CITY INTELLIGENCE.

PURSUIT OF BLACKBERRIES UNDER DIFFICULTIES A gentleman of this city, doing business on street, and whom we will call "F.," bethought himself, a day or two since, that he would recreate somewhat by a little trip into the country. Not being exactly prepared to go to Frazer, he concluded that he would avoid the perils of starvation and of Indians by going on a blackberry excursion. Following up this intent, he crossed the Sacramento one fine morning and wended his way down the river-now pushing through dense vegetation, and anon waging a fierce fight with mosquitoes, until at last he reached a spot where the nutritious berry abounded in rather gratifying quantities. He pitched in promiscuously, and after laboring some two or three hours in the sun, and in the midst of hosts of enraged and hungry insects, he had the satisfaction of perceiving that he had gathered several quarts of berries. Having been absorbed in his occupation, and being withal quite near-signted, he had not noticed that a band of Indians-bucks, squaws and pappooses-had been gradually surrounding him. He soon became conscious of that fact, however, on looking up and bearing the clamors of the party—and especially the shrill notes of the female Diggers, mingled with an occasional threat. He ascertained that they wanted his blackberries, for they pointed very significantly at his basket; but he affected ignorance of their wishes, and endeavored to im-press them with the fact that he was no proficient press them with the fact that he was no proficient press them with the fact that he was no proficient in either the Chinook or Digger jargon. But they were not to be put off in this way, and made a circuitous sign about his head to indicate that, if they didn't get blackberries, they would at least get that. Hereupon our adventurer weakened, and surrendered the blackberries. Sitting down upon the grass, they feasted luxuriously, and to their heart's content. Not being able to eat the whole they generously runned to him the helwhole, they generously returned to him the bal-ance-which, perhaps, might be about one pint and a half-exclaiming at the same time: "Vamos, hombre; Americanos no bueno!" Our friend, needed no urging, and made tracks with high-pressure steam power; but he was soon called back by the chief, who had just appeared on the the scene and wested his above. The Constant the scene, and wanted his share. The Capitan was not to be put off, and he took a full pint. Again was heard the ominous sounds of "vamos!" amos!" and our "rural cuss," with his half-pint of berries, broke for home like a quarter-horse. Since his return, he has been heard to say that he has no desire to go blackberrying again, or to Frazer--or to any other place where Indians circu-

CITY CEMETERY .- The following is an abstract of an Ordinance passed by the Board of Supervisors, on Monday last, and approved by the President yesterday, "Establishing and regulating a City Cemetery." The present Cemetery (including ten acre tract No. 10), together with the land since added, and which may hereafter be annexed thereto, is declared said Cemetery. The Board shall appoint a suitable person to superintend the same (under the direction of the Cemetery Committee), annually in the month of October for the term of one year unless removed by a two-third vote, and shall appoint said Superintendent at the next meeting after the passage of the Ordinance-7th of July next-to hold the office till Octobe next. No sexton or undertaker shall be eligible unless he surrender to the city all records of inter-ments in his possession or under his control, or a sworn copy thereof, which shall be done before his sword copy thereof, which shall be done before his bond (fixed at three thousand dollars), be ap-proved. The salary of the Superintendent is fixed at seventy-five dollars per month, with the privilege of appointing a deputy at his own expense. The fee for excavating and filling all graves shall not exceed \$5 each, and the sum of \$3 (for permit) shall be collected in each case, except as to inter-ments in the Fireman's Plat on privical lots or at ments in the Fireman's Plat, on private lots, or at the public expense—all of which is to be paid over to the Treasurer weekly. The President of the Poetdi understand Board is authorized to execute quit claim deeds to the Trustees of the Charitable Fund of the Fire Department of the City of Sacramento, for the grounds set apart for them, to those who paid for eases of lots, and monthly to those who purchas lots hereafter—the same to be recorded and the expense thereof paid out of the city funds; provided that if the lots be used for other than burial purposes the same shall revert, both in interest and possession, to the grantors. The Auditor and Clerk of the Board are both required to keep a record of the receipts and expenses of the Cemetery,

THE INSANE ASYLUM.

