

DEMOCRACY—"A sentiment not to be appalled, corrupted or compromised. It knows no weakness. It covers to no danger; it opposes no weakness. Destruction only of despotism, it is the sole conservator of liberty, labor and property. It is the sentiment of freedom, of equal rights, of equal obligations—the law of nature pervading the law of the land."

COUNTY OFFICIAL PRESS.

STOCKTON:

THURSDAY MORNING, April 7.

Democratic City Committee.

A Meeting of the Democratic City Committee will be held on SATURDAY, April 9th, 1899, at 10 o'clock A. M., at the Parlor of the Weber House. A punctual attendance is requested. P. EDW. CONNOR, Chairman.

Stockton, April 6th, 1899.

The California Democracy.

The action of the Democratic State Central Committee, on the 21 inst., was the first gun which announced the commencement of the conflict of 1899. Since the gallant, and at the time of the commencement of it, apparently doubtful struggle of 1898, the result of which was one of the most brilliant victories ever won by the democracy, and a Waterloo defeat of their opponents, our forces have basked in the sunshine of their victory, and are now rested and refreshed, ready again to plunge into the conflict upon the first alarm of the enemy's approach. Knowing as the committee did, that many who fought against us at the last election, most heartily repented the rash act, and were ready to return to the democratic party, they extend to them a cordial invitation to show the sincerity of their regret, by rejoining our ranks in season to share with us the victory which will again inevitably perch upon our banners in the contest which is now heralded. Among the resolutions adopted by the committee, we find the following:

Resolved, That we recommend to the several County Committees throughout the State to establish a test of qualification to govern the primary meetings, which shall be that the person desiring to participate in said primary meetings shall declare that he voted for the nominees of the last regular Democratic Convention held in the city of Sacramento, on the 4th day of August, A. D., 1898, and presided over by James H. Hardy, or that he indorses the platform of principles adopted by that Convention.

And now to make the platform perfectly clear, we give the resolutions which particularly distinguished that document:

Resolved, That the act of Congress, known as the English Compromise Bill, having referred the whole subject of the admission of Kansas to the people thereof, we do, without regard to former differences of opinion, accept and abide by that reference, and cannot but deem any attempt to revive the agitation of that subject in national politics, as a violation of the spirit and intent of the Kansas-Nebraska law, and dangerous to the peace and integrity of the Union.

Resolved, That we have undiminished confidence in the wisdom, patriotism and democracy of the Chief Magistrate of the United States, and pledge to him and to his Administration, the earnest support of the people of California, in maintaining the honor and integrity of the Union, both at home and abroad.

Resolved, That the present Democratic Administration of this State is entitled to and receives our cordial approval.

This portion declares most emphatically that the democratic party were ready to abide by the settlement made by the English Kansas Bill, and that it had full faith in the integrity, firmness, and patriotism of the President and the Administration. It supports the democratic church and its head, and does not go out of the way to bow down to individuals and defend their peculiar views.

As in a church, so in a party must order and harmony be preserved. If an individual or individuals differ in opinion from a large majority of the representatives of the organization, it is a thing to be regretted; but if they persist in this opposition to such an extent that they feel called upon to denounce the head of it, when sustained by a large majority in the body, and feel compelled to join with its enemies in attempting to break it down, then the sooner they leave the party or church the better for all. No party was ever strengthened by retaining in it a heretic, grumbler, or disorganizer. It was a blessed thing for our party in California that this class did take themselves out from among us and form an organization of their own.

It is to those who were induced to stray from the democratic fold and follow the lead of such as these, that the committee now extend the invitation to return to their ancient friends. The blindest of them could not have failed, last fall, to have seen that they were acting as the allies of the enemies of the true faith. What the committee recommend as the test, is but just and reasonable. No true democrat should refuse to indorse the head of his political church and the action of a majority of his brethren.

The Alleghenians.

This talented troupe of vocalists will appear at the City Hall to-morrow evening. To those who were present at their concert in that Hall a few months since, we need not say a word. Miss Hiffert is still with them, and they will give us some more of the delightful music of the Swiss Bells. They will give but one concert, as they are to appear at Knight's Ferry on Saturday evening.

