can be stored within the city limits, we supposed the Council would act in the matter last evening, but the subject was not introduced

PHILHARMONIC CONCERT.-We have seen the programme of this festival, which takes place to-morrow evening at Rev. Mr. Benton's Church, contain ing selections of solos and chorusses from operas of "Somnambula," "Ernani," "Semiramide," and It oratorios of "David," "The Intercession," " Moses in Egypt, together with ballads, duets and quartettes. The promise of so much superior music by talent residing permanently in our midst is so from the North American, published at Oroville:

Complimentary to our citizens that we trust every one will show their appreciation by their attendance. The proceeds, we learn, is to be devoted to the purchase of new music, and the permanent foundation of the Association. The popular and complimentary to our citizens that we trust every gifted Miss Tozer, we see, will sing several ballads

Serious Difficulty.-An unfortunate collision occurred about 10 o'clock last evening in the barin remarks made in debate relative to the removal pressed by the other, retreated, and had attained the sidewalk in front of Adams & Co.'s buildings, when a pistol was discharged, the ball entering the right breast of Mr. Borland, just above the nipple. He was borne to his room in the "Or-leans," where the wound was probed to the depth of obout three inches, without detecting the pre-sence of the ball. What may be the result of the wound can only be conjectured. Mr. Williams was arrested. That no injustice may be done either party, we await a judicial investigation of the affair, to present the facts in an authentic

OPEN BARS .- A petition was presented to the Council some time since, and referred to the Committee on Streets and Public Places, asking that the open bars at the corners of streets and elsewhere may be declared a nuisance, and suppressed by ordinance. The committee reported last evening, and submitted an ordinance declaring it unlawful for any person to continue, keep open, or establish any bar or place for the sale of spirituous or other liquors within the city limits, which shall be located on the corner of streets, or open to the view of persons passing—under a penalty not ex-ceeding \$100. The ordinance which, by its terms is to go into effect on the 1st July next, was tabled till the next meeting under the rule.

FIRE. - Considerable excitement was created about half past nine o'clock yesterday morning on the discovery of fire at the repairing shop of G. O. Whitney & Co., on 4th street, on the corner of the alley between K and L streets. Some person passing had probably thrown a lighted cigar among some shavings in front of the building, to which the fire was speedily communicated. An alarm was given immediately, and the several fire companies repaired to the spot, but the fire was fortunately extinguished without their assistance, and with immaterial damage to the building. Other-wise serious loss would have resulted, as a high wing at the time, and the building is located in a combustible neighborhood.

FRAUDS AT THE BALLOT-BOX .- As anticipated, there was considerable illegal voting yesterday, al though the polls were watched with unusual vigilance. The following worthies were arrested for voting illegally: Wm. Davis and John Bigler, at the Second Ward; Edmund Moran, at the Third Ward, and S. Hays, at the First Ward. John Big-ler hails from Benicia. Hays is the individual who was recently tried before the Recorder and discharged on a charge of stealing \$20 from the bar at the corner of K and Second streets

LOST CHILD .- A little son of Wm. H. Robinson, aged about three years, strayed from his father's residence, corner of M and 10th streets, about sundown last evening, and up to a late hour his anxious parents had received no tidings of his whereabouts. The child had on a plaid coat, nankeen pants and black cloth cap. He has light hair, and fair complexion, and says that his name is "Joe."

CITY FINANCES .- The City Collector reported to the Council last evening the following as the collections in his office during the week preceding: 6 certificates to Fund Commissioner, \$17,989 19 Taxes, \$442 63; L street improvement, \$180 56; Licenses, \$3,123—total, \$21,735 38.

FORREST THEATER. - The Forrest Theater will open this evening for the season under the proprietorship and management of B. A. Baker. Particulars of the entertainment offered will be found in the appropriate column.

FIRE ELECTION.—At a meeting of Eureka Engine Co. No. 4, held last evening, A. Koneman was elected Foreman, vice J. Greenebaum, resigned; and J. S. Kohn, delegate.

By Telegraph to the Union.

BY THE STATE TELEGRAPH LINE. Later from Salt Lake, via Los Angeles-Grand Jury Reports, &c. SAN FRANCISCO, April 7.

On the 2d of February an adjourned meeting of the friends of the measure for carrying a daily express from the Missouri River to California, was held in the Tabernacle, at Salt Lake City. Speeches were made by several of the prominent men of the Territory, and Governor Young, at the close of his remarks, individually proffered to take stock, and furnish three hundred miles of the route. One thousand miles were subscribed for.

