THURSDAY MORNING, JUNE 12. OUTSIDE. - For correspondence, city items, general news and miscellaneous intelligence, see first and fourth pages.

Revolution-Convention.

When the San Francisco movement commenced, It presented the distinct features of a general uprising of the people to accomplish a moral enda great moral revolution. Bad men had comblined to rule, tyrannize over, and dictate at the muzzle of the pistol, to the people of the city, and good men found that self-protection imperiously demanded a union to drive the public plunderers from their midst. The best citizens had in it, against our Courts. As a general rule, the felt for a long time that the crisis must comethat a struggle was approaching between the good and the bad-the gambler and the anti-gambler-the honest and dishonest-the virtuous and the vicious ; -and that it only required an occasion to bring into collision these antagonist moral elements. The killing of James King of William presented the occasion; it was the match applied to the long train of moral grievances and individual outrage and wrong, under which the people had been suffering. The pent death. We have never groaned under evils up feelings of the community burst forth, and nothing short of merited punishment inflicted summarily upon the murderer, and the destruction of the villainous band of cut-throats who had ruled the people so long with powder and ball, would satisfy the sterling and real law-abiding men in San Francisco. Beyond the object avowed, the people entertained no idea of advanoing. They contemplated the use of no physical force, except so far as might be necessary to ensure success in this moral purifying process, and to protect themselves in the progress of their labors. And no further force would have been displayed, had not the Governor, in an evil hour, listened to counsels which induced him to issue his Proclamation, declaring San Francisco in a state of insurrection, and calling on the militia to hold themselves in readiness to march to that city to maintain the supremacy of that law which had been prostituted to protect criminals, instead of vanishing them. But for that unfortunate proclamation, we candidly believe San Francisco would now have been entirely quiet, the Committee would have finished its labors, and an adjournment carried. But the proclamation forced them to prepare for self-defense. They were in a position in which the people had placed them for certain purposes; they had acted as the people directed, and were assailed as murderers, the power of the State Savoken to drive them to submission, and war and bloodshed threatened if they did not immediately surrender. Knowing themselves in the right morally and socially-knowing they were in their acts vindicating that principle which lies at the base of all true republicanism-that all power is inherent in the people-that they had done no violence against the rights of property or society-knowing all this, and feeling that they were acting as good, law-promoting citizens, before God and man, they resolved to defend themselves against all assaults made upon them by order of the State authorities. In backing up this determination, a further show of military force became a necessity, and hence the recent demonstrations in San Francisco. But if the Governor will revoke or suspend his proclamation for a couple of weeks, we are confident that all show of military We should not. In his over anxious zeal to do stories in hight, has been commenced on the vaforce will disappear, the Courts resume their his duty, and all his duty, he has, in our estimaregular business, and things return to their tion, gone too far, acted hastily, and rather too wonted channels, as if no Vigilance Committee had positively against the advice of some of his most the Courts were held in the city as usual: its publication caused them to adjourn or suspend kept in a continued state of excitement, the Com- by which he has been for some days surrounded, firmly convinced they will be sustained to the crisis in the public affairs of the State. He end by an overwhelming majority of the people should, however, be cautious about admitting the of California. The people declare that the citisens of San Francisco are engaged in a good cause, and they are ready and willing to sustain

them, morally and physically. Taking this view of the case, we must express our surprise at the extreme measures recommended in the True Californian of Tuesday. That paper urges the formation of Vigilance vent the organization of such Committees in every city, town, and mining camp in the State. It will then be looked upon as the only legit-Imate means to assist the people of San Francisco. If the Governor issues no such order, no Vigilance Committees will be organized out of San Fran-

No revolution other than a moral one can be produced in the State, unless the Commander-in-Chief gives his orders to fire upon the citizens of Sen Francisco. Should this fatal order be given, auch a storm of revolution would sweep over the State as never has been witnessed in these United States. In its irresistable progress it would not leave so much as a vestige of the present State government and State officers. If no order of that bloody character is issued-if the present military enrollment is discontinued-if the Governor will suspend or revoke his proclamation, as he may do legally and honorably-for it is always honorable to correct an error-the waves of pubhorrors, be avoided, and the Governor instantly restored to that confidence reposed in his character and integrity before this unhappy controversy bors and fellow citizens, and all will be well.

