SAN BERNARDINO:  
SATURDAY, FEBRUARY 23, 1867.

## The Indian Campaign---Four Killed.

On Tuesday evening the company of rangers, which had been fitted out and dispatched by the citizens of San Bernardino in search of the Indians who were committing outrages upon persons and property returned to this city. They had a long and harrassing tramp of it, but finally succeeded in bringing some of the savages to a peaceful condition—making them “good Indians.”

On the 8th inst., a company consisting of fifteen men, started out for the desert, by the way of James' mill and Bemus' ranch. From the latter place operations commenced, by sending out two skirmishing parties, who soon came upon Indian tracks, which they traced for a distance of over twelve miles, in the direction of Camp Cady. On the 12th, a party started to intersect the trail from the saw mill mountain, and crossed the desert between Rabbit Springs and Mojave river. On the

in with the Salinas  
River Reservation, com-  
prising square miles, lies on

14th, the various parties having returned  
to camp, the whole body set out for the In-  
dian rendezvous, which they found at Rab-  
bit Springs, but so strongly fortified, they  
having erected breastworks of rocks, and  
with such a force defending it, that it was  
deemed imprudent to make an attack. A  
messenger was sent for reinforcements, and  
the company returned to the river, for water  
and grass. On the 16th the reinforcements  
arrived—four men—when another advance  
was made upon the enemy. The camp was  
attacked, the men having to climb up the  
steep mountain and over the rocks on all  
four sides, and the skirmish continued till dark  
that it compelled a cessation of hostilities. The  
Indians were driven from their fortifica-  
tions, but one of the attacking party, Mr.  
Richardson, was wounded in the breast by  
an arrow. Four prisoners were taken. On  
the 17th, the mountain was surrounded  
and scouting parties of two or three men  
each, sent out to ascertain the whereabouts  
of the Indians. On the 18th, fresh tracks  
of a large party going toward the fortifica-  
tion were discovered. The men rallied and  
made another charge, beginning the attack  
about three o'clock and keeping it up till  
dark. At the conclusion, four dead In-  
dians were found on the ground, but the  
prisoners had escaped during the fight.

messenger was sent for reinforcements, and  
the company returned to the river, for water  
and grass. On the 16th the reinforcements  
arrived—four men—when another advance  
was made upon the enemy. The camp was  
attacked, the men having to climb up the  
steep mountain and over the rocks on all  
fours, and the skirmish continued till dark  
compelled a cessation of hostilities. The  
Indians were driven from their fortifica-  
tions, but one of the attacking party, Mr.  
Richardson, was wounded in the breast by  
an arrow. Four prisoners were taken. On  
the 17th, the mountain was surrounded  
and scouting parties of two or three  
each, sent out to ascertain the whereabouts  
of the Indians. On the 18th, fresh tracks  
of a large party going toward the fortifica-  
tion were discovered. The men rallied and  
made another charge, beginning the attack  
about three o'clock and keeping it up till  
dark. At the conclusion, four dead In-  
dians were found on the ground, but the  
prisoners had escaped during the fight.  
The Indians retired, but it was found im-  
possible to follow them, as supplies of all  
kinds had been exhausted. Mr. Wesley  
Griffith, in this attack, received a rifle ball  
which fractured his arm, and his horse  
was also shot by a rifle ball. The Indians  
were very numerous, probably a hundred  
being in the fight, and well armed with guns  
and plenty of ammunition. They are said  
to have consisted of the Chimahuevas, Co-  
huillas, Mojaves, and Pah Utes. The par-  
ty encountered very stormy weather during  
their absence, being compelled to lie by  
one entire day during a severe gale of  
wind.
