

# San Joaquin Republican.

DEMOCRACY—A sentiment not to be suppressed, corrupted or compromised. It knows no weakness, it covers to no danger; it opposes no weakness. Destructive only of despotism, it is the sole conservator of liberty, labor and property. It is the sentiment of Freedom, of equal rights, of equal obligations—the law of nature prevailing the law of the land.

FOR PRESIDENT,  
**JAMES BUCHANAN**  
OF PENNSYLVANIA.

Subject to the decision of the National Convention.

COUNTY OFFICIAL PRESS.

STOCKTON:  
TUESDAY MORNING, MAY 6, 1856.

## The Slaughter of Americans at Panama.

We have always sympathized with General Walker in his struggle in Central America, not because we are much of a filibuster, but because we trusted it was the initiation of American power in that quarter. We hope, and the more adverse his circumstances the more earnestly do we hope, that he may succeed, and fully inaugurate the power of our blood and institutions over that down-trodden region. The recent slaughter of American citizens at Panama, proclaims louder than argument the necessity of our controlling and commanding the Isthmus. That it should be ours is a palpable necessity. While it remains under the control of savages, who wantonly butcher our citizens upon any malignant caprice that brutal capidity may inspire, that strip of land is a sort of division of our Union. We wish Gen. Walker had the whole of it; then we would be taking it by force, if no other means will obtain it. It is a standing menace to our lives, property, and institutions. It is such an arrogance as we should not submit to. That a race of men who have no more of the man, and so much of the beast in them as to turn loose the regular soldiery to fire upon unoffending women and children, should be thus tolerated, is a standing, living insult to the progress of the age in which we live, and the necessities and desires of our country. We hope the President and Congress will accept no common apology for this graceless outrage. Let the volunteer soldiery of the United States, acting under their proper authority, go there and demand the apology, and let them subdue the country at the "indemnity for the past and security for the future," which the outrage requires, and as the only just compensation for the wrong. Savage men will not act as civilized men; and the diplomacy and treaty securities which civilized men give and receive, are mere licenses to outrage, when given by a mongrel, semi-barbarous race, to one of full blood, and that blood the Saxon. It is a universal law, engraved upon every line of the world's history, that barbarians must succumb to the forces of civilization. Civilization will eat it out. But diplomats say let civilization do its work gradually, by the regular ordinances of progress. There are no regular ordinances of progress, in the sense in which it is used in this connection. These laws depend upon circumstances, times and occasions. And what circumstances and occasions require to be done, should be promptly and fully executed. And we believe that the time is fully come, and occasion has occurred which requires us to plant our institutions, law, and power on the Isthmus—upon Central America, and we hope to see it promptly done.

WRECK OF THE CHATEAU PALMER.—The French ship Chateau Palmer, of 504 tons, belonging to Bordeaux, and commanded by Captain Bouteiller, was wrecked on Thursday last, at three o'clock p. m., about five hundred yards west of Fort Point. She was beating out at the time and ran near to the shore to turn, but missed stays and before she could recover herself she was lost. Several anchors were let go, but she dragged and went on to the beach, where she now lies twisted completely out of shape, totally lost. Part of the cargo may be saved. She had on board 719 flasks of quicksilver, worth \$20,000, shipped to Bolton, Barron & Co., and fully insured. So says the Chronicle.

Our neighbor says it expects the Trustees of the Asylum will remove the Governor from office at their next meeting. The Governor and his anxious friends may rest assured that the first chance the Trustees have at him, they will remove him as sure as there is a Constitution of the State of California. He is wholly unfit for his position, and ought to be removed as soon as the organic law will permit it to be done.

SOUTHERN BOLTING.—The Alabama State Sentinel is in favor of a reconsideration by the South of its vote at the late Philadelphia Convention; and desired the nomination of a true Southern man, with stronger fervor than Mr. Fillmore, of whom Gov. Wise said in his letter to the Richmond Enquirer:—He complained to me that the clanking of the chains of slavery in the District of Columbia, disturbed him in his seat on the floor of the House.

FELIX ARGENTI.—The Washington Star says that Felix Argenti, Esq., has brought a claim before the Court of Claims at Washington, for payment of a bill of exchange drawn by Adam Johnston, Esq., sub-Indian agent in California in 1850. There are other claims similar to this in which several persons in California are interested. It was estimated, a year ago, that these claims amount in the aggregate to some \$200,000.