The idea of a People's State Convention to form a Constitution, is one of such extravagance that we are satisfied there are not twenty-five men in the State who would adopt it. Such a move would become at once an attempt to produce a political revolution, of the most vital and great moral law of right and justice, while they important character, and however much men may be willing to assist San Francisco in this great moral struggle upon which she has entered, they are not prepared to go the length of attempting to substitute a new form of State government for the one they now enjoy. Upon no contingency—save that we have herein named, find out who those members are. Like boys a hostile attack upon San Francisco by Govern-stealing fruit, they seem to have agreed not to ment orders—can the people of the State be tell on each other. driven into a revolution having for its avowed object the overturning of our present State Gov. ernment.

EMPLOYERS .- In our opinion, the men in San Francisco who have employed, paid and supported the shoulder-strikers, ballot box stuffers and election bullies, to enable themselves to be swin-dled into office by such despicable agents, are a much more dangerous class of men than those scamps whose services they bought. While the Vigilance Committee is employed in sending out the agents, would it not be well enough for them to fasten on some of the principals?

SACRAMENTO DAILY UNION. | WHITE VS. FLORRY.—The reception of the news in San Francisco, that Florey had been shot by such a notoriously bad man as Sam White, eems to have produced there an intense excitement; here there was very little at the time. In the True Californian's description of the affair we find the following sentence:

The utmost anxiety was felt to hear how the The utmost anxiety was left to hear how the people of Sacramento would act under the circumstances—whether they, imitating the example set by their brethren in San Francisco, would rise in their majesty, and scorning to wait the slow and uncertain extens of correct Counts seited the wilder incertain action of corrupt Courts, seize the guilty scoundrel, and mete out to him that justice which the crimes of his past life so fully merits, or whether they would wait and abide by the decision of the We copy the above for the purpose of entering

our protest against the sweeping charge contained law in our Courts has been faithfully and honestly administered. Criminals do not escape justice because the Judges and officers of Court have been ballot box stuffed into office. The Judges of the District and County Courts are good lawyers; they both understand their duties, and when parties are brought before either of them, charged with crime, if the evidence justifies it, a verdict of guilty follows. We have now several criminals in jail, under sentence of ties, and when parties are brought before either of like those which have crushed San Francisco through her Courts, and hence our people, as yet, can offer no good justification for organizing a Vigilance Committee, to administer pun- Dunn, who was arrested on Monday night for ishment upon the head of the murderer. If breaking into the Sebastopol Saloen on K street, this man, Sam White, who is now in the custody of the law, is proved guilty of murder, a verdict of murder will be rendered against him. and he will be sentenced and hung, unless the Supreme Court is appealed to successfully in his behalf. The people of San Francisco were justified, in the face of heaven and earth, in forming their Vigilance Committee; the people of Sacramento are not now surrounded by like

STORMS .- In the physical world, nature has provided in her economy, for the purification of the atmosphere by means of the storm, the lightning, the thunder and the rain. Does not the same general principle apply in the moral, the evil are often generated in such excess in communities, as to require a storm among the people to purify the moral atmosphere which they breathe, and render it fit to be consumed by good men and their wives and children. But like the storm among the contending elements, the end should be to purify, not to destroy. Is not this San Francisco case one where a storm was required to purify the moral atmosphere? And has not the late storm produced that effect? We think it has, but care should be so far exercised as to prevent the storm from detwo fierce hurricanes meeting, they would prostrate, rend asunder and destroy whatever is crossed by their tracks. One storm will produce a healthy action; two, meeting, will destroy whatever they track.

justifying circumstances.