A Sight for the Ladies.

Mr. Rolland, late of the firm of Rolland & McCahill, has fitted up the old stand in very handsome style. He has fitted up two large and elegant show windows, after the fashion of the Broadway of the Atlantic cities. The store is well worthy of a visit, from the ladies, as there is nothing like it in town.

City Taxes.

City tax payers are reminded that all taxes not paid before Saturday, 23d inst., will be at once advertised as delinquent, there being no interval allowed after the time limited for their collection by the Marshal.

Sale of Policemen.

It will be remembered that some time since, there was a fatal affray at Snelling's, Merced county, in which Bloodworth, Goodwin, and others, were concerned. Indictments were issued against certain parties, one of whom took refuge in San Francisco. Within a short time, the San Francisco officers, who had been on the look-out, became satisfied of the fact that he was in that city, and as it happened, he became aware of the fact that he was being watched. Making the necessary arrangements, therefore, a brother of the accused threw himself purposely in the way of the police, and "played off" so well, that Chief Burke arrested him, being fully persuaded by the "confessions" of the prisoner, that he was the man. He was put in the Station House, and word sent by the police, first to Sheriff O'Neal, of this county, who referred them to the Sheriff of Merced. That functionary hurried down to San Francisco, and after a consultation with Mr. Burke, but without seeing the prisoner, was satisfied the right man was taken. A short time before the boat started for Stockton, a day or two since, the Merced Sheriff went with his shackles after his man, when lo! and behold, the brother presented himself, and coolly informed the officer that the right man had started off while he was a prisoner, and was half way to Acapulco. The brother was released fully satisfied with the success of his stratagem.

Plundering Flower Gardens.

A young man who has a handsome garden, in the southern portion of the city, in which he takes much pride, has suffered great annoyance and loss by the acts of persons who have no more regard for right, than to go in and dig up such plants as suited them, and carry them off. Depredations of this kind have been carried on with great boldness and recklessness, and to an extent which has greatly damaged his place. Much mischief has been done also to trees and plants, by persons attempting to drag them up from the ground. The owner has tried for some time to detect the guilty parties, and yesterday afternoon was successful. It proved to be, we are sorry to say, a woman, who entered the place while he was absent at his work. The proprietor, who was willing visitors should walk about his garden, left his gate unfastened and chained up his dog, but the uproar of the animal attracted the attention of the neighbors. A complaint has been entered in Justice Brown's Court, and we presume the case will be examined to-day.

Land Sales.

The aggregate amount of land sold at auction, from the 14th to the 26th of February, at the Stockton Land Office, was 8,023 77-100 acres, and the amount realized was \$10,807 17. Of this, the purchasers of about 7,000 acres, were residents of San Joaquin county; Stanislaus, 740; Sacramento, 640; Merced, 220; Mariposa, 80. Of these lands, 40 acres in San Joaquin sold for \$4 62½ per acre, 80 for \$7, and 79 for \$2. Thirty-four acres in Merced, sold for \$2 60 per acre, and 29 at \$3. All of the balance was sold at \$1 25 per acre.

Since the close of the auction sale, there has been sold at private sale in San Joaquin county, 2,097 acres; Sacramento, 807; Stanislaus, 263. Total, about 3,000 acres, at \$1 25.

Asylum Appropriation.

The Senate on Tuesday passed a bill making an appropriation of \$5,000 for repairs upon the Insane Asylum, and for padding the cells in which the more furious patients are confined. The claims of M. Clark, \$17 50, and H. Lewis, \$22, were authorized to be paid, by a vote of both Houses. The bills of Messrs. Marks & Bro., \$97 77; Cohn & Co., \$173 25; Fanning & Co., \$700, and J. S. Scales, \$137 25, were audited also by both Houses. There will be two or three more claims reported to-day, which constitute the whole.

Card from the Marshal.

Editor Republican.—I notice an error in your Council report for the 1st inst., which I hope you will correct. You make it that "there is in the hands of the City Marshal \$2,000 of licenses uncollected, and also the ground rents for March and April." It should read that there is in my hands, uncollected, between fifteen hundred and two thousand dollars, altogether. By making this correction, you will much oblige

J. B. KENNEDY, City Marshal.

The Bell Tower.

