

# SACRAMENTO DAILY UNION.

WEDNESDAY, SEPT. 16, 1863.

## NEWS OF THE MORNING.

We are without our usual overland dispatch this morning, owing to storms east of Laramie interrupting the passage of the electric current over the wires.

A dispatch from Surveyor General Houghton informs us that Aurora, heretofore supposed to be within the limits of California, is in Nevada Territory, three or four miles east of the California line. The vote of Aurora was counted with the vote of California at the recent State election.

It is reported, as we learn by telegraph, that Indians have recently attacked Little Prairie, Trinity river, killed some Chinamen and burned the trading post there.

Abraham J. King, a reported miser, who has been the subject of many a newspaper para-graph, died yesterday in the San Francisco Hospital.

By Overland mail we have detailed advices from New York to the 25th of August. The journals received contain but little war news not already received by telegraph. We publish some further particulars of the Lawrence massacre, and some correspondence between Gilmore and Beauregard, in respect to carrying on the war in accordance with the usages of civilized warfare. Beauregard's views upon this subject are noteworthy and characteristic.

In the Supreme Court yesterday, opinions were filed in the following cases: Houston vs. McKenna. Judgment reversed, the order sustaining the demurer set aside, and the defendant allowed ten days from a service of a notice of the filing of the remittitur in the Court below to answer the complaint.... Houston vs. Gauthier et al. Judgment reversed; as in the previous case.... Houston vs. Jones et al. Judgment reversed.... Conlin vs. Seaman. Judgment affirmed.

FIRST FAIR IN NEVADA TERRITORY.—Yesterday we received a large handbill, printed in brilliant colors, in which it is announced that the "First Annual Fair of the Washoe Agricultural, Mining and Mechanical Society" will be held at Carson City, commencing on the 12th and closing on the 16th of October. Premiums to the amount of five thousand dollars will be awarded. The enterprising people of Washoe are marching in the right direction. Young as is their Territory, they recognize the agency of agricultural, mining and mechanical societies in the industrial progress of a community, and hasten to organize one which will aid immensely in the development of the vast wealth of the Territory, whether in agriculture, mining, or in mechanical industry. In agricultural, it would be unreasonable to anticipate any very great progress in a time so limited, and upon a sterile soil, which is located in mountain valleys about 4,000 feet above the level of the ocean. In stock, a fair display may be made by exhibiting animals from California, or from the Eastern States. We do not suppose, either, that Washoe can yet be much celebrated for the mechanical products of her citizens. But in mineral specimens the exhibition ought to be, and doubtless will be, the richest ever looked upon by the eyes of men. When a State Government is organized this Society will be very certain to become the State Society, and will occupy the same relative position which our State Society does in California. It is gratifying to see such a tribute to the utility of agricultural societies, and annual Fairs as is furnished by this Washoe notice of a Fair to be held in Carson City. As it is to be held in October, when most of the Fairs in California are over, it is probable that a good many visitors from this side of the mountains may be present on the occasion. The mineral display will repay a trip over the mountains, though the exhibition of minerals at the State Fair, it is believed by the officers, will far exceed anything of the kind ever before witnessed on the continent of America. The "Washoe Agricultural, Mining and Mechanical Society" has our best wishes for its complete success in every department. The organization of such a society is highly creditable to the intelligence and correct views of the people of the Territory.

And while upon the subject of Fairs, we feel justified, in consideration of the near approach of the day for the opening of the State Fair, in copying, as a fitting ending for this article, the following kindly and just notice from the Marysville Express. As that paper truly remarks, "the people of this State should have an honest pride in these annual exhibitions." The Express says:

The California State Fair will open at Sacramento on the 25th instant, and from what we can learn we believe it will be a success. The people of the State should have an honest pride in these annual exhibitions, which gathering will call forth the energies of all those who have truly at heart the welfare of our young and growing State. As attention is being diverted to other sections for mineral wealth, those who have the means and opportunity to interest the world and make up the deficiency. The eyes of the world have been turned to the agricultural productions of California. Our harvest fields have defied all competition, and the products of our farms will compare favorably with any in the Union. The productions of our orchards are such as to astonish fruit-growers abroad, while our state gives nourishment to the world, and is destined to continue to grow and increase. When then, should not our agricultural and horticultural exhibitions be as to reflect credit on the people of the Pacific coast. If we do not take a proper advantage of the opportunities offered, we will soon gain the reputation of being an indecent people. We are pleased to hear that our fruit growers and cattle and horse raisers intend to exhibit especially at the coming State Fair. We hope they will receive a welcome as a recognition of their time and trouble. Let all branches be represented on the above occasions. Not only let the productions of our fair be placed on exhibition, but we call upon the owners of these articles to come forward and come forward with their specimens and let the people know that our treasures have not all been exhausted, but that ours still yet invite the enterprise of the capitalist and hard hand of the laborer.

AN EXCHANGE.—The Commissioners appointed to run a boundary line between California and Nevada Territory have decided that Honey Lake (now Roop) is in California, and Aurora, in Mono county, in Nevada Territory. One will, therefore, be exchanged for the other. California, in territory, will have the advantage, as she gets a whole county claimed by Nevada, and which has been represented in the Territorial Legislature. But on population the Territory will have the advantage, as Aurora is quite a populous town. It is not a little singular that the Council of Nevada Territory should have been presided over by Roop, who represented Honey Lake county—but who was, in fact, a citizen of California—while the Assembly of California was presided over by Machin, a resident of Aurora and citizen of Nevada Territory. The line, though, had not been run, and they supposed themselves to be citizens as represented.

A CANDIDATE.—One of the former proprietors of the Marysville Express—Lloyd Magruder—is a candidate for Delegate to Congress from Idaho, subject to the action of a Democratic Convention. He announces himself a Democrat-Copperhead or Butternut, and from his letter, which is published as a circular, it is clear that he is as thorough a Secessionist as he was while in the Express. He says:

I am opposed to the war policy of the Administration, but on a political basis, not by principle. I have no objection to the war, but I do not like the way it is conducted. I have no objection to the war, but I do not like the way it is conducted.

He is so clearly a rebel in sentiment that he would be welcomed as one of them in Dixie. The Express, too, could be published in Dixie with perfect safety.

SOLDIERS IN SAN DIEGO.—The soldiers' vote at the barracks in New San Diego gave the Union State candidates about forty-three votes, and the Copperhead candidates about ten votes. They also gave the Placer Union county ticket about thirty-five votes, and the Secesh ticket about five votes.

NEVADA TERRITORY.—Judge North, of the First District, was sworn in on Monday, September 14th, and soon after opened Court.

## SPIRIT OF THE NEW YORK PRESS.

BY TELEGRAPH TO THE UNION.

Personal Collision—Death of King, the Money Lender—Stabbing Case—Arrests—Reported Loss of a Steamer.

San Francisco, September 15th.

There was much excitement on Montgomery street noon to-day, in consequence of a personal collision between Frank Lawton, Secretary of the Board of Brokers, and Jones, clerk for Dick Berry. No one was injured.

Abraham J. King, the miser known as the Money King, died to-day in the hospital. Of his reputed wealth only some \$7,000 have been discovered. He was a native of New York, of Jewish parentage, and aged about fifty years.

Charles Yelverton, a partially insane man, stabbed Wm. Vincent to-night; would not speak.

Arrived from New Hampshire on Tuesday, 15th, from New York to Diboll, ship the Quixote, 62 days from Hongkong, via Simoda; brig Roslyn, 105 days from Calcutta, to Gibbs; bark Alana, 176 days from Liverpool, to Dupuy, Foukou & Co.

The chance to bring to the good old soldiers is that they will be protected and not made to fight against their own companions. Proclaim an amnesty, and let them stand by us, and many of them will abandon Lee in spite of triple lines of pickets. The rebel rank and file are not thoroughly penetrated with sympathy for the avowed object of the rebellion. They are the victims of a sense of treason willing at first, but who have long since become disaffected, and cannot succeed. Among these classes is dissatisfaction, and they should be given a good opportunity to prove it.
