Supreme Court Decisions All of the decisions rendered at the July term of the Supremé Court have been carefully collated and issued nd to be particularly convenient to members of the legal profession. For sale at the counter of this office, and in San Francisco by L. P. Fisher, corner of Montgomery and Washington streets. Price one dollar.

OUTSIDE .- On first page will be found interesting miscellaneous intelligence.

THE establishment at our last municipal election, of a city government composed entirely of new men, (an expedient which the Romans, in their day of political degeneracy, when public affairs had fallen into the hands of effete and worn out politicians, and could only be retrieved by a civil revolution, were compelled to adopt in the appointment of "Novi homines" for rulers)men selected from the members of a new organization, the advocates of a new principle, who combated and overthrew the tenets of all existing parties, was an experiment in politics not only doubtful in its expediency, but uncertain to the last degree in its results. And yet the experiment thus made has not thus far defeated public expectation. We are not the eulogists of authorities or individuals, but we hazard little in saying that our City Council have accomplished much for the welfare of this community. They entered upon the discharge of their duties at a period of peculiar difficulty; when Sacramento groaned and travailed under the burthen of enormous debt: when repudiation stared her in the face: when the people were oppressed by ruinous taxation, the fruits of which accomplished little for the public good; and when the governed were arrayed in stern hostility against their rulers.

To seize the reins of government at such a time was a bold attempt, but its success was realized in what has been thus far accomplished. By the adoption of a policy entirely conservative, a system of expenditure entirely economical, an administration of affairs entirely disinterested, the ed upon the discharge of their functions this city was plunged in pecuniary embarrassments almost irretrievable and hopeless. A general despondency had settled on the people. The change which a few months has wrought is marvelous. Instead of repudiation, the public debt, in almost every instance of accruing liability, has been met and cancelled; instead of the paralizing effects which disregard of public faith and pledges would have wrought upon the general prosperity, we behold our city thriving, growing, spreading its influences far and wide. These consequences have in a large degree resulted from the policy of the present administration.

A continuance of the financial management and economical expediency by which they have been governed, will ultimately extricate this city from her indebtedness. Even at this moment our pecuniary condition outstrips the wildest anticipations of a year ago. The confidence of the various communities of the State in our financial responsibility-a confidence so difficult to gain, so easy to alienate, is rapidly reviving; and in the marts and the metropolis of the Atlantic States our faith has been preserved inviolate. This prosperous condition of affairs has induced our City Council to embark in a career of public improvements, most liberal and extensive. In this, indeed, we think consists the chiefest, if not the only error of the policy they have adopted. Zealous and active as they certainly have been in all the departments of their action, in this respect rapid advancement of this city, and the amazing increase of its influence and business, it still smarts under the many visitations it has suffered; the withering effects of fire and flood, of accumulated public debt and onerous taxation.

In the face of these afflictions, it is impossible ous quarters of the city for local improvements. by special tax, to the extent of 15 or 20 per cent. on the value of their property, and not to murmur. The growth of Sacramento, healthy, vigorous and flourishing as it is, requires no forced expedients, no hot-bed applications. In the genial climate of affairs, its manly limbs will and equipped themselves, and started in pursuit. genial climate of affairs, its manly limbs will

It is a significant fact in demonstration of our improved condition of affairs, that the fund accumulated from the license tax and levee dues alone, will be sufficient to defray the expenses of our government during the current year. As a confrom the tax on real and personal estate will be the had taken in driving off the cattle, and proappropriated to defraying interest upon the pubappropriated to defraying interest upon the public debt. This is indeed a step in the right direction. Had such a course been carlier adopted, it would have been better, far better, for the welfare of this city. It is late to apply restoratives to correct the effects of carlier profligacy, yet not too late to save the patient.

Hitherto, our financial history has exhibited the spectacle of continuous accumulation of the public debt; now the tide is changing, the tables turn, and we enter on a system of retrenchment. It is a sad commentary on the evils of misrule, that the tax upon six millions of estate barely suffices to pay the interest of the public debt, but that debt has reached its culminating point of increase, and the future revenues and income of ing his execution, seemed resigned to his fate, admitting that he deserved it, hard as it was. our treasury will slowly bring it from its mazy hight. If the people will continue to be true to their interests and to themselves, if they will proceed as they have begun, to elect honest, capable, impartial men, for the administration of affairs, all will yet be well. See to it, men of California; the seat and center of the general government ; the emporium of the commerce of the North. Wisely administered, your public affairs will ultimate in a prosperity complete and unexampled; neglected or abused, they will issue in confusion, disaster and repudiation.