Shor.—In the attempt of the State prisoners to overpower the guard on the 38th ult., Jim Neal, who was sent to the State Prison from this county about two years since, for horse stealing, but who made his escape from Sheriff Taylor while on the way to San Francisco, was shot through the head and instantly killed.

PUBLIC DOCUMENTS.—We are indebted to Hons. J. B. Weller, Lewis Cass, W. L. Marcy, J. W. Denver, and P. T. Herbert, for valuable public documents.

# DEMOCRATIC VICTORY!!

## STOCKTON REDEEMED.

The democrats of this city achieved a victory yesterday, worthy of their ancient renown. Gloriously has she followed the example set by the democracy of Marysville and Sacramento. "Sam" has been consigned to the tomb, never to rise again.

The contest was of the most animated character, although the vote is small, and everything passed off quietly, with the exception of a fist-cuff at the Third Ward. The democrats all worked with a will and never flagged in their exertions to secure a triumph. The know nothings gave up the fight early in the afternoon, and only endeavored to elect their marshal, but as will be seen by the figures, couldn't "make the rifle." As will be seen by the table annexed, the democrats elected their mayor, Marshal, Harbor Master, Treasurer, and Assessor.

	1st.	2d.	3d.	Total.
Gillingham, Mayor	220	108	93	421
Fisher, Marshal	129	107	101	337
Vance, Harbor Master	209	119	83	411
Hobbs, Treasurer	136	87	102	325
Jordan, Assessor	228	106	73	407
Greenfield, Harbor Master	124	104	116	344
Gove, Treasurer	212	107	84	403
Fowler, Assessor	138	106	110	354
Howison, Harbor Master	231	116	91	438
Kenney, Treasurer	120	96	104	320

The following democratic Aldermen were also elected:

First Ward—T. R. Bours, A. C. Baine, Harbison Hickman, Hugh Forsman.

Second Ward—C. Grattan, John Hart, Daniel Odell.

Third Ward—John P. Nash.

In the Third Ward the know nothings elected two Aldermen, Crosthwaite and Peyton. This victory surpasses our most sanguine anticipations, and may be set down as a complete triumph.

REJOICING.—As soon as the result of the democratic victory was announced, the Stockton Cornet Band, accompanied by several hundred of the "unterrified," proceeded to the Weber House to pay their respects to Mr. Gillingham, mayor elect. After the band had performed several airs, the mayor elect, accompanied by Gen. Booker, appeared on the balcony, and were greeted with three hearty cheers. The General, on behalf of Mr. Gillingham, returned thanks for the honor done him, and congratulated the democracy on the triumph of democratic principles.

From the Weber House, the procession proceeded to the Republican office, halted, gave it twelve cheers, and after a speech from Captain Jordan, and music by the band, it again moved onward.

While we write, Billy Wall's gun is also pealing forth notes of victory. In fact, all are joyous and happy—except the know nothings.

Indian outbreak in Tulare County.—Through Dr. George, who has just arrived from Visalia in Tulare county, we learn that an Indian war has broken out in the southern portion of the San Joaquin valley. On the 22d inst., the Indians made a descent upon the settlements and drove off a large number of cattle and horses. The Indians were pursued and most of the stock was recovered. After these events, the Sheriff of the county, Mr. Poindexter, called out Capt. De Masters's company of mounted riflemen, composed of nearly sixty men, who pursued the Indians to the North Fork of Tulare river, where an engagement took place. Six of the Indians were killed, and one of the riflemen, named St. John, was wounded in the thigh.

Dr. George is on his way to Sacramento to confer with the Governor in relation to these Indian difficulties, who we doubt not will promptly take such steps as the safety of the inhabitants requires and as are legally justifiable. Most of the residents of Tulare and surrounding country have rendezvoused at Woodville and Visalia for safety and defence.

A party of men on White or Quartz river, after it was ascertained that hostilities had broken out, attacked a rancheria and killed five or six Indians, and the balance of them were put to flight and escaped. The leader of the Indians in this outbreak is Francisco, who was concerned in the massacre of five or six white men at Four Creeks in December, 1850. He has succeeded in attaching to his party most of the Indians from the Fresno to Tejon Pass, as well as a good many Monas from Utah.

On the evening before Dr. George left Visalia, an express arrived conveying the intelligence that Wilkes's surveying party on the Mohave had been attacked and all killed except one man, who made his escape.

There seems to be a preconcerted movement among the Indians of the south to wage a war of extermination against the whites, and if this emule is not speedily crushed, many lives will be lost. Capt. Stuart, of Fort Miller, on the 2d inst. sent a detachment of thirty men from this post to protect the inhabitants of Tulare valley.