The News, of the 29th, contains an account of fresh disturbances with the Indians, and contains a proclamation from the Governor, giving instructions to the people how to act in the premises, so as to prevent the recurrence of such acts of violence.

Snow had fallen to a great depth, averaging from two to three feet.

Stock were dying in large numbers; it is estimated that Livingston & Kincaid have lost, since the middle of February, fifteen hundred head: Gen. C. C. Rich, a herd of two hundred, and large numbers belonging to the Church. Provisions of all kinds were scarce, and some

of the settlers were living on bran. Mrs. Sophia Fisher was bitten by a rattle-snake on the 26th of March, near San Diego, and died

almost immediately. Heavy rains had fallen all over the South, from Monterey to San Bernardino.

The published report of the Grand Jury of this county states that the expenses of the city government this year, including the interest on the debt and the sinking fund on the same, would not exceed \$700,000, whereas last year they reached the enormous sum of \$2,194,871 \$3, being a saving of \$1,494,871 33, for the first

ARRIVED .- Clipper ship Red Rover, 110 days from New York.

twelve month of the new charter.

RECOVERY OF GOLD DUST .- In the last issue of he Courier, we said that Messrs. Hickman, Brastow and Lemon had gone in search of the money that had been buried by Carter and his gang. They returned on Friday last, without being successful in finding it. Carter still protested that the money was where

ne had told them, and said that if they would permit him, he would go with a party and find it. Accordingly, on Sunday last, Carter was mounted on a mule, and in company with some twenty of our citizens, was escorted to the place where the robbery was committed, and from thence to the place where the treasure was hid. After arriving at this place. Carter confessed himself somewhat bewildered, and asked for time, that he might recollect the exact locality. The party in charge granted his request. Soon after, he pointed ou two logs laying across each other, and told them they would find the money buried at the crotch of those logs. Upon examination, they found three bags of the dust, containing between five and six thousand dollars. The party then held a consultation, and concluded to leave four of their number to prospect about that locality, and see it they could not find more of the buried treasure. On Thursday last the four gentlemen above al-uded to returned here, bringing with them between ten and eleven thousand dollars more of the stolen money. Making in all about sixteer

thousand dollars. The information that led to the recovery of the noney was given by Carter himself, and it was supposed that he would make a full confession of whole transaction, but we are informed by good authority that he has confessed to all that it is his intention to do. He has not implicated any other parties.

Carter regrets having taken Mr. Hickman's coney, and says he would not have divulged could Mr. H. have got his money in any other way. He regretted taking it at the time of the robbery, and says, had he not done so, he would have been killed by the captain of the band. Carter does not appear to have any sympathy for any of the losers except Mr. Hickman.—Shasta Courier.

HENRY'S DIGGINGS .- From the Placerville American we learn that Henry's Diggings, in the vicinity of Grizzly Flat, in El Dorado county, as a locality that offers to the enterprising and inpustrious a fair prospect of ultimate And in every instance thus far, have such as have taken the trouble to vist and examine those diggings, been sufficiently pleased at the prospect as to engage at once in the work of completing oom of the "Orleans," between Messrs. Borland a ditch some six miles in length, and now in proand Williams, Members of Assembly, originating gress, that when completed, which will be in about two months, will furnish that new and rich of the county seat of El Dorado. The one being mining locality with an abundant supply of water for the whole year.

SALE OF FLOWERS -This seems to be a favorite market with the horticulturists, and deservedly so, for at public auction as well as at private sale flowers com mand the highest cash prices. On to morrow morning Barton & Grimm will sell a great variety of choice Flow ers, including many of the rarest and most valuable Roses ever offered for sale in the State. These floral gems are from the far famed Smith's Gardens, which fact is a sufficient guarantee that they are more than all represented. This sale will take place at 11 o'clock, on Second street, adjoining Wells, Fargo & Co.'s Express

POSTPONED .- In consequence of the election the sale advertised by Barton & Grimm, for yesterday, was post poned until to day at 10 A. M., when several new invoices will be added to the sale.

of OTHE PUBLIC—A CARD—In the year of our Lord 1793, an old man was traveling through the kingdom of Persia, observed a peculiar bubbous plant, used by an eminent Turkish ductor, in two-thirds of cases of sickness, with singular success; disease seemed to fall before it. This old man procured several of the bulbs: has since grown them in the United States. His name is Jacob Webber; and it forms the principal ingredient in his INVIGORATING CORDIAL.

