By Tuesday Night's Boat. Melancholly Suicide-Reform Movement-Accident

to the Steamer Constitution—Corse's Examination
—Miscellaneous Items etc.

SAN FRANCISCO, July 14-32 P. M. Editors Union:

Joseph W. Finley, Justice of the Peace for the Second District of this city, took his own life to-day, at half-past twelve o'clock, by shooting himself with a large Derringer pistol, the ball passing through his head, entering at the right side and coming out at the left, causing instant death. This melancholy event occurred in a building in the rear of No. 136 Broadway, near Powell street. Mr. Finley was an unmarried man, a native of the city of Baltimore, and from 50 to 55 years of age. The deceased is highly spoken of by those who knew him as a good member of community. I understand the cause of the rash proceeding to have been temporary aberration

ced by monetary difficulties. An adjourned meeting of the friends of the Peo-ple's Reform movement met last evening at the Railroad House, to hear the report of a Committee appointed at a previous meeting to select a Nomi-nating Committee of two from each District, whose duty it is to select candidates for the various offices in this city and county, to be voted for at the approaching election. The Committee, after care fully scrutinizing the character, qualification and occupation of the gentlemen to constitute the Nom-inating Committee, presented the names of two un-exceptionable citizens from each District, making tweenty-four from the twelve Districts. All the different political parties are represented on the Nominating Committee. The meeting last evening was large and very harmonious, and the names presented by the Committee were received with much enthusiasm, and unanimously adopted—Diamond Springs, have recently been purchased by those present entertaining the opinion that the gentlemen selected for the purpose will present candidates for the various offices to be filled that all who are favorable to Reform can conscientiously From present indications I am satisfied that this Reform party are strong enough to elect their nominees over the candidates of both political parties. This fall a new era will comme the administration of the affairs of this city. I trust that after the next election we shall have no more Woods, Scannells, or Stillman's in office in this city and county. This is a consummation well calculated to stimulate every voter who has the good of the city at heart to exert himself to the utmost until the desirable change shall be accomhe steamer Constitution, which left this port

They were compelled to throw overboard the freight on deck and a portion of that in the hold to keep the vessel afloat. Constant bailing and pumping was found necessary, and it was only through the extreme exertions of those on board (about eighty in number, nearly all of whom were able-bodied men,) that the steamer was kept affoat. a difficulty occurred between Dr. McClure, formerly of this city, and Hezekiel Jones. Words passed between them, when Jones pulled McClure's beard—whereupon the latter drew a knife and stabbed Jones twice, once in the left breast, and once in the right side. The wounds are both dangerous, and perhaps mortal. McClure gave himself up to the authorities, and was admitted to bail in the

PAINFUL ACCIDENT IN SANTA CLARA COUNTY .-

gaged in oiling the machinery connected with the bolting apparatus in the second story of his mill, on Tuesday morning last, having mounted on movable steps for that purpose, his foot slipped, and he fell forward among the wheels. His left arm passed through a large vertical cog wheel, and was caught just above the elbow, between the iron radius or spoke of the wheel and an upright post. The wheels were revolving slowly at the time, under a very light head of water, so that his arm stopped the machinery, and al-though the muscles and flesh were terribly crushed, the bone was not broken. He fell from the adder, and hung suspended by his arm several feet above the floor. As there was no one else in the mill at the time, he remained in this agonizing situation for a long time—he thinks a half hour-until his cries were heard by the neighbors on the other side of the Guadalupe, who came to his relief. The arm is doing well, and though severely bruised, is in no danger of mortification or permanent injury. Mr. Bassham's escape from more serious mutilation may be regarded as almost miraculous.

ATTEMPT AT SCICIDF .- An inmate of the County Hospital, familiarly known as "Montgomery, the Monson yesterday in the District Court, in support well digger," who engaged some time since in a of a motion to set aside a portion of a verdict walking match with Trainor, the pedestrian, and wherein the jury assessed the value of property has been suffering from emphysema and heart disease, attempted suicide yesterday morning, at the nesses in the case. Hospital, by cutting himself across the abdomen with a razor. Having obtained the razor several days previously from one of the patients, and acted suspiciously, the patient was ordered by Dr. Hatch to secrete it so that he might not again find it. The patient hid the razor under his mattress,