The Indians for several months past in this portion of the country have been making bows and arrows, without exciting any particular alarm, although those friendly to the whites have often remarked that by and by there would be a war. The causes of the difficulty have not in detail transpired, but it is presumed that the Indians are impatient and dissatisfied with living on the Tejon Reservation and prefer their mountain homes, from which they periodically can make, as of former days, descents upon the ranches of the Californians and drive off stolen stock. These Indians are adroit and practiced thieves, and as many of them have lived at the Missions south, they are familiar with the places most accessible and defenceless to attack in their predatory incursions.

Particular attention is called to the advertisements of Gray & Hickman.

# STANISLAUS CORRESPONDENCE.

EMPIRE CITY, May 5th, 1856.

Editor Republican:—Having just made a tour generally through the above named county, I embrace the present opportunity of sending you a few items in the form of a letter concerning the same.

During the past winter and spring, on the west side of the San Joaquin river as well as up the tributaries of the same, there has been less rain than any year since 1852. In consequence of this the plains all through the valley are at present almost devoid of vegetation, and stock as well as grain growers are measurably disheartened. Several of the principal stock raisers have removed their cattle to the neighborhood of the foot-hills for grazing purposes, where rain has been more frequent and the pasturage of course better.

The grain crop along the San Joaquin and the lower part of its tributaries is almost a complete failure this season, while higher up these streams the crop is quite equal to that of last year. In the aggregate, Stanislaus, Mariposa, Merced and Tulare counties will produce nearly breadstuffs sufficient for the consumption of the inhabitants therein.

For a dry, as well as a wet season, rye is found by experiment in the San Joaquin valley to be the surest crop among all the cereals. I have been examining to-day several fields of this grain sown on the river bottoms and the plains, alongside of barley and wheat upon the same character of soil. The rye crop is good, the barley tolerable, and the wheat will hardly be worth harvesting, although all were sown at the same time. The tillers of the soil will find it advantageous to bear these facts in mind, and turn their attention more to the cultivation of rye. E. S. Marvin, at Empire City, has fifty acres, and will be enabled to furnish seed for those who desire it the ensuing fall. This grain brings a better price in market than any other at present raised in California.

In grain raising I have noticed another fact worthy of remembrance. Several acquaintances, a year ago, summer followed or plowed their ground for a fall crop in April, while the soil was still moist. After last fall's rains came, they plowed the land each side of the summer followed, and sowed the grain at the same time. That sown upon the summer followed land will yield nearly double the amount of the other, and is at least two weeks earlier in growth. This demonstrates beyond a question that grain-growers would do well to summer follow as much as possible the fields destined for grain.

Stanislaus county is rapidly improving in wealth and prosperity. The chief occupation of the inhabitants is stock and grain growing. For the former pursuit it is admirably calculated. The plains during the spring and summer seasons usually afford an abundance of feed, and the annual overflow of the low lands along the rivers in the summer months produces late grass of an excellent quality.

Besides these industrial resources, there are several mining camps of importance in the eastern side of the county. The principal one is at La Grange, or French Bar. This town contains about 1200 inhabitants, and is one of the best built mining camps in the State. The houses are chiefly wooden and painted white, which gives the place an appearance of a New England village. Water has been introduced here through the exertions of an enterprising company, and though there are no big strikes made here yet, all of the miners are making good wages. This ditch does not at present afford all the water required, and the company is lately engaged in enlarging it. Keeler's and Dent's Mines on the Stanislaus are flourishing mining camps.

## LETTER FROM MR. WHITING.

STOCKTON, May 5th, 1856.

To the Editors San Joaquin Republican:—GENTLEMEN:—Whereas various statements, many of them doubtless exaggerated, have been put in circulation in reference to certain remarks made some months since by Mr. Samuel Fisher, and whereas my name has been publicly made use of, in connection with, and to substantiate the same, I deem it a duty that I owe to myself, to my friends who have made themselves responsible for those remarks, because referred to me, and lastly to Mr. Fisher himself, to place before the public a correct statement of facts as they occurred.

And first let me remark, that the relations existing between Mr. Fisher and myself are of the most friendly nature—that we have seldom if ever differed, excepting politically, and that the conversations then had were not of a pointed nature—that the first was at the public table of the Magnolia House, and the second, on the same day, in the presence of Capt. J. C. Morris, Judge A. G. Stokes, and some half dozen others, whose names I cannot now recall to mind.