THE True Californian boldly calls upon the Governor to resign! What do they expect to tioned. gain should he take them at their word? Do ever existed. Until the proclamation was issued, reliable friends, but what of that? No man is perfect. Previously he had made the best and truest Executive officer the people have had business. So long as that proclamation is hang- since the State was organized; and they would ing over the city, the Courts must be interrupted, be very unwise to desire to repudiate him for an business generally disarranged, the community error of the head. Once out of the difficulties mittee forced to keep up their military organiza- and he will prove the same kind of a Governor tion-and from what we see and hear, we are he made previous to the present unparalleled counsels of new-born professed friends.

to the States, by leave of the Legislature, while the people pay his salary of \$10,000 per year; the stocks of the dealers by whom it was erected. The building is twenty-two feet front by fifty feet deep, and thoroughly fire proof. leave for the Sierra Nevada on a hunting and health-seeking tour, and Judge Terry seems to Committees throughout the State, and the be industriously shaking the confusion in San holding of a Convention on the Fourth of July Francisco, until it may be become legally connext to form a new Constitution for the State and | founded-if not dissipated at the cannon's mouth ; turn out all present officials. If that should | Could they have gone then, we are inclined to unfortunately be done, no human power can pre- the opinion that the political health of the State would have been greatly benefited.

> PACIFICATORS.—The petitions, signed by over two thousand of the respected citizens of the city-including the names of the warmest personal friends he has in the world-will be presented this morning by a committee to Gov. Johnson for his consideration. It is earnestly hoped, by all lovers of peace, order and moral purity, and by all the disinterested friends of the Governor, of long standing, that he will so far grant the prayer of the petitioners as to quiet the public mind and put an end to the scenes now enacting in San Francisco. It is a revolting sight to see Americans drilling and arming to destroy Americans. Freemen can be reasoned with, but never driven.

SUPPORTERS OF THE LAW .- If we are not greatly mistaken, nearly every one of the gentlemen who have advised and urged Governor Johnson to issue his proclamation, and call out the militia lie commotion will subside; civil war, with all its to put down the Vigilance Committee by force, in order to vindicate the Constitution and the laws, would fight a duel if challenged, and would challenge a man to deadly combat upon the field opened. Let him listen to his real friends, neigh- of honor! if they felt themselves insulted. They would trample on the Constitution and the laws, and glory in the act, and would justify themselves on the ground that the law afforded them no adequate protection or satisfaction. Yet they are now great sticklers for law and order. They wish to punish a community for vindicating the are ready, when the occasion calls, to violate

both the laws of God and man, Don't know what they are .- Some of the papers having stated that military companies had and Ladder Company, at San Francisco, yielded been formed in Stockton to aid the law and order \$1,675. party, the Argus states that it is impossible to

DROWNED .- Information has reached Stockton, that on Sunday evening, the 8th of June, Dr. Dickenson and daughter were drowned on their way from Snelling's Ranch to La Grange. Their bodies had not been recovered. No particulars

LEE & MARSHALL'S CIRCUS .- This company was to have performed at Grass Valley last night. The proprietors have removed all objectionable features from the performance, which is heartily approved of by the press of the interior.

our Courts may now be considered equivalent to a conviction. Five indictments were sustained by verdicts on Tuesday, and a young man named David Dunn, was convicted in the Court of Sessions yesterday, of having in his possession burglarious instruments. The defendant smiled on the rendition of the verdict, as though he had been the frequent recipient of similar favors; in fact, he is a pardoned State convict. He was arrested at the Golden Eagle Hotel, on the 28th December last, with a man named James Johnson, on suspicion of having stolen a pistol of one of the boarders. On having stolen a pistol of one of the boarders. On examination of a carpet sack, (which Dunn subsequently claimedas his exclusive property) there were found therein several articles of apparel belonging to a Mr. Nightingale, of Marysville, and sundry skeleton keys, on which were based charges of grand larceny against both parties, and the above against Dunn. Johnson was tried and acquitted at the last term of the Court, Dunn being used as a witness in his behalf. Dunn will be tried sed as a witness in his behalf. Dunn will be tri in the charge of grand larceny to-day.

THE CITY.

PETIT AND GRAND LABORNY .- O. Bendick, clerk in the store of P. H. Myers, on J street, was tried yesterday, in the Recorder's Court, on a charge of purloining a pair of shoes, valued at \$2, from his employer. It appeared, from the testimony, that visement. A charge of grand larceny, preferred against the defendant, for alleged practices of a similar nature, was continued till Friday next.