POLICEMAN STABBED .- It seems that the cut and thrust style of "runners" are not indigenous to Sacramento. The Times and Transcript says on Saturday afternoon, a fellow named John Lawler, who is now under indictment for assault on officer Cook, attacked officer H. A. Russel, who attempted to arrest him on the wharf, and inflicted upon him a very severe and dangerous wound. Lawler is a runner for one of the steamboat companies, and nad just struck a man who refused to buy a ticket of him, when Russel interfered, Lawler drew & knife and struck the officer in the shoulder, and the probability is the and also attaches a penalty of \$50 for every pas ficer in the shoulder, and the probability is the senger in excess—for the sum of which penalty assailed party will be crippled for life by the there is a lien upon the vessel. In the case prowound, if he should survive it. Mr. Russel is a ceeded upon, it is charged that the Sierra Nevaquiet young man, and is favorvbly known as an officer. The attack was most unwarrantable, and if there is any law in the county of San Francisco, it is hoped the culprit will be severely pun- mentished. Lawler was released on \$300 bail on law, it is thought necessary to obtain in the first Monday, to await an examination, when Russel place, a judgment against the master of the vesshall have sufficiently recovered to testify.

POWDER .- The Council of Stockton have authorized the Fire Committee to procure a suitable location for a powder magazine, employ a person to take charge of the same, and fix a scale of prices for storage.

OCEAN STEAMERS .- The action of the Collector of the port of San Francisco in requiring the passenger vessels arriving in this State to comply with the provisions of the United States laws, and in ordering the officers of the revenue service to count and report the passengers upon each in pamphlet form, by the Union office. The work will be steamer arriving, must meet with general ap-

Every one who has had occasion to travel between this and the Eastern States upon the steamers, remembers the inconvenience suffered from an overcrowded vessel and from want of proper accommodations. Those who read of the arrival and departure of steamers with from eight to thirteen hundred passengers, wonder how the same may be disposed of with comfort or safety; whilst those who have went and still weep o'er the death of some dear friend or near relative for whose arrival they have long been waiting, curse

these charnal ships that bring to them sad tidings. Each steamer that comes freighted with its living load to our shores, bears also with it desolation to hearts of those that had anticipated its coming in gladness. The dreadful mortality of the last six months has awakened the attention even of the most unthinking, and ever after perusing the passenger list, our eye naturally turns to the death report, to assure ourselves whether those whose arrival is announced are still in the land of the living. We look upon the movement of the Collector as a good one, and one that if properly carried out will correct a great

INDIAN FIGHT NEAR RED BLUFFS-Twenty-five Indians Killed .- A correspondent at Red Bluffs writes us, under date of Oct. 21, that he had just heard, through Mr. Bumpis, of a fight between the Indians about twenty-five miles from that place, in which some twenty-five were killed He says that the Indians are committing robberies and murders in all directions in that vicinity, and suggests, pertinently, that something should be done to protect the people of the north, particularly the women and children, in this connection. He asserts that it is unsafe for a white man to sleep out of his house, and present Council has acquired, nay, more, deserved that if something is not done by the authori the confidence of the people. When they enter- ties, the people will wage war on their own hook. A company of volunteers has been drilling at Red Bluffs for some time past and is held in readiness to attend the call of the Governor.

> MORTALITY ON THE CORTES.-The following is a complete list of the deaths that occurred on the Nicaragua steamer cortes on her recent trip from San Juan:

While in port at San Juan-Thomas Miac, cholera, October 4, New York.

Mrs. Louisa Gass, cholera, October 4, New York W. Labane, cholera, October 4, France. G. Pass, convulsions, October 5, infant.
M. Beudu, convulsions, October 6, infant. At Sea-E. Bradley, teibes mesenterica, Octo

ber 11. infant. L. Rounda, marasums, October 13, infant. . Oranguay, preumonia, (servant,) October 14

M. Butler, cholera, October 18, New York. F. Poss, cholera, October 19, New York, Nickerson, cholera, (coal passer,) October 20

The parents of the infants who died were o board, and all the others had friends with them.