The substance of his remarks on both occasions, was that he, for his part, wanted to get back to a country where niggers could vote, and that in his opinion, they are, with the same advantages, as susceptible of cultivation and improvement as white persons. In proof of which he adduced the fact that he had been present at examinations in the Nantucket schools, where negroes had excelled the white boys, and stood head of their classes.

I do not pretend to give the exact language, or to assert that what he said proved him to be an abolitionist; though I must confess I drew that inference at the time. What I do assert is, that I am positive that the above is the substance of what he said, and in nearly the same words, and I may add, that if any referred to refer to Judge Stokes, for the correctness of the above account, I am positive, however, that such reference will not be needed; for Mr. Fisher is not the man to deny what he has said, though he may have denied some garbled account of the same.

Had Mr. Fisher's letter, which appeared in the Argus of this morning, denying that he had ever been identified with any abolition party, appeared by itself, I should not have extended my remarks to this length, as his communication contains nothing contradictory to the same. It was accompanied, however, by the following editorial statement:—"The above letter of Mr. Samuel Fisher, nails to the counter the Roebuck tales which have been circulated against him." This sweeping remark is one is doubtless made to some of the exaggerated statements that have been circulated, and not to the above account. For I have made him to be too much of a man and gentleman to say or insinuate about any one in his paper what he would not say to his face.

Regretting the circumstances which have thus forced me before the public, I remain, very respectfully,

Your obedient servant,  
JASPER S. WHITING.

WHIG CONVENTION.—The Louisville Journal publishes a call for a State whig convention, to have been held in the city of Lexington, on the 12th of April last. The call is signed by a large number of the old line whigs.

# LA GRANGE CORRESPONDENCE.

LAGRANGE, May 1st, 1856.

After considerable journeying through Stanislaus county, I find myself at this date, at the best and most flourishing camp in the Southern Mines. This point was formerly known as French Camp, in consequence of a number of Frenchmen working a bar below what is now called Lagrange, in 1850. This place is the county seat of Stanislaus county, though there is no court house or jail here, yet the county officers are here, and the public buildings may be, when the tax-paying people of this neck of woods see fit to contribute for this purpose.

The Stanislaus County Ditch Company has introduced water at this mining point sufficient to supply about forty sluice and tom streams; and besides this there is a force pump which furnishes a number of miners with sufficient water to work their claims. Everybody here works—there is no gambling—no hangars on—no person waiting for something to turn up—the workers turn it up themselves.

A party from this point has recently returned from Yo-Semity Falls, which is sixty-five miles distant. These falls, seven in number, are the most remarkable yet discovered in the world. The direct road to them is by the way of French Bar, where good guides, provisions, and animals for the journey can be procured at reasonable rates.

The trail by which the falls are reached is as follows: From French Bar to Coulterville is twenty miles. This place is situated in a little basin or trough of the mountains, and is famed for its numerous quartz veins and as a mining camp. The traveler will find here comfortable entertainment and a hearty welcome at Coulter's Hotel. From this place to Marble Springs is fifteen miles. At this place are a number of caves, but few of which have been explored. This is a continuation of that limestone formation which extends from Calaveras, through Tuolumne, Mariposa, Fresno, and into Tulare county. No caves are known to exist in this range except at the point designated. There may be found the finest specimens of stalactites and stalagmites that exist in any country, and those fond of adventure and information will not fail to visit this place. From here to the valley it is thirty miles. There are a few Indians on the route, but are friendly, though in former times these, with the neighboring tribes gave the settlers in their neighborhood infinite trouble, which led to the calling out of the militia in 1851, by the Governor, to chastise them. Arriving into Yo-Semity Valley, we find a beautiful plain about nine miles in length, and on an average one mile in width. This valley is exceedingly fertile, and abounds in timber common to California, with two exceptions, the Balm of Gilead and the Acacia, which trees grow here in superb luxuriance.

In this valley is abundance of game, among which are the golden pheasant and the wild mountain goat of extraordinary size, quite as remarkable as the Rocky Mountain sheep. The party which has recently visited this remarkable point, composed of Messrs. Tichenor, Hough, Kirk, and others, report that the principal fall, from the summit of an almost perpendicular ledge of rocks is about three thousand feet. The water falls upon several jutting rocks before it reaches the valley, producing, when the sun shines, an elegant rainbow; and during the winter season, to the writer's knowledge, the most beautiful icicles and frost work may be seen.

In and near this valley are numerous falls of wonderful grandeur, and redwood trees of gigantic dimensions. Those who have leisure, inclination, and curiosity, will not fail to visit, during the present summer, this combination of curiosities unequalled in California, and unsurpassed in the world.