The San Joaquin Republican gives the followng statistics in relation to this institution :

We find by the report of the Trustees and Resident Physician of the Asylum that, on the 1st day of August, 1857, at the time when the present Resident Physician took charge of the Asylum, there were in the institution 162 patients, of which 132 were males and 30 were females. There were admitted, between August lst, 1857, and January 1st, 1858, 70 males and 16 females; and, during that period, there were discharged 27 males and 11 females. During that period 14 males and 3 females died, and 5 males escaped. Of the patients received during the period referred to, 17 of the males and 12 of the emales were married. Of the causes of the isanity of the 86 patients, 10 was dissipation, masturbation, 6 religious excitement, 2 childearing, 1 from the comet, 1 inordinate use of tobacco, and the balance from other causes. 0 these patients. San Francisco furnished 17, Sacamento 11, San Joaquin 9, Yuba 5, and the balance were from other counties. The entire number of patients at the institution January 1st, 1858, was 188, and the average cost of the support of each patient for the previous twelve onths was \$208 60, and for the previous five nonths \$86 92.

We have been at some pains to obtain some nformation in regard to the patients that have been admitted into the Asylum since the first of January, and have been afforded every facility in so doing, by Dr. Aylett, the Resident Physi-We give below the result of our inquiries. From the above, it will be seen that about two-fifths of the present inmates of the Asylum have become patients there since the first of January, 1858. It is estimated that under the present administration of the Asylum, the expense of the support of each patient has been less than the average cost of the support of in-sane patients in several of the Atlantic States, out still the expenses for the ensuing year, especially if the increase of patients continues in the same ratio as since the first of January, will necessarily be heavy.

INDIANS KILLED .- We learn from a party who came down from Gold Beach last week, of the kill-ing of thirteen Indians of the band who have been mmitting outrages in that section for some time past. From the accounts, it appears that Captain Fichenor had been endeavoring to get these thir-een Indians to go out and bring in the gang of ix who attacked Lieutenant Ihrie's train and mu dered Baker. This they had promised to do, but alterwards refused, and Capt. Tichenor gathered afterwards refused, and Capt. Tichenor gathered them with their squaws together and started for the reservation with them. They watched their opportunity however, and all escaped and left him. An express was sent to Gold Beach, notify-ing the people there of their escape, and warning them to be on their guard. A party from there then armed themselves and went out. But it seems the Indians, though they left themselves, did not succeed in getting their squaws off with them, and

the inditans, though they left themselves, did not succeed in getting their squaws off with them, and with a view of getting a better opportunity for that purpose came back to Capt. Tichenor again. They started for their reservation again, and on the way were intercepted by the Gold Beach party, who were in wait for them, and who shot every one of the bucks down. They were buried on the spot. On their persons were found clothing, shoes, etc., belonging to Taylor, who was murdered a for and following an almost invariable rule of alter nation, the present year will probably be remarkable for abundance. IANS AND WHITES .- The Humboldt Times ne 12th, gives the following account of the of the present difficulties in that region : the morning of May 29th, a party of eight or en went to the rancheria, on Eel river, a few above the mouth, and made an attack upor nch, killing one Indian and one squaw, and ing another squaw and a pappoose. The ho made the attack stated that their object take some guns which the Indians had in possession. Their course, however, was need by citizens generally, and on the 3d of some warrants were taken out, and on the 3d of some warrants were taken out, and Sheriff c, accompanied by some deputies, went to the arrests. C. A. Sherman, William Mc-d, *alias* "Billy the Rake," and a man by the of Baker, were all that could be found. were taken in custody by the Sheriff, and d before Justice Hansell, of Eureka, who held to bail in the sum of \$\$ 000 each on a cherca to bail in the sum of \$3,000 each, on a charge urder. Their names were Asa a and John Mackey. They were fired upon ne Indians in ambush, and both wounded by hot-Jordon quite severely. They did not bize the Indians who shot them; though y informs us that he saw one of them when the very act of firing, but that he was too ch excited at the time to recognize him. The inded men were brought down to Eureka, where their wounds were properly attended to. The loggers pretty much all left their work and came to Eureka, where they had a consultation upon the best method to bring the Indians to justice. A couple of Indians, called "Captain Jim" and "San Francisco John," were suspected of being concerned in the shooting, and it was determined that they should be punished. The citizens went in search of them but they were not itizens went in search of them, but they were no to be found, and four other Indians were taken and placed in jail in Eureka, and held as hostages for "John" and "Jim" went to Fort Humboldt and surrendered themselves to Major Raines, and were turned over by him to the Sheriff, who placed them jail, where they remained till the 9th, when