Lynch Law-Cattle Thieves Hung by the People.

On Sunday last, says the Stockton Republican we published an account of a band of cattle being driven from the ranch of Mr. Stone, in Stanis laus county, and the subsequent arrest of three Mexicans and one German. The intimations contained in the letter of our correspondent have been fulfilled, and four more human beings have been adjudged at the court of Judge Lynch, and all the departments of their action, in this respect expiated their crimes on the gallows. The follow-they have somewhat gone too far. Spite of the ing is a reliable account of the finale of the affair:

HILL'S FERRY, Oct. 20, 1855. J. M. Scofield - Dear Sir: Our usually quiet as the score of considerable excitement during the present week, which terminated last evening in the summary suspension—on a limb—of four individuals, in every way meritovices of that exalted position. rious of that exalted position

On last Tuesday evening information was brought to this place by the indefatigable Bill Lard, that he had that day encountered four men, on the plains, near the Agua Salada, who had in their possession about one hundred head of cattle, branded, respectively, with the irons of Messrs, Stone, Stever o, Gould, Wilson and Montgomery, which he beved to have been stolen. Notice was at once lieved to have been stolen. Notice was at once given to as many of the parties interested as was They returned to this place on Thursday evening, soon, untrained and uncompelled, grow into lusty stature and proportion.

They returned to an place of whom were Mexicans—Francisco Sanchey, Francisco Tapia and Jesus Pino—the fourth a German, named James G. Lackner. The Mexicans were captured near the mouth of Corral Hollow, and Lackner at a house situated some miles up the hollow, where the whole

party had been quietly enjoying a breakfast.

The prisoners were strictly cared for until yesterday afternoon, when a complete investigation of
their conduct was had, and their guilt established arrest; but concerning this matter I will, at present, withhold further particulars. Altogether, he betrayed such a knowledge of the outlaws of the country, and familiarity with their acts, that it placed his eligibility to a rope's end, beyond the

They were all hung in a row, at sunset, about a mile above this place. Nothing transpired uncom-mon to such transactions.

The Mexicans were stubborn, cool and collected,

to the last, making no confession, nor manifesting any signs of penitence, beyond asking those around to "partoulthen," and regretting that they must die without the absolving aid of a Padre. Lackner had, several times during the day, displayed great fear of death; but during the few minutes preceding his execution, segmed resigned to his fate ad-

I hope I may not be deemed an advocate or supporter of lynch law, if I state that the body of murdered man, a few weeks since, in one of the sloughs in this vicinity, the recent barbarous and revolting murder of Anderson Loving, and the numerous depredations that have lately been committed upon the stock in the neighborhood, had affairs, all will yet be well. See to it, men of Sacramento. Your city is the focal point of California; the seat and center of the general

The execution was attended and sanctroped by almost the entire community, all agreeing that the exigencies of the times plainly indicated that their lives and property could only be protected by rid-ding the country of these banded outlaws, when-ever guilt can be firmly fixed upon them. Lackner left a wife and four children, who reside

on the Pulgas Ranch. His wife is a California woman. Yours truly, E. E. H.

VIOLATION OF THE PASSENGER LAW .- Accord ing to the official communication and suggestion of the Collector of the port, proceedings have been taken to prosecute the matter of the Nica-ragua steamship Sierra Nevada, for a misdemeanor committed in violating the Passanger Act o March 5th, 1855, and to render the vessel liable to pay a penalty of sixteen thousand dollars, We refer to the act of March 5th, 1855, for a de scription of the offence and the proceedings to prosecute it. The law provides that in cases where a vessel brings an excess of passengers the master shall be considered guilty of a misde meanor, punishable by fine and imprisonment According to the interpretation of the sel, in order to collect the penalty, which is a lien upon the vessel; and the proceedings in the case of the Sierra Nevada have been taken under this view of the law .- Alta.

EQUALIZATION.—The City Board of Equalization will close its session at 4 o'clock to-morrow afternoon. Tax payers who have not given them a call will make a particular note of the fact. THE CITY.