BURGLARY .- The Recorder yesterday dismissed the charge of burglary preferred against Thomas and helping himself at the bar without permission. and nelping limself at the bar without permission. It was proven that Dunn, who was acquainted with Smith, the proprietor of the saloon, merely called in to get his coat, which he had forgotten, and found Stafford within, plying the bottle. He remained and kept guard over Stafford until Smith could return with an officer. The witnesses in the case of Stafford were sent immediately before the Grand lury.

SAFE RECOVERED .- The iron safe which was stolen from the office of Smith & Prescott, early on Lieut. Livingston, leaving eight dead inside the Tuesday morning, was found yesterday on the bank of the river, just below the Tivoli House, about half way between this city and Sutterville. The top had been broken to pieces and the contents abstracted. Near it was fastened the yawl boat of a sloop which is moored to the Levee. The discovery was made by a fisherman, who communicated the fact to the Marshal. The papers were found vesterday morning being in a bundle of social and the political world. The elements of shingles, at the lumber yard of Smith and Pres-

ILL FAME .- A motion for a new trial in the case of Mit Raymond, convicted of keeping a house of ill fame, &c., was made yesterday in the Recorder's Court and overruled. The Court thereupon rendered judgment, and imposed a fine of \$100 and costs-\$125. Counsel for defense gave notice of an appeal, on the ground of the alleged insufficiency of the complaint and errors of Court during the progress of the trial. The defendant had better pay the fine and cease violating the law.

DETENTION ROOM .- The contract for liping with No. 16 iron the room which is being fitted up at the Station House for the detention of the chain gang, was awarded yesterday to Green & Co., for stroying where it was only designed to cleanse. Death and destruction will surely follow, if the State authorities produce a counter storm. Like State authorities produce a counter storm.

THE PLANES .- We understand that the work of stripping the planks, sleepers, &c., from J street. between 12th street and the Fort, will be completed to-day by the chain-gang, who have nearly reached the Fort in their work. The dirt will then be the Fort in their work. The dirt will then be dragged from the sides to the center of the street,

ANOTHER BRICK .- A brick building, to be twenty they expect to get a better man in his place? feet front by one hundred feet deep, and three cant lot on K street, between 2d and 8d streets adcan lot on A street, between 2d and on streets, adjoining the Western Hotel on the east. It will, when completed, form a portion of that establishment. The lot has been vacant about a year.

VAGRANTS .- The City Marshal informs us that he intends arresting, without distinction of cloth, all of that numerous class of our population who may be styled "vagrants." The new apartment at the Station House will enable him to afford them suitable quarters. We hope his efforts in this re-PROBATE .- In the matter of the estate of Edward

Wadhams, deceased, the will of decedent and petition of Collins Wadhams, Seth R. Kneeland and Alfred Redington, (executors named therein,) that the same may be admitted to probate, and letters testamentary issue thereon, were filed yesterday in the Probate Court, and Tuesday, June 24th, fixed for proving said will.

POWDER MAGAZINE .-- The powder magazine on SCPREME COURT.-Judge Heydenfeldt has gone Fourth street, between U and V streets, being completed, was induly inaugurated yesterday with

Stuicing.-To save unnecessary labor the Superintendent erected a sluice, vesterday, in the eastern tank of the reservoir, to assist in cleaning it of the mud which had collected toerein, to nearly the depth of a foot, within the past six weeks. The city prisoners were employed in the cleaning

AN ELOQUENT DEPENDER .- Pat. McGee, who so eloquently defended the characters of Billy Mulligan and Charley Duane, in front of the Western Hotel, on Tuesday afternoon, was fined \$30 yester-day by the Recorder. Pat. "pungled" and left the Court room in disgust, being assured that the city had been revolutionized.

THE WEATHER. - The maximum temperature during the past four days was as follows: on Sunday, 80; on Monday, 79; Tuesday, 89; Wednesdegrees. A warmer time may be expected
The maximum attained in June during three years past, was—in 1853, 97 on the 16th 1854, 90 on the 10th; 1855, 100 on the 22d.