Some uneasiness appears to have been felt by some of our citizens in regard to the great weight to be placed upon the roof of the Court House, by the erection of the bell tower. The opinion of those who are pretty well calculated to judge, is that the weight will not be over ten or twelve tons, which the building should easily support. The impression seems to have gained ground that the weight would be over thirty tons.

Death of an Old Resident.

In another column will be found a notice of the death of Mrs. Charles Dallas. Mrs. D., with her husband and family, arrived in California in 1849, and in Stockton early in 1850. Her death will be a severe loss to her family and friends.

THE STATE PRISON.—Hon. Thos. Laspeyre writes to a friend in this city, that the investigation of the affairs of the State Prison was of the most searching character, and the report will be very full. Mr. Laspeyre was absent on the State Prison Committee during the whole time the Division bill was being log-rolled in the Assembly, and would not have arrived at the Capital in season to vote against it, had not action on it been delayed for a day, by request of Mr. Holman, his colleague.

ELECTIONS.—Four State elections will take place this spring, viz: New Hampshire, March 8th; Connecticut, April 4; Rhode Island, April 6; and Virginia, May 26. In each of these States a Governor is to be chosen, and also members to the next Congress.

Indian Matters.

A Sacramento correspondent of the *Alta* says:

Mr. Storms, Indian Agent at Nome Cult, has just arrived in this city from the Reservation, which he left on the 20th March. He reports the Indians in the mountains troublesome. Some weeks ago they killed a stallion worth \$1,000, belonging to Judge Hastings, of Benecia. Lieut. Dillon, with fifteen soldiers, went out to arrest the offenders, when his force was attacked and one of them shot in the breast. Two Indians were then killed and a number wounded. The wounded were brought into the Reservation. The Indians were of the Ute tribe.

The season is one month in advance of last year in Round Valley. The agent has 5,000 acres enclosed with a substantial fence, and already has some 400 acres sown with wheat, oats and barley. The Indians are engaged in plowing, and a large amount of vegetables will be planted this spring—there are one thousand Indians, at present, on the Reservation. Little sickness prevails among them. A grist mill has lately been completed on the Reservation, also the house of the agent. The trains sent down Ukiah Valley, three or four weeks ago, have not been heard from. Mr. Storms reports more snow in the Coast Range than at any time since the discovery of gold. He was four days getting across to Nome Lackee Reservation in this valley. Old King Weimar accompanied him, and carried back the Mail to Nome Cult. The cabin on the Summit was covered with snow—which lies to the depth of twenty-five feet, and extends nearly to the foot of the mountains on this side. V. Geiger, agent at Nome Lackee, has also arrived. Every thing quite prosperous on the Reservation.

Where is He?

The *Golden Era* published a letter written by Wm. Seneca Stewart, dated St. Louis, Feb. 12th, 1899, in which the writer cautions the public to beware of a man named Charles Barry alias Wharton, but whose true name is Whittles. The story is simply this: Barry had been a stage manager and lived with Stewart, whose wife he had seduced. While Stewart was at Nashville, Barry and his victim eloped, taking with them her only child. Upon his return he was unable to obtain any clue to them, but after a while, heard they had gone to California, to act as agent for James Anderson, the tragedian, and, in conclusion, says:

"You will doubtless see Anderson's agent; if he be Whittles, he is a tall and well formed man, with an ugly face, long nose, blue eyes, light curly hair, and but little of it; is slightly pock-marked."

It is said that Anderson's agent does not look at all like the person described, and has not possession of Mrs. Stewart and her child.

Robbery in San Francisco.

The San Francisco National says:

A daring highway robbery took place on Telegraph Hill, near the corner of Alta and Union streets, Saturday night, about ¼ to 9 o'clock. Henry Ford, the man who was robbed, was walking along near the old windmill when he heard rapid footsteps behind him. He looked behind, and as he turned, he saw three men who were following him, caught him by the throat and beat him back double. Ford struggled hard, but he was powerless in his position, and they robbed him of all that was on his person, including \$47 25 in cash. A person living in the vicinity happened to hear the struggle and came to see what was up, when the robbers took to their heels. They stole Ford's silver watch, No. 7974, and were about to take his clothing, when they were interrupted, and fled. Ford lives in a shanty on Union street, near Battery.

