## NEWS OF THE MORNING.

The Supreme Court, at its session yesterday, rendered no decisions. Although a number of cases were upon the calendar, they were laid over until Friday-the argument of a single case having occupied the entire sitting. This, however, is a case in which the miners are deeply interested, as it will settle, probably, the most important question yet raised in the mineral region as to conflicting rights. It is the case of the Bear River and Auburn Water and Mining Co. vs. the Little York Mining Co., decided by Judge Howell in the 11th Judicial District. In his decision, which was rendered in September last, the Judge held that one mining company may appropriate to its use the waters of any stream, although at a different point those waters may have been previously appropriated by another company, (provided the appropriation of such waters is for the legitimate purposes of mining.) and notwithstanding the older company would be injured by the adulteration of the waters or the diminution of the supply by absorption or

of attention. There is certainly no likelihood of a scarcity of tickets to be selected from at the approaching elecat present monopolize almost the entire attention of the people of the State, in Calaveras there is now a fourth which has placed a Legislative ticket in the field. We allude to the miners, whose nominations will be found in another column. From the published proceedings of the Miners' Convention, it would seem that the movement is zealously seconded by that interest. In their resolutions, they declare that they stand upon a distinct Miners' organization, the object of which is to secure

the election of honest and capable men as Representatives in the State Legislature, and such as will uphold and fearlessly defend the Miners' rights. They also eschew all affiliation with political parties ; enunciate the sentiment that the use of the mineral lands is exclusively the right of the miner, and conclude with the declaration that it is the paramount duty of the Legislature to make an and is quite conversant with the school system appropriation for the emigrant road from the Big of the Union. But he is not a man of marked Tree to Carson Valley. What may be the effect of this movement we are now unable to say.

It will be seen by the latest intelligence from the north, that there has been some fighting with, or rather pursuit of, the Indians, on Clear Lake .--Nothing of any note has been accomplished, and the volunteers have returned to their homes-their term of service having expired.

ASSAULT UPON AN EDITOR .- James O'Sullivan, at present editor of the Sonora Herald, and the Republican nominee for the State Senate in Tuolumne county, gives through the columns of his paper an account of an assault which was committed upon him by a man named Malone, who is denominated a "street politician and officer in a Democratic Club in Sonora." Mr. O'Sullivan gives the particulars in a very minute and detailed form. According to his statement, he was, on Friday, October 10th, conversing with a Mr. Lancaster, and explaining to him the reluctance with which he accepted the nomination, when a stranger to both parties, who proved to be Malone, stepped up and remarked : "You have been nominated to catch the Irish vote, and you will not get ten of them." To be certain that he had not misunderstood the remark, Mr. O'Sullivan asked him if he meant to use such language, and on receiving an affirmative reply, told him that he was a liar. Malone then attempted to strike, and also made a motion as if to draw a pistol, when O'Sullivan called out to Sheriff Stuart, who was standing close by, and who accordingly interfered, and O'Sullivan retired to his home.

"This office is one of the most important in the "This office is one of the most important in the State. Next to our laws to govern well the present generation, nothing else is so important as our schools to educate the coming generation. The school teachers should be held in honor as a band be tiled Honorable, it they fulfill their night mis-sion well. But upon this whole body of men en-gaged in the educational work, the Superintendent can impress himself—his own sentiments and en-thusiasm. He ought to be a man of education and ab thusiasm. He ought to be a man of education and thusiasm. He ought to be a man of education and refinement—a man of theory, and yet practical— able to command the respect of the body of teachers

throughout the State. "The Superintendent has something more to do than to arrange the distribution of the State funds to schools, and receive the reports and make his

party pointies. Men who value the great cause of the education of youth of the State ought to in-form themselves concerning the candidates for this office, and cast their votes accordingly. "For the office there are now some good candi-dates in the field. We have a personal acquaint-ance with the nominees of both the Republican and American party. They are both of them gen-tlemen conversant with schools, theroughcoing tlemen conversant with schools, thorough-going men. If we may express a preference, it we for Mr. Janes, the nominee upon the American ticket. He has taken an active part in the organi zation of schools in this city, and is peculiarly qualified for the office to which he is nominated, and would command the respect of teachers anywhere.'

