

Waverille June 9th 1852

My dear Sister Mary.

I have settled down
one more & intend to stay settled if the
town I have selected does not die out as a
great many places do in this Mushroom Country
But I suppose the locality of this place is well
known to you. Look on the map & find that
on the head waters of the Sacramento and
forty miles north ten miles from Trinity river
is Waverille. it is situated in a beautiful
valley surrounded by mountains those on the north
are still covered with snow. This is the best mining
Country in Cal as the dirt all flows from the surface
in most places. the town contains about sixty
Buildings & 1200 inhabitants in the vicinity. We
have rented a good Store & arrived with our goods
last week. it costs 1300 for to get goods here
from Sac city 150 miles by Steamboat 275 by wagons
& 40 on the backs of mules. articles are not quite
so cheap as in Buckskin. but we board for \$15.
per week. our trade is better than I expected
& think we shall do well. We started on what
we gave for our House in Sac city 2000. & and
of course had to begin small. but we have alrea-
dy sold quite an amt of goods & Cole goes down
to day for more. So now you know what
I am doing & what I intend to do for the next

The prospect of visiting England remains rather bleak
at the expiration of three years, my few years will
be out, if successful I shall certainly come home
if not I shall probably get entirely disgusted with
trying to make money & emigrate to Mexico or
the Antilles. I have not heard from you for a
long time, but from Miranda's letters I hear that
things in Brazil are about the same. He is
morning here. I had a letter from Sarah the other
day he and me see only just after I left. had not
made any big matter yet, for my own sake. I have
spent three weeks in San Francisco & there we have
been I wrote you. I prefer my life here. I hope
we will all the quiet & some of the disadvantages of these
cities & nations being so far apart. I must encourage many
to keep out with those whose company I prefer. I had
want you to understand that I prefer the company
I like to be the friends of life & human nature. but
I really prefer Smith's respectable companions to those
& various ones. It is that always been my aim to move in
the highest society & if I am ever able to do so I shall
I shall be I shall be contented to do so as I shall
but I am determined enough more however I prefer a
comfortable mind. what as the other days is in
want of hope. I am sorry of this. I have some great
pleasure in visiting the States that I consider as
deserve much more than the present. I cannot see

that sort. I have not that young man to other evening.
Mr. Charles Robinson is a little father but by no means
delicate. He is always well at his house. John Robinson
has become rich at Speculating & being only 20. I wish
a good deal more. I wish you would

after. I have high hopes. Sir Robert is in town at present
we have no family grounds not here & are not fast friends.
On my way up in high things & Establs. on the sea side
there we have the Chambers & take the stage. This is
the best time that we had. The friends at this season
are correct with pleasure. The town is built under the
large Dale & is completely shaded. There is a large
Kanchana of Chikana. There & the fact there are more
richness than riches in the place. The weather
was perfect had it was very strongly. The weather of the