ABOLITIONISM RAMPANT.—The New York Assembly, in Special Committee, reported a Personal Liberty bill, to nullify the fugitive slave law, and providing that no person in the State shall be considered property, or subject to sale, or deprived of their liberty without due process of common law and trial by jury. The penalties for inflicting on this law are, a fine of \$1,000 to \$5,000, and twenty years imprisonment. It declares that every slave coming into the State by the consent of his owners, shall be free.

A WOOLY HEAD.—The *Bulletin* states that Thornton Kenny, a negro at San Francisco, struck his negro wife on the head with a hammer, when she fell apparently lifeless. A surgeon was called, who managed to restore the woman and bound up her wounds; she is now doing well. The surgeon, Dr. Atchison, says that had it not been for the woman's luxurious wool, she would certainly have been killed by the blow. The wool acted as a protection, with as much effect as a pad purposely placed there could have.

PLEASE EXPLAIN.—The San Francisco *Alta*, in its table of the price of stocks, quotes San Joaquin County Bonds at 78 to 82 cents, and Stockton City Bonds at 80 and 85. The list purports to be "corrected to date." Both our city and county recently advertised in this city and San Francisco, for redemption of several thousand dollars worth of their bonds, and they could not find a man willing to give one up for less than par. These market reports are apt to be great humbugs.

HUMBOLDT WAR CLOSED.—The warfare upon the troublesome tribes of Indians in Humboldt county, which has been vigorously conducted under the command of Gen. Kibbe and Captain Messic, was closed a few days since. The volunteers have been discharged from the service.

FOR THE EAST.—The steamer *Golden Age* carried away \$2,081,755 in treasure—a large shipment, and 800 passengers, 22 of whom went by the way of Tehuantepec. The *Uncle Sam* carried 715 passengers, but no treasure. The whole number of passengers was 1,515.

DEAD.—Joseph W. Holster, Albert Winship and H. L. Ostrander, wounded by the explosion of the Costa Costa, on Sunday, have since died. There are several persons still missing.

DROWNED.—An unknown man was drowned off Jackson Street Wharf, at San Francisco, on Thursday night last. His body was not recovered.

MINER KILLED.—A miner named Michael P. Ault, was killed at Downsville, last week, by the caving of a bank.

CHINESE EMIGRATION.—The Clipper Ship *Fearless* sailed from Hong Kong, Tuesday, with 175 passengers.

THE "REV. BROWN."—The Rev. Mrs. An-ping-ta L. Brown has been preaching in Worcester, Mass.

A WHITE MAN AND INDIAN BOY MURDERED.—The *Shasta Courier* says: Louis Yank and R. Johnson returned last week from Pitt River Valley, where they have been "snowed in" during the winter. On their way down they passed the place lately located by Mr. Predmore for a ranch, about eighteen miles west of Fort Crook. Here they found the dead bodies of a man named Burney and an Indian boy, who had been left in charge of the place. His throat was cut. Appearances indicated that the boy had been compelled to pack the provisions amounting to several hundred pounds and other effects, to that distance, and that he was then cruelly butchered. An unfinished letter, written by Burney, was found dated the 11th of March, from which it appears the last act of his existence was writing these words: "There are three Indians in camp at this time," at which instant, from appearances he was struck on the back of the head with a hatchet.

BADLY SCARED.—At Havana, so much did the authorities dread a revolution, that all foreign white laborers on the island of Cuba were ordered to leave when their engagements expired, and the Captain General will not permit any more to be employed. All copies of the New York *Herald* in the possession of the passengers by the Isabel, were seized and taken from them by the Government officers, in consequence of our position on the purchase of Cuba.