In jail, where they remained thi the 5th, when they were released, it appearing that no evidence could be brought against them. They are, no doubt, bad Indians, and will have to keep them-selves "scarce" in the neighborhood of Eureka in future. Considerable excitement prevailed in and about Eureka for three or four days, in conse-quence of the difficulty, but the inhabitants con-queted themselves with uniform deliberation and ucted themselves with uniform deliberation and their actions were characterized by well advised discrimination. Now what causes have led to this difficulty? Why have two innocent men been difficulty? Why have two innocent men been shot, and laboring men summoned from their work to respond to the call of this agitation? Would these men have been shot if no Indians had been killed on Eel river? And the character of the men men med attack of the men who made the attack on the Indianswere they peaceable and industrious men, who attend to their own business and do not meddle with the Indians? Far from it. Two of those with the indians? Far from it. Two of those arrested are notorious for having degraded them-selves to a level with the diggers by habitually living with squaws; and the third, we are in-formed, has been a hanger-on at one of their *white* rancherias. The difficulty with the Indians, like all former ones in this county, has its origin in, and is traceable to the disgusting, corrupt and licentious alliance of men. calling themselves LATER FROM THE SANDWICH ISLANDS. DEATH-A SHORT CHAPTER.-We understand that the woman who was recently taken from a that. house on First street to the County Hospital, and died in that institution on last Saturday morning, was named Anita Quintero, a native of Mazatlan, and an old resident of this city, where she was well known by many of our citizens. She came here in 1849, and settled on the American river, where she conducted a laundry and built a very respectable tenement in 1851. In 1853 or 1854 she was abandoned by her husband, who was allured by the charms of another. From this time she by the charms of another. From this time she contracted habits of intemperance, and sank rap-idly, having previously been very industrious and abstemious. In 1854 she went to Marysville, where she continued to reside till within a year, when she returned to the city, an invalid—afflicted with epi-lepsy. She was kindly received into the house of one of our citizens, and rendered such medical and other attention, as was deemed requisite. At one time it being supposed that she was deed the and other attention, as was deemed requisite. At one time, it being supposed that she was dead, the late Coroner (Dr. Bell) was sent for to hold an in-quest on the body. Through his ministrations she recovered sufficiently to induce her friends to sup-one that har health would be fully restrand pose that her health would be fully restored. Probably a resumption of her intemperate habits under the pressure of grief renewed her former ailment. The tale illustrates with what readiness life may be changed from a current of hope and

FOR FRAZER.-The schooner Matilda Heron is on her way up from San Francisco to receive freight for Frazer river, and will probably leave here on or before Tuesday next. Sufficient freight has already been engaged to secure her a full cargo. Mr. Peasley, of the Merchants' Hotel, will contribute the entire furniture of his house. Lewis Lewis, his turniture. Mr. Chandler, of the Dawson crowded with miners afoot, with packs on their the Fashion Saloon, a portion of which was ship ped on the steamer New World, yesterday. It is possible that the schooner Two Brothers will also be sent up to receive other freight that may offer, there being no other to succeed except the schooner Kossuth, which left San Francisco for Frazer river about ten days since. As the schooners S. F. Blunt, J. E. Murdoch, and Susan A. Owens are loading below for that point, it is probable that there will be scarcely anything left for the river trade except a few sloops, which cannot be trusted outside, and the river steamers.

It is certainly the finest structure of the kind in the State.

STOCKTON .- The Republican, of June 23d, ecords the annexed items of interest :

It is now ascertained beyond much doubt that Allen, the man who was wounded in the affray on Friday last, will recover.