THE THEATER .- Mr. Buchanan made his second ppearance at the theater last evening, to probably larger audience than on the evening preceding. He appeared in the character of Hamlet-admitted to be one of the most difficult in the round of the drama. To say that he presented it in a faultless manner would be according him dramatic powers of a greatly superior order. Although, as on the previous evening, though in a less degree, he occasionally overacted, we were much pleased with the general representation, as, we are confident, were the audience. To the attentive observer are apparent many admirable expressions that wholly es indifferent spectator. Audiences are not ently made up of the latter, and observant unfrequently made up of the latter, and observant only of the coarser features of the manner of the actor. Miss Caroline Chapman, in the manner of the character of Ophelia, received attention, and in the most touching seens subdued the house to perfect silence. The company generally enacted their respective parts much better than we had anticipated. Mr. Buchanan will appear as Richilieu this evening.
As the audiences which attend his personations are evidently increasing, and no more attractive piece could be presented, there will be few spare seats in the house.

SPLITTING THE DIFFERENCE. - A stubby Irishnan, named John Kelly, was tried before a Jury in the Recorder's Court yesterday, on a charge of feloniously appropriating \$1 75, the property of the proprietors of the Orleans Bar. Kelly, it seems, presented himself at the Bar, about 11 clock, P. M., paid for a berth, deposited \$2 for safe keeping with the bar-keeper-one of the proprietors-and turned in. While the other partner was on watch-about 2 o'clock in the morning-Kelly came reeling out, demanded and received his money, went away, but returned afterwards, and was picked up almost dead drunk by the proprietor, and again put to bed. After snoozing away till 8 o'clock, the unfortunate defendant again ushered forth, and asked the man at the bar—the first above mentioned-for the two dollars. The money was paid over again, but the error almost immediately detected. As Kelly refused to refund, except to split the difference, he was arrested. A quarter of a dollar, which fell from his hand was recovered. The Jury acquitted him without leav-

MORE CONTEMPT. - The steamer Defender was discovered vesterday moored to the hulk Dimond in contravention of the injunction issued several days since, restraining Capt. Brown from occupying the craft for the purpose of a landing. Just as the boat was about leaving, Capt. Brown was brought before Judge Monson on an attachment to show cause why he should not be punished for contempt in the premises. The Captain's counsel excused the matter as well as he could, and the Court re-leased the attachment on payment of a fine of \$50. As the Captain was mulcted in the sum of \$25 in the first case of contempt, and \$50 in this, it is not necessary that he should be exceedingly well versed in mathematics to compute the fine that would be imposed on the sixth round.

GRAND DIVISON SONS OF TEMPERANCE .- This body omposed of representatives from all portions of the State, convened at Odd Fellows Hall, at nine o'clock yesterday morning, J. S. Diehl, G. W. P., in the chair. About sixty members were initiated. There were about one hundred members in the city last evening, and more expected to arrive this morning. The Division will meet each day during the session at 9, A. M., and adjourn at 12, M., and reassemble at 2, P. M., and adjourn at 4, P. M. A large number of ladies and gentlemen, among whom was Miss Pellett, attended the meeting of Pacific Star Division last evening. Several of the members of the Grand Division gave flattering accounts of the progress of the temperance reform in

ON THE Hog's BACK .- Capt. Brown, of the Defender, will probably conclude finally that he has "a hard road to trabble," unless his luck takes a turn for the better suddenly. Two charges of assault and battery, preferred against him by two of the deck hands on the Defender, named Chas. Lawson and John P. Nash, were disposed of by the Recorder yesterday by the imposition of a fine of \$10 and costs in each case. It seems that the assault occurred while the boat was temporarily detained on the "Hog's Back"—a pleasant little eccentricity in the Sacramento river. The defendants were drunk, noisy and abusive of the passengers, and finally refused to obey the Captain, whereupon the latter kicked the o.e. slapped the other, and clapped both into the coal hole, and there kept them till they had thoroughly sweated out the life of the whisky. whisky.