Some Parsnip .- A parsnip has been exhibited to s from Hoyt's garden, near the cemetery, measuring three feet seven inches in length. Except in lor it had every appearance of a black snake IDA VANARD .- The case of this notorious courte

san, for keeping a house of ill-fame, was continued yesterday, by the Recorder, until this morning. To BE SENTENCED .- Monday next has been fixed for sentencing the prisoners who have been con-victed in the Court of Sessions.

CONDITION OF FLORY .- We are informed that Flory was much better last evening, although still in a critical State. An iron constitution is the most favorable feature of his case.

MRS. KING'S ACKNOWLEDGMENTS .- It will be seen by the response of Mrs. King, widow of the late James King of Wm., to the Sacramento Committee, which we publish below, that this bereaved lady is deeply sensible of the liberality of our citizens, and expresses her acknowledgements in terms which cannot but be appreciated:

San Feancisco, June 10, 1856.

To James Anthony, John M. Rhodes, Wm. B. Rochester, Robert Kirk, M. H. Fowler and Henry Miller, Esqs., Committee.

Gentlemen:—Allow me, through you, to tender citizens of Sacramento

my grateful thanks to the citizens of Sacramento for their liberal testimonial.

Although my husband was a total stranger to very many of them, their conduct evinces their regret at his untimely death, and their appreciation of his character, while their sympathy is fully appreciated here widelight as y gret at his units, while their of his character, while their preciated by a widowed heart.

Very respectfully, yours,

CHARLOTTE M. KING.

BENEFIT .- The benefit given at the Metropolitan on Monday night last to the St. Francis Hook

ANOTHER FAILURE .- A "Law and Order" neeting was called for Monday evening last, at Stockton, through the Republican. It was an entire fallure.

J. P. MANROW .- This gentleman, one of the prominent members of the Vigilance Committee, publishes a card, showing the falsity of certain charges made against him.

BARREN.-We do not remember the day when the papers of San Francisco were so dull as those received yesterday morning. They were absolutely barren of news.

OROVILLE ELECTION .- J. T. Elliott has been elected Justice of the Peace, and J. Y. Jones, Constable. There were 864 votes polled.

ANOTHER CONVICTION.—The trial of a felon in By Telegraph to the Union

BY THE STATE TELEGRAPH LINE. Equipment of Fort Vigilance. San Francisco, Wednesday, June 11-10:45 A. M Yesterday and last evening passed off quietly. At one o'clock this morning drays loaded with sand bags commenced to arrive at the Vigilance Rooms. The avenues leading to the Rooms were guarded. A fortification of sand bags two hundred feet long and thirty feet wide and five feet high is placed opposite to and adjoining the rooms, with port holes in each side and end for cannon. It is said that this precaution was taken in consequence of a rumor of an attack.

SECOND DISPATCH. Resignation of the City Marshal-All Quiet.

San Francisco, June 11-10 P. M. Hampton North, City Marshal, of San Francisco, has tendered his resignation to the City Council. In his letter of resignation he says :

This action may tend to restore that harmon (doubtless reterring to want of harmony existing in the Police Department) in the present distracted affairs of this community.

City quiet to-night. Nothing additional of im-

ortance has occurred.

SKIRMISH WITH THE TULURE INDIANS-PARLEY VITH THE INDIANS.-We had supposed that the fighting with the Indians in Tulare county had ceased, but we are in the receipt of accounts of further hostilities. A gentleman who arrived in Stockton from Fort Miller, on Tuesday, June 10, has given the editor of the Argus some information in regard to a skirmish, but whether it has reference to an old affair, or is of recent occurrence, we have not the means of knowing, as no dates are given. He states that the volunteers were recently defeated in two engagements with the Indians, who were finally routed by breastworks they had thrown up. Some Indians who had escaped to Fort Tejon report that forty had been killed and as many more wounded. We suspect this is the same affair which was reported some two weeks since. It is also stated, that on the first of June, Mr. Campbell, Indian Agent at Fort Tejon, through an Indian had a parley with the warlike savages, and that they agreed to enter into a treaty if he would meet them in the moun tains about thirty miles above Smith's mill, on one of the forks of the Four Creeks. He assented, and on the 3d of June started for that place, with an escort, accompanied by twenty-six warriors and four chiefs. As the supplies and rancheries of the Indians have been consumed, it is thought the Indians will willingly treat upon reasonable