According to previous notice, the second annual target excursion of the Stockton Blues took place yesterday. The company paraded at about ten o'clock, A. M., and after marching through the principal streets, headed by the Stockton Cornet Band, proceeded to a beautiful grove, some distance to the west of Dr. Hunt's residence, where they halted. After the usual preliminaries were arranged, the exercise of target shooting commenced, and the board was gloriously riddled. It is seldom, indeed, that a stronger evidence of good markmanship is presented than the target of the Blues. The following named gentlemen won the various prizes : First prize, Company medal-James Sherrod. Second prize, silver cup-Leroy Smith. Third prize, gold seal and key-O. H. Perry. Fourth prize, silver cup—Joseph Scott. Fifth prize, leather medal—J. H. Keeler.

The Stockton Argus, of the same date, says:

About two hundred persons took passage on the Helen Hensley last evening, for San Fran-cisco, en route for the new El Dorado. The greater portion of them arrived on the stages during the day, while others reached here in freight wagons and on foot. We are informed the other three of the Hooshtanatans. One of them who had run, drew a pistol when he fell and shot one of Has' party in the shoulder. The bodies were cut and mutilated in a horrible manner. After the affair was known in town, Wm. Caulfield with a party proceeded to the spot, and knowing the dead Indians well, identified them as the band who have always been at war with the whites. The belt and partaloons belonged to Belong who by a passenger from Mokelumne Hill that the road from that place to this city, was literally House, his billiard tables, etc. Bryant & Co., sun-dry articles; and considerable of the furniture of the Fashion Saloon, a portion of which was ship-ad on the steamer New World vesterdar. It is backs, plodding hastily along, as though every of their brightest dreams of the untold wealth who have aiways been at war with the whites. The belt and pantaloons belonged to Baker, who was killed while with Lieut. Ihrie's supply train week before last, were found on them. A sub-scription was started for llas and his party in this torm and quite an amount raised in store for them on the banks of Frazer river. Many of them have but little means, and practice economy to the injury of their health and the sacrifice of every personal comfort, in their eagerness to reach the new gold fields. The town, and quite an amount raised. stages came in yesterday over-crowded with passengers ; from one of whom we learned that the regular lines of stages did not afford accommodation for half the number that were on the eve of leaving for Frazer river. Many had chartered British North America. The quartz is of a dull Concord wagons, and arrived here in time to greenish white color, from which the gold crops

was rendered yesterday, in the Police Court, against the Spaniard, Francisco, who assaulted Frank Rhodes with a knife, some days since. The defendant in default was committed. We under-stand that there is still another charge to be pre-sented against him. He has the general reputation among his acquaintances of being a very desper-ate, vindictive fellow, who will harbor a project of resentment on the first favorable opportunity. Alta, June 22d.

A young, fascinating and not altogether beard Ilas said that while he was bathing on Saturday morning last, his squaw told him she had seen the Chief of the renegade band, who said he was look-ing for his squaw. Ilas immediately went to his ranch for his fighting men, and proposed to attack them, saying that the Crescent City waugies would pay them well for killing them. He went first himself to the place where the Hooshtanatans were, which was on a mound or peak half a mile from Smith river, and had his men advance from different directions, two together. The Chief asked Ilas what he wanted, and he replied, not to fight with him, but to talk. The Chief told Ilas he was "sullix" at the whites, wanted to know about their houses, etc., and said he was going to wait till dark, and then going back to Chetcoe to kill the white men, mentioning Tom (Van Pelt) by name. Ilas encouraged him to do so, and being afraid he had not brought enough of men to effect his purpose, pretended to be cold, and sent one of his men for a blanket, giving him secret instruc-tions at the same time to bring up more of his Ilas said that while he was bathing on Saturday less fellow, "leaked out" of town the other day being in arrears to a number of our business me for grub, etc. His destination is supposed to be Freezer river, but he designed tarrying a few days in Marysville. sulphuret of iron. The specimen seems to be thoroughly impregnated with sulphur, which marks the quartz clearly on its edges like a third layer in a lead-gold decomposed sulphuret of iron, and sulphur. The quartz itself is as hard as feldspar in some portions, whilst in others it partakes of the characteristics of limestone .-DROWNING OF THE CHINAMAN .- The examination

of the case of Michael O'Neil, heretofore reported of the case of Michael O'Neil, heretofore reported as Mike Daris, who is charged with being instru-mental in the drowning of the Chinaman, Chim Yow, in the Slough on Monday, was postponed yesterday in the Police Court till to-day.