TROTTER HIM OUT.—An Eastern paper, says:

"The latest Presidential rumor from Washington is novel, but not strange or startling in these times. The rumor comes from the Washington correspondent of the Cincinnati *Gazette*, who gravely affirms that Forney and Broderick are busily engaged in bringing out Wm. H. Seward, believing him to be the man to save the country in 1890. Russian things than this have happened."

IMMENSE FLOCK OF SHEEP.—A flock of 63,000 sheep have reached Monterey, driven from New Mexico. We understand that the enterprising firm of Leopoldus Haskell & Co. have made a contract for the wool from the whole number, the purchaser to do the shearing. It is expected that near 200,000 pounds will be the result of this shearing.—San Francisco *Call*.

WORSER THAN CALIFORNIA.—Out of 123,547 children between the ages of five and fifteen years, in the city of New York, 41,898, more than one-third of the whole number, go to no school, public or private, and receive no sort of education but that furnished in the streets.

LOTS OF WINE.—A recent letter from La Rochelle, France, says the yield of the grape has been more abundant than drinkable water. Coopers were employed night and day, but, being unable to supply the demand for casks, the wine had to be converted into brandy.

THE AMERICAN HORSE TAMER.—Mr. Rarey, the horse tamer, is now in Russia, on a special invitation from the Emperor and the Imperial Court.

DIED.—In this city, April 6th, M. B. Betsy Dallas, wife of Mr. Charles Dallas, aged forty-seven years. [Iowa and Texas papers please copy.]

The funeral will take place from the Presbyterian Church, this afternoon, at two o'clock. The friends and acquaintances are invited to attend, without further notice.

HOLLOWAY'S Ointment.—To those tormented with piles, or with profuse swellings of the glands, scabious eruptions, or any disease of the outward membranes, its preparation gives immediate and permanent relief.

Sold at 80 Maiden Lane, N. Y. ap7:1w

READ THE FOLLOWING LETTER

(Copy of Original.)
NAPA, Calif., March 16th, 1899.
MR. McFARLAND—Dear Sir: I arrived in this city last July, and myself, wife and child were entirely prostrate with Fever and Ague, and had been so for three months, without finding anything to relieve me. At last I tried McF's Bitters, and by the use of four bottles, I am completely cured, also my family. I have never known any medicine so strengthening as your Bitters, and I always keep some on hand to resort to in case of necessity. Yours truly,
J. B. WARREN.

CHAS. CHRISTIAN,
Wagon-Maker and Blacksmith,
Market street, opposite the Jail, Stockton.

FOR SALE.—A good assortment of Spring, Express, Market and Peddling Wagons, together with one family Carriage.

All kinds of Wagons manufactured to order. Altering and repairing executed at the shortest notice. ap7:1m

PREMIUM SODA WATER!

LIPPINCOTT & BILDING

WOULD INFORM the citizens of Stockton and the surrounding country, that they have taken the PREMIUM at three several California State Agricultural Fairs, for the manufacture of SODA WATER, and are now prepared to make and furnish, in large or small quantities, the most delicious and healthful beverage, and feel no hesitation in saying that no other one is so well adapted to this climate in warm weather.

As an evidence of its healthfulness, we quote the following from Wood & Bach's Dispensary, a medical work of standard authority, which speaks for itself:

"SODA WATER

Is a sparkling liquid, possessing an agreeable, pungent, acidulous taste. It is largely consumed both as a beverage and as a medicine, being dispensed in many of the Apothecary shops in the United States. It is diaphoretic, antiseptic; it forms a grateful drink to febrile patients, allaying thirst, lessening nausea and gastric distress. It also forms a very convenient vehicle for the administration of magnesia, and the saline cathartics generally; rendering these medicines less unpleasant to the palate, and, in irritable states of the stomach, increasing their chances of being retained."

The long experience of the undersigned in the business, together with the superior facilities they possess, give them advantages over any other manufactory in the State.

They also manufacture ARTIFICIAL CONGRESS WATER, possessing all the properties of the Saratoga Water.

Orders for Soda Water, Syrups, Essences, Bitters, Patent Acid Grease, &c., promptly filled. LIPPINCOTT & BILDING, Weber Avenue, Stockton. ap5:3m