THE UPPER SAN JOAQUIN .- A correspondent of the Stockton Argus, writing from Millerton, June 6th, states that the Indians are quiet in that vicinity. There are but few miners, and they are doing well and are contented. When the waters fall, it is intended to go to work in the bed of the San Joaquin, where it is believed there are large deposits. Of the growing crops deplorable ac counts are given-the farmers having abandoned them and gone to mining. In conclusion, the writer says the people of that region are hand and heart with the Vigilance Committee.

INCORRECT .- A report which was put in circulation in San Francisco, that the Steam Navigation Company had refused to carry State volut teers, is entirely without foundation.

ment in the mode of transferring the semblance of the human face to a durable substance, by the substitution of glass for the polished plate. Pictures thus taken which are denominated "ambrotypes," are not only quite as truthful in the delineation of the features as the best of photographs, but possess the advantage of being equally as distinct, in all positions in which they may be held, without regard to the angle of light falling upo them-thus combining the advantages of a painting with those of the daguerreotype. There is no doubt bu that this method will supercede all others, as any one must conclude who will give the subject an examination. and Sacramento streets. San Francisco, contains a colection of pictures which is well worth an examination and a study of which will give an insight into the mys teries of this art, which cannot but be satisfactory to any one. The whole arrangement is probably as con plete as that of any similar establishment in the United States. The building was constructed with a view to the admission of light, and all the appointments and appa ratus are perfect. We doubt if better likenesses can be turned out in any part of the United States, or in the world:-in fact, human invention has been tested to the utmost, and its results are collected away off on the shores of the Pacific.

UNITED STATES HOTEL .- The United States Hotel, on Front street, between J and K streets, having been re modeled-almost entirely rebuilt-and thoroughly re fitted, will be opened to-day under the management o Mr. Perrin, who is familiar with the duties of that posi tion. The second story of Dr. Taylor's building, and the second and third stories of Mr. Leggett's new structure, will be annexed to the establishment, as parlors, lodging

FURNITURE AT AUCTION .- The entire furniture of the Osceola House, corner of L and Seventh atreets will be sold at auction, at 10 o'clock this morning, by J. B. Starr, on the premises. The hotel is commodious and furnish ed throughout. As the sale will be without reserve, har gains may be anticipated.

REFERSHING.—The California Ice Company furnish u a daily supply of their choice nuggets. Nothing can be more refreshing in a temperature like that in which w have been broiling for the past few days.

EDUCATION .- It will be seen by advertisement in an ther column, that Mrs. Cole has epened a Boarding School for Young Ladies, in Placerville. This expe rienced instructress and accomplished lady is well qual fled for the responsible position she has assumed.

MARRIED. Near Weaverville, May 81st, Mr. James Eastman to Mrs. Bersy Crittenden. In Yuba county, June 5th, Mr. Robert O'Neil to Miss Almira Davidson. In Nevada, June 10th, Mr. T. Ellard Bear to Miss Virginia Ksox.

BIRTHS.

ASSAY OFFICE, No. 52 J street, between 2d and 3d, SAGRAMENTO, BLAKE & CO.,

Having established themselves in the business of MELT-ING, REFINING AND ASSAYING OF GOLD and Ore of every description, are now prepared and well quali-ded to execute business entrusted to them, faithfully and on the most reasonable terms.

Our assays have been tested thoroughly and proved to be correct, at both American and European Mints; and

dealer can be found dependent upon city manufacturers for a supply cf charged water, who has not most ardently desired an instrument, combining the requisite advantages of cheapness, compactness, safety and power, which are found in Nichols' Patent Fountains.