No WITNESSES .- Two cases were discharged by the Recorder yesterday in consequence of the nonappearance of the prosecuting witness. A few ore fines for contempt in this connection would tend to correct the evil. It is doubtless frequently the case that the witnesses are bought off, as defendants would generally rather pay a round sum by way of compromise than be hauled within by way of compromise than be hauled within range of the heavy guns of the law, as served by the Court. In addition to this, it entails unnecessary trouble on the police department.

THE TOLL GATE CASE .- The case of James Brockwell and others, charged with riotous conduct in forcibly removing the toll gate on the plank road between this city and Patterson's, on the 2d inst. was called up before Justice Alexander yesterday After the jury had been empannelled with great difficulty, and several witnesses examined, the case dimently, and several winesses examined, the case was dismissed on motion of the attorney for the prosecution, there being no evidence to identify Brockwell, the only defendant who appeared, as one of the rioters.

Sweet Potatoes .- J. B. Green, who has a farm on the Sacramento river about twenty miles below this city, exhibited to us yesterday samples of sweet potatoes grown thereon-four of which weighed 47 pounds, and sixteen weighed 141 pounds. He planted 1,900 pounds of seed at the same time, in three different kinds of soil, which he denominates ashy and alkali, rich sand, and heavy clay. The potatoes grown in the first were long and smooth but small and light red; in the second, large, long and smooth and of a light color; in the third, very large and shoot a light color; large and of a light color.

DIED .- A. Richardson, who was stabbed so severely on the levee several weeks since by Wm. Stoneceifer, died from the effects of the injuries about five o'clock yesterday afternoon. He was a single man, a native of Lower Waterford, Caledonia Co Vermont, and in his 30th year. An inquest will be held on the body by Coroner Bell, at 9 o'clock this morning, and the remains will be interred at three clock, P. M. The examination of Stonecifer and Cashell (an alleged accessory) will probably take place before the Recorder to-day.

STEAM vs. WIND .- In consequence of the long continued calm, sail vessels engaged in the rive trade have been compelled to call steam into requisition below the city, that they may deliver their freight promptly. Such enterprise will not be with-out its reward.

MARINE .- Arrived yesterday, schr. W. A. Fisher, Johnson, from Napa, with 1,200 sacks grain, to A. W. Hall; sloop Mary Martin, Johnson, lumber to N. L. Drew, and Friend & Terry; sloop Martha Elizabeth, Kerlin, 1,200 sacks barley, to Knox & Requa, and mdse. to Massol & Merwin, and fourteen others; schr. Osceola, Holton, San Francisco, with 25 tons stone to Gas Co; 20 M. feet lumber to Bowstead & Co., and iron to order. Sailed, schr. Bianca, Hutton, with wheat, hides and rags, and schr Fannie Piner—both for San Francisco. echr Fannie Piper-both for San Francisc

Apvisement.—The Recorder examined yesterday the case of John Perry, who stabbed Pat. Riley. with a pocket knife during an affray on 2d street a few evenings since. The offence, if any was com-mitted by the defendant, was deemed a simple as-sault and battery, and the case taken under advisenent till Saturday next.

SET ASIDE .- The judgment by default which was endered by the Recorder against John Lowell, for riolating the health ordinance in launching a crippled horse into the American river, subsequently procuring his death and permitting him to remain and decompose therein, was set aside yesterday and a new trial ordered for Saturday next.

FILLING THE GAP .- The lot No. 115 J street, be tween 4th and 5th streets, which has been vacant since the memorable July fire, is being prepared for the erection of a fire-proof brick building 20 feet front by 100 feet deep—the enterprise of Mr.

A SALOON.-The large and magnificent saloon in the second story of the front building of the Theaor is completed and officed for rent. It is sixty feet square, and twenty-six feet in the clear to the ceilin.g—one of the finest saloons in the State.

TORCA LIGHT PROCESSION .- The grand temperance torck-light procession will come off this evening, starting from Temperance Hall, corner of J and 10th streets at 7 o'clock. Particulars of the demonstration will be found in the programme in our advertising columns.

DETAINED .- The Defender was detained until 31/4 o'clock, P. M. yesterday, in consequence of legal proceedings elsewhere noticed.