To the pleasure and health seeking California public we would say, come to Stockton, from thence to Lagrange, and then go to Yo-Semity Falls, if you desire to see nature in its wildest and most romantic exterior.

LONG TOM.

THE TRAGEDY AT PANAMA.—From an account of massacre of the Americans at Panama, furnished to the Herald by G. B. Wright, we take the following list of killed and wounded, as far as can be ascertained:

KILLED.

Robert Marks, employee of Panama railroad company.

George Beatty, Philadelphia.

Martin Selwood, nephew of the Rev. John Selwood.

Thomas Lydon, aged 22, Roxbury, Mass.

Stokes, passenger by Cortes—filibuster.

WOUNDED.—LEFT IN PANAMA.

G. O. Field, Jersey city.

A. Lautensan, Strong, Maine.

Patrick J. Orville, passenger by Cortes.

Nathaniel Preble, Harriet county, Ohio—shot in the chest.

Rev. John Selwood—probably dead.

A. W. Fenner, Providence R. I.—shot in the chest.

WOUNDED.—ON JOHN L. STEPHENS.

Miss Phillips, Philadelphia—shot in hand.

Catharine Kelley, Boston—shot in the neck.

Jos. M. Parker, Bangor, Me.

J. N. Thompson, Santa Clara—shot in the thigh.

Kilton D. Beale—shot in the arm.

Isaac B. Farley, Cold Spring, N. Y.

Charles Ernest, three years old.

Oscar V. Waller, 14 years old, Nashua, N. H.—cut on the head.

James Ewing, Hancock co., Ohio.

John D. Hervey, Berkshire, N. Y.

Thomas Teague, Truro, Cornwall co., England—shot in the breast.

Peter Strout.

John Sharper, Portsmouth, N. H.

Henry Paxton, Onida co., N. Y.

Backus, servant of Mr. Greathouse.

The passengers on the John L. Stephens are all doing well, and some are nearly recovered. Moses Lewis, from Van Buren county, Michigan, is missing, having been seen a short time before the riot.

IMPORTANT IF TRUE.—We understand that his Excellency Gov. Johnson has discharged Terrence McSpedden, the porter of Barry & Patterson's wholesale liquor establishment on Montgomery street, and appointed Abijah Bitters to fill the vacancy thus created. It is understood that the appointment is a valuable one, the salary being \$125 per month, and tailings. It is stated that in this removal the Governor has not been actuated by any personal animosity to Mr. McSpedden, or any feeling of political preference for Mr. Bitters, the object being to test the power of his Excellency to remove and appoint all clerks, barkeepers, porters, and other persons in the employ of our citizens. Should this authority be established, it is the intention of the Governor to establish a State Intelligence Office, where such of our citizens as may have their cooks, chambermaids, &c., removed, may find others to fill the vacancies duly authorized by the gubernatorial appointment.—S. F. Chronicle.

FAILURE.—The banking house of Argenti, Cavalier & Co., San Francisco, failed on Friday last. Some of their paper, sent to Europe, returned by the Stephens protested, and attachments were levied on Thursday evening. Mr. Argenti went to New York about six weeks ago.

P. B. Reading and lady arrived at San Francisco, from New York, on Friday last, on the mail steamer.

SUSPENDED.—Marshal North has suspended officers Stevenson and Nugent, of the San Francisco police, for disobedience of orders.

John R. Scott, one of the most famous American actors, died at Philadelphia, on the 26th of March.

## New Advertisements.

EMBROIDERIES  
AT THE CHEAP STORE.  
BEAUTIFUL French work Collars; Sleeves; Chemises; Handkerchiefs; Purse; Swisses; Bands, &c.

"A HIT, A VERY PALPABLE HIT," was made in the course of the celebrated remedy known as "Rhoen's Fever and Ague Cure." Never before was disorder of the liver, malaria so prevalent in every section of the State, North, South and West as afflicted with the same complaint, and a general remedy was the necessity of some remedy which had power to alleviate this incalculable amount of suffering.

Completely that desideratum exists in the article before us, which is so prepared as to neutralize the poisonous exhalations which induce Fever and Ague and kindred diseases. It is a perfect antidote to malaria, and will effectually subdue Fever and Ague, and bilious disorders, whether recent or of long standing. Specially in its action and harmless in its ultimate effects, this remedy is justly entitled to the perfect confidence of the public. It is potent to cure, powerless to effect evil. One trial will demonstrate its singular efficacy.