They meet a great want which all the various forms of Air Pump Apparatus, Apparatus for the employment of Tartaric Acid and Soda, objectionable and feeble as they are, have failed to meet. Even remote country dealers have rejected such machinery, and now demand apparatus capable of producing standard official Carbonic Acid—or Soda Water—is made with Nichol's Combination Fountain. Its power is very great. The expense of the Instrument brings it within the reach of every dealer. By its use, he makes his own Soda water on his own premises. He can never be out of the beverage, with this instrument, more than a few minutes at a time. It will cost him but a mere trifle te manufacture his Soda Water. He saves all the profits of the business himself. The Instrument requires but little more room than the ordinary copper reservoir. It is portable, and can be removed to any locality. Small towns and villages, and even private dwellings, can receive the benefit of this invention, and the sparkling, temperance and healthful beverage can, with these Instruments, be afforded in every community.

The Patent Generator is designed for those who own the old form of Reservoir, and wish to charge them upon their own premises. It is designed to meet the wants of small country dealers, as well as large. The Generator is powerful, safe, easily managed, and sold at a moderate price.

Some have made a mistake from the fact that Boda is used in this machine, in supposing that it was of the atmospheric air pump variety of apparatus. This is not be correct, at both American and European Mints; and through recent improvements we are enabled to make returns of deposits within six hours, in Bars or Cons. We guarantee the correctness of our assays, and will pay all differences arising from the same with any of the United States Mints.

Bars discounted at San Francisco rates, and U.S. Cons sent to our patrons in the country by return Express. We respectfully refer to D. O. Mills & Co., Wells, Fargo & Co., Sacramento.

Garrison, Morgan, Fretx & Raiston, S. Francisco.

Wells, Fargo & Oo., (**Astanton.), Garrison, Morgan, Fretz & Raiston, S. Francisco, Hon. J. M. Howell, El Dorado county.

Hon. J. E. Hale, Hon. H. R. Hawkins, | Placer county. Some have made a mistake from the fact that Soda is used in this machine, in supposing that it was of the atmospheric air pump variety of apparatus. This is not the case. Such machines do not make pure mineral or soda water, but a fictitious mixture, which, to be palatable, must have a large quantity of syrup to cover up the taste.

Nichols' apparatus makes true carbonic acid water, such as is used in the large cities.

PACIFIC MAIL STEAMSHIP CO.

PACIFIC MAIL STEAMSHIP CO.

FOR NEW YORK and NEW ORLEANS,
By Steamships and Railroad,
VIA PANAMA.

The comfortable and favorite steamship
SONORA,
will leave Vallejo street wharf, for PANAMA, with U. S. Mails, Passengers, and Treasure, on
Friday, June 20th, at 9 o'clock A. M. Each instrument before it leaves the manufacturer's hands, is subject to a pressure of twelve atmospheres, or about two hundred pounds to the square inch, by hydraulic pressure. The gretest pains is taken to have every instrument perfect. No apprehensions need be felt on that account. They will not be liable to get out of order. With fair usage, they must continue perfect for many years. They are not complicated, but very simple and easily understood by any one of ordinary capacity. Very full and explicit directions go with each instrument.

BY RAILROAD ACROSS THE ISTHMUS, 37% cents to 50 cents, or about three cents a gailon.
In addition to the above, Soda Draft Apparatus of Marble and Silver Plated, also fine Fruit Syrups. To Aspinwall, where there is always a steamer awaiting their arrival.

According to arrangements now completed, passengers arriving at Panama in the morning invariably leave Aspinwall for New York and New Orleans, in the afternoon of the same day, thus affording regularity in the through trip; and a safe, pleasant and expeditious transit from ocean to ocean, and avoiding exposure to night air in a tropical climate, and expense upon the

night air in a topical Isthmus.

Through tickets are furnished, including the transit of the Isthmus.

Treature for shipment will be received on board the steamer until 10 P. M., THURSDAY, June 19th.

Treasure for snipmens and the steamer until 10 P. M., THURSDAY, June 19th.

For freight or passage apply to
FORBES & BARCOCK, Agents,
Corner Sacramento and Leidesdorf streets,
San Francisco.

The SONORA will be succeeded on the 5th of July,
by the magnificent steamship JOHN L. STEPHENS, R. H.
Pearson, Commander.