where it was afterwards found by Montgomery. As he was about to cut himself, a bed-ridden patient called to another to look to him, when he drew the keen edge across his abdomen, inflicting a horrible gash, extending from the right side far back under the ribs up under the breast bone. Dr. Hatch, Resident Physician, was immediately, in attendance and dressed the wound, from which there was an extensive protrusion of from which there was an extensive protrusion of the bowels. We understand that the attempt will probably prove fatal, the patient being in a sinking condition last evening. He expressed his reprobably prove fatal, the patient being in a sink-ing condition last evening. He expressed his re-gret that the wound had not proved immediately fatal; begged to be permitted to die; expressed his conviction that he was afflicted with an incur-able disease, and bade adieu to all his fellow patients as though satisfied he could not long patients, as though satisfied he could not long survive. Covert, R. H. Stanley and J. A. Crocker, of this city, who intend commencing the preparation of the same for market next week. For this purpose they have arranged for steam power at the Union Foundry, in Front street, and intend erecting suitable mills to prepare it in the dry state, and ground in oil. We witnessed vesterday the ing suitable mills to prepare it in the dry state, and ground in oil. We witnessed, yesterday, the preparation of the material and its application as a pigment, as also the results of previous experi-ments. It has also been fully tested on the decks of the steamer Henrietta, and given satisfaction— being in fact considered a superior article. Mr. Randall, we understand, painted a house with it at Diamond Springs some three years since, which looks as fresh as though applied last year, where as a building painted a year subsequently with Blake's Fire-Proof paint, at the same place, is sadly in need of a fresh coat. Several tons of the mineral will be brought to the city next week for the purposes of manufacture and meantime same. the purposes of manufacture, and meantime samples are being chemically annalysed, and may possibly prove to be more valuable for other uses. It is to be hoped that the enterprise may prove successful, especially as the paint can be manufactured and sold at a much less price than it can be imported.

STATE OF CALIFORNIA, DISTRICT COURT, 6TH JUDI-CIAL DISTRICT—John Myers vs. White et al.—This is an action to recover the possession of personal property. Upon the trial of the case the jury found in favor of plaintiff, and assessed the value of the property at \$199. Plaintiff is dissatisfied with the property at \$199. Plaintiff is dissatished with the value of the property as assessed by the jury, and asks that so far the verdict may be opened or set aside, and the question relative to the value of the property re-tried. In assessing the value of the property, the jury wholly disregarded the evidence in the case, and did manifest injustice to the plaintiff. The evidence showed that the property was worth from four or five to twelve or four teen hundred dollars, the very lowest relies affixed by the dred dollars; the very lowest value affixed by the witnesses was four or five hundred dollars, yet the

very great measure, to impair my respect for Jury trials. In too many instances the evidence in the case, and the instructions given by the Court, are entirely disregarded by jurors; when they are sworn, they promise to heed and obey them; but patients, as though satisfied he could not long survive. But for the fact that there was a Resident Physician at the hospital, he would doubtless soon have been in the land of spirits, as he so earnestly desired.

> principles of justice to set it wholly aside, and throw the whole open again on account of the mistake or misapprehension of counsel. There are many cases so situated that it would be highly proper to grant a new trial as to a particular point, or for the purpose of correcting a particular error or mistake." Hutchinson vs. Piper, 4 Taunt., p. 555. This is analagous to the case of judgments, awards and other legal proceedings, good in part and bad in part, where the Court will, if the position of the cause will admit of it, preserve that which is good and correct that only which is erroneous. Again, in the case of Boyd vs. Brown, 17 Pickering, p. 453, it was held that where the damages assessed by the jury are excessive, a new trial may be granted in order to determine the amount of damages, without opening the whole case. The a new trial granted with respect to the assessment of damages only, and thus the only error existing may be corrected without the expense of a new trial upon the merits.

The ruling of the Supreme Court of Massachusetts in the two cases cited, appears to be approved by Chief Justice Oakley, of the Superior Court of New York. 3 Sandford's Rep., p. 19.

In this case, it is ordered that the question relative to the value of the property be re-submitted to a jury, and so far, and no farther, the present vordict is set saide.

