The Recent Outlaws upon the Illinois.

The latest outlaws on the Illinois are two persons, John and Amelia Mundell, both of whom are well known in the county. They have been on the run for several weeks past, and have been evading the law. They are said to be armed and dangerous. The county authorities are trying to track them down and bring them to justice.

The State and National News.

The state legislature is in full session, and the national congress is also in session. The two bodies are doing a lot of work, and are expected to pass some important legislation. The state government is facing some tough financial problems, and the national government is trying to deal with the issue of slavery.

The local news is quite dull, with no major events occurring. The only thing worth noting is the recent decision of the Supreme Court, which has caused a lot of controversy.

For Clerk of Court of First Instance, with criminal jurisdiction, to receive such sums as may be Necessary.

The clerk of court has been appointed to receive certain sums as necessary for the proper discharge of his duties. He is expected to do a good job, and the citizens of the county are confident that he will fulfill his duties.

The Arizona Emigrants.

We know not when we have heard of a more desolate scene of suffering than the present one in the desert. The party of emigrants are faced with the trial of their endurance and fortitude. The dead are lying all around them, and the living are struggling to keep alive. The situation is truly terrible, and it is to be hoped that they will soon be relieved from their suffering.

Messrs. Editors of the Chronicle:

The editor of the Chronicle, I am informed, has been up to the plains of California, and has seen a great deal of the mining country. He says that the country is full of gold, and that the miners are working hard to find it. He also says that the country is full of interesting sights, and that the miners are working hard to find them.

Yours truly,