DEPARTURE OF THE NICARAGUA STEAMER.—The Times and Transcript contains the following rel- [ ative to the departure of the steamer Sierra Ne-

vada for San Juan, on Saturday: A short time before the steamer drew out a nun A snort time before the steamer drew out a number of hardy looking men were seen rushing hastily on board, many of them armed with revolvers and knives in the style usual on such occasions. There was nothing, however, to fix upon any one the presumption that he was going on board for any other than the usual purpose. A number of boxes and bales of goods put up in the usual boxes and bales of goods, put up in the usual manner of merchandize, and consigned to mer-chants, were also put on board, which we have good reason to believe were munitions of war, de-signed for or to be sold to Walker's men. We have no reason to believe, however, that any field pieces were dispatched, although an article almost as much wanted-a drum-was actually sent to the

Revolutionists. After the steamer had drawn out into the stream, t appears that she underwent examination for the purpose of detecting "stowaways," or in other words, those ardent expeditionists who had not money to procure their passage tickets and were still determined to have a hand in the Nicaragua affair at every hazzard. Some of these, who were left behind before, actually did get off; but about thirty were discovered and sent ashore in the boats plying alongside the steamer. They returned with rueful countenances greatly disappointed. Among the passengers, and at the head of the re-

along the passengers, and at the near of the re-inforcements, it is asserted, was Col. E. J. C. Kew-en, of our city. One of our cotemporaries states that the Colonel avowed his object to be to avenge the death of his brother, who was killed at the bat-tle of Rivas and his body afterwards inhumanly burned in the Plaza. From another source, how-ever, we learn that the object of Col. Kewen's visit has more a diplomatical and financial character. has more a diplomatical and financial character. and that he will return by the vessel by which he goes down. His real motive, it is said, is to make arrangements during his visit to procure upon his return the funds and means which are now so much needed by the expeditionists. Another of the pas-sengers is Mr. George Bowley, a merchant of San Juan, who returns with a supply of goods, but has no connection with the expedition. The names of several other parties are mentioned, and among them several of our policemen. Senor Guadalupe Sacrz, the Nicaraguan Agent, opposed to Walker, who smuggled himself on board the Sierra Nevada and came up, after a narrow escape, on her last trip, it is said, designed returning with munitions of war on board the steamer, but upon second thought concluded not to do so, and is to go down on the schooner Julius Princle which is to sail this on the schooner Julius Pringle, which is to sail this on the schooler dunus rringle, which is to sair this week for the Gulf of Fonesca, touching at La Union and Realejo. His object, it is believed, is to convey to the latter point several field pieces and other arms designed to aid in putting down the revo-

## THE COURTS.

District Court—Hon. A. C. Monson.
Tuespay, Oct. 23.
A. Raymond vs. J. C. Keenan—Verdict for plaintiff, Pearce vs. Gleason-Verdict and proceedings stayed till further orders. Dugan vs. Adams & Co.—R. Rebinson appointed re-feree to examine Shaw, garnishee, and take other testi

nony.

At a meeting of the parents of colored children in Sacramento, held in the African Methodist church, on 7th street, the following resolutions were unanimously adopted, after the reading of the report of the Committee of Ways and Means from the columns of the

Sacramento Daily Union:
Resolved, That we have learned with sentiments of joy and thanksgiving, that the Common Council of Sacramento, by a two-thirds vote, have passed the ordinance authorising the Board of Education to appropriate monies from the rchool fund to establish and support a free

rom the school fund to establish and support a free school for colored children.

Resolved, That we tender to the Superintendent of Public Schools, and to each member of the Board of Education—by whom the proposal to establish a school for our children was made to the city government—and also to each of the six members of the Common Council who woted for the ordinance giving to the Board authority to furnish to colored children free common school instruction, the expression of our sincer gratifulds. And when furnish to colored children free common school instruc-tion, the expression of our sincere gratitude. And when hereafter (as we hope) they shall witness its good effects, in rendering our children intelligent and worthy men and women, may the recollections of this act of liberality afford them true pleasure. Resolved, That as an earnest of our appreciation of the benefits conferred upon us by the passage of this or-dinance, we pledge ourselves, as parents and guardians, to see to it, that our children are regular and punctual in their attendance at school, cleanly and neat in their personal appearance, and by all other means in our corre-

in their attendance at school, cleanly and neat in their persoal appearance, and by all other means in our power assist in promoting their education and general improvement.