The old Persian doctor's theory was, that most diseas is proved fatal, that early eath occurred, that people lived for years a living death, weak, inanimate and exhausted—not from the disease is telf, but from an inability in nature, and nature's strength, to withstand or maintain life through the rawages of disease. Give them strength, said he, and nature will relieve herself, if stimulated. She has given us herbs and plants to effect ait this. Purify the blood, render the intestines, the liver, the heart, and all the natural functions of man or woman, active, and you have half conquered dis ase. This is the secret power of that plant. Dr. Jacob Webber does conscientiously assure all who read this, that his INVIGORTATING CORDIAL produces all the effect above described. He has seen the old, the tottering, the palsied, the nervous, the dyspeptic, the inerviate, the debauchee, the invalid, revive under its influence, as if new life were given them.

The extravagant laudations offered in favor of this divine medicine, may seem to some in bad taste, yethad they seen, as we have, the many it has restored to health,

The extravagant inducations offered in Javor of this divine medicine, may seem to some in bad taste, yet had they seen, as we have, the many it has restored to health they would feel that no lasquage can give adequate praise to so blessed a medicine.

It is conscientiously recommended in all nervous diseases, or other derangement of the system. It cause cases, of other derangement of the system. It causes an insensible perspiration, (so necessary to health,) it calms irritability or restlessness, give quiet sleep, causes an appetite. It acts on the secretions, and renders the feeble and languid vigorous and robust. It causes a delightful feeling of buoyancy and light-heartedness to the low spirited. Its main qualities are nervine, tonic and sangulfarous.

low spirited. Its main qualities are nervine, tonic and sangulferous.

Let those afflicted with any curable disease but try this, and my word for it they will bless the day they did. It is put up very highly concentrated, and is warranted to contain no mineral or other poison, and sold at the principal depot, 164 Washington street, two doors above Montgomery, San Francisco. Price \$5, or two bottles for \$8.

Bold in Sacramento by J. R. BOYCE & CO., corner K and Second streets, and by all other respectable druggists in the State.

CURE FOR INTEMPERANCE -The San Francisco.

Sold in Sacramento, by J. R. BOYCE & Co., corner K and Second streets, and all other respectable Druggists in the State.

to folly, and finds her har is turning grey, her teeth dark yellow, with melancholy, she weeps and sighs for many a day. The only hope her loss to cover, is Lafont's famed soap Teeth Root to try, and with snow white teeth to meet her lover. And if her hair is coarse, grey, dry—silky, soft, dark, 'twill be made to live by Jones's Coral Hair Restorative. Let her but try them, she'll not repent, but find them more than we here represent. Sold by J. R. BOYCE & CO., cor. K and 2d sts. a8-6i

Owner of the property.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS. This celebrated beverage is manufactured at the

actory of the undersigned, at Scheidam, Holland. He is the sole importer, as well as exclusive manufacturer of the article, and no preparation bearing the name of "Schnapps," that is not procured either from his establishment in New York, or from his agents in other cities, is genuine or reliable. It is made from barley of the finest quality, selected

with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the

stomach and bowels by a change of water-a visitation to which travelers, new settlers, and all unacclimated persons in California are liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstruction of the kidneys, diseases of the bladder, dyspepsia, ague and fever, and general debility, it is recommended most emphatically by the most distinguished members of the medical pro-

I wish the public to understand the Schnapps is not sold by the gallon or pipe. It is only sold in quart and pint bottles, in cases of one dozen quarts and two dozen pints, each bottle enveloped in paper, with my name on the bottle cork, and a fac simile of my signature on the label. For sale at all the respectable Druggists, Grocers and Hotels in California and Oregon.

UDOLPHO WOLFE. Sole Importer and Manufacturer, 18, 20 and 22 Beaver street, New York. CAUTION TO THE PUBLIC.

Since the introduction of my Scheidam Aromatic Schnapps into the Atlantic States, a number of Liquor Mixers in New York, Boston and Philadelphia have been engaged in patting up mixed and poisonous Gin in green cases and jugs, and shipping it to California and Oregon to be palmed off upon the unwary, for my genuine Schnapps. I have directed my agent in San Francisco to institute legal preceedings against all persons who he may ascertain to be engaged in this most atrocious piece of deception, and I call on the press and the public to aid him in his efforts to remedy so great an evil.

UDOLPHO WOLFE.

Caution to Persons BARS AND HOTELS. Numerous complaints are made of persons who keep

Bars on Steamboats and in Hotels, who fill my empty bettles with common Gin, and sell it to the unsusp for my SCHEIDAM AROMATIC SCHNAPPS. I would therefore advise all who drink the Schnapps a

such places, to MARK THE APPEARANCE OF THE BOTTLE; and if the outside wrapper or label should be defaced to REFUSE TO DRINK, unless a FRESH BOTTLE IS OPENED.