THE DELINOUENT TAX LIST SWINDLE. STATE OF CALIFORNIA, COUNTY OF SACRAMENTO-

The Mayor and Common Council of the City of Sacramento, plaintiffs, vs. George H. Baker and H. A. Appleton, defendants.—The above named plain-tiff complains of the above named defendants, and represents that, under and by virtue of an Act of the Legislature of the state of California, entitled "An Act to incorporate the city of Sacramento," which took effect and became valid by operation of law on the 26th day of March, A. D., 1851, and under and by virtue of other Acts of the Legisla-ture of said State supplemental and amendators.

the 14th day of May, A. D., 1856, plaintiffs and defendants entered into a contract, in writing, by which defendants agreed to do and perform all the printing and advertising of and for the plaintiff, the city of Sacramento, for one year from said date, at the following rates and prices, to-wit: "Fifteen cents per square of two hundred and seventy ems for each advertisement for the first three insertions, seven and a half cents per square of two hundred and seventy ems, for advertising each subsequent insertion," and for all blanks, &c., a price agreed upon in said contract.

Plaintiff shews that among other advertisements

rate of fifteen cents per square as aforesaid, and for the fourth and only subsequent insertion, seven and a half cents per square, making in all for the four insertions, fifty-two and a half cents per square

and intending to cheat and defraud this plaintiff, represented that said list amounted to sixteen hundred and seventy squares, which, at the price agreed upon, would amount to \$868.40—the amount charged by defendants for same; whereas in truth and in fact, said tax list and advertisements contained and amounted to but three hundred and twenty-nine squares, which, at the contract price, would amount to one hundred seventy-two and 73-100 dollars, which was all defendants were entitled to receive for said work.

Plaintiff says that by fraud, deceit and misrepresentation, defendants induced the plaintiff to allow, audit and pay the whole of said amount, to wit, \$568.40, whereas, in truth and fact, detendants should have charged and received for said work, under said contract, only \$172.73.

of this action, defendants have not paid and refunded to plaintiffs the said sum of money or any part thereof, to the damage of plaintiff of \$695 67, for which amount plaintiff asks judgment with

for which amount plaintiff asks judgment with costs of suit.

And further complaining, plaintiff says that defendants are indebted to plaintiff in the further sum of \$695 67 for that much money paid by plaintiff to defendants by mistake and inadvertence, before the commencement of this suit, and being so indebted, and in consideration of the premises, defendants undertook and promised to pay back and refund the same to plaintiff or request.

And plaintiff says that defendants are indebted to plaintiff in the further sum of \$695 67 for that much money had and received by defendants for the use and benefit of plaintiff, by reason whereof defendants became and now are indebted, and in consideration of the premises promised to pay plaintiff the said sum of money, to-wit: \$695 67, whenever requested.

And plaintiff says, though often requested, defendants have not paid the several sums of money mentioned in the foregoing complaint, or any portion thereof, whereby and by reason whereof plaintiff has been damaged six hundred and nine-ty-five and sixty-seven one-hundredth dollars, for which amount plaintiff asks judgment against defendants with costs of suit.

Plaintiff shews that among other advertisements necessary to be done and required by said con-tract during the continuance and existence thereof tract during the continuance and existence thereof, was the "City Delinquent Tax List" for the fiscal year 1856-7, which defendants advertised by procuring the same to be inserted in a newspaper published in said city, four times (which means four insertions) according to the requirements of the law; for the first three insertions defendants were entitled to recover under said contract at the

four insertions, fifty-two and a half cents per square of two hundred and seventy ems.

Plaintiff shews that the term "per square of two hundred and seventy ems," is known and understood only by practical printers and those learned and skilled in the printing business, and that plaintiff is wholly unacquainted with the same.

Plaintiff says that after advertising said delinquent tax list as aforesaid, defendants rendered an account of the same, charging at the price agreed upon in said contract, but as plaintiff is informed and believes, and charges falsely and fraudulently and intending to cheat and defraud this plaintiff, represented that said list amounted to sixteen

ants should have charged and received for said work, under said contract, only \$172 73.

Plaintiff further shews that plaintiff had had no knowledge of the fraud and deceit practised as aforesaid by defendants, until after they, the said defendants, had received said money.

Wherefore, plaintiff says that defendants ought to refund and pay to plaintiff the surplus over \$172 73, to-wit: the sum of six hundred nine-five and 67-100 dollars of the money received by defendants, as aforesaid, and that defendants are liable in law to plaintiff by reason of the premises to pay them the said sum of \$695 67 whenever requested, and plaintiff says, though often requested and duly demanded before the commencement of this action, defendants have not paid and re-