We clip the above from the Evening Post and add our endorsement to every word uttered by the Post upon the great importance to the evaporation. This case has attracted a good deal people of the State of the office of Superintendent of Public Instruction. It is one in which the rising generation is most vitally interested, and that man is an unworthy father, who neglects tion. In addition to the three organizations which to vote for the best man nominated, without reference to party considerations. So long as our school system remains as now organized under the Constitution, the responsibilities and duties of the Superintendent will annually increase in weight and importance to the people of the State, Hence the absolute necessity that every father of

a family should be careful how they cast their vote in the approaching election for Superintendent of Public Instruction. The gentlemen nominated are reputed to b men of moral worth, and their party friends insist that each is well qualified by intellect, edu-

cation and disposition, for the position. Mr. Buffington has, we learn, taken considerable interest in the public schools in Stockton. talents, or of much experience in the school line, and besides is a bachelor. Everything else being equal, a man with a wife and children ought to be preferred for this office. They are the

men without a family ever lived who would, as a Superintendent of Public Schools, exhibit the same degree of interest and intense regard for common schools and the cause of education, as would be displayed by men having children to be educated. Hence the reason why we express the opinion that only men with families should

be supported for School Superintendents. Mr. Moulder, of San Francisco, is a gentleman of talents, education and character, but was educated in Virginia, where but little attention is paid to public schools ; has had no experience in the management of schools, and is a young man with no wife and no children to educate. These are our objections to Mr. Moulder, and we protest against his being elected Superintendent of a horse in the upper part of the city, about ; Public Instruction in California until after he becomes "Benedict the married man."

The third candidate, Mr. Janes, is pronounced by the leading San Francisco papers to be well by the leading San Francisco papers to be well qualified by talents, education and experience to discharge the onerous and multifarious duties of the affect was and superimeter to be well in the integration of the integrat discharge the onerous and multifarious duties of the office. He was educated in Vermont, which State furnishes to the Union more school teachers alley near the "Our House."

The HOSPITAL SUIT.—A communication was re-ceived by the Board of Supervisors yesterday from the Grand Jury, relative to the suit pending be-tween Drs. Price and Proctor and the county, on the contract with the former for the care and main-tenance of the indigent sick of the county. We endeavored to obtain a conv of the document, but THE HOSPITAL SUIT .-- A communication was rewill prove useless. It is estimated that has been done will prove useless. It is generally understood that it recommends the Board to adopt measures

calculated to bring the question in controversy be-fore the Supreme Court without delay for final set-tlement, and thereby stop the unnecessary expense of conducting two hospitals at once. The suppres-sion of documents and intelligence of a public character, of which our citizens have a right to be informed is a practice which has been pursued to Second Supervisor District, and appointed the nesecond Supervisor District, and appointed the ne-cessary Judges and Inspectors therefor. NATIONAL THEATER .- There was a very good nouse again at the National last night, upon which becasion the drama of "Eustache," which was brought out for the first time on Saturday night, was repeated, and that, too, with very decided success. The piece is one which, without being at all remarkable, is well calculated to please, and affords an opportunity for the display of the fine acting of some of the leading members of the company. The management displays good taste in producing pieces which have not been worn threadbare here, and the liberal patronage this house has received furnishes the best evidence that their efforts are furnishes the best evidence that their efforts are appreciated by the public. allo-night "Eustache" will be again presented, together with the farce of "My Aunt" as an afterpiece. Petition of Wm. Gerken, asking permission to remove a frame building on I street, opposite the Public Square, to another portion of the same block. Referred to the Committee on Fire and Water.

On Sunday evening a man named Fair was as-saulted at Whimtown, a locality on the Flat, by Edward and Tom McCauly, brothers, and a man known as "big Dlck." Fair had the parties ar-rested on Monday, and they were tried before Jus-tice Drake, found guilty of the offense, and fined. One of the principal witnesses against them was a young man named Bond. After hearing his evi-dence the defendants openly threatened to take his heart's blood. In execution of this threat they went in the evening to a store where Bond was sitting, and commenced abusing him on account of his evidence. He got up to go away, when a man named Carr, an accomplice of the McCaulys, stop-ped him at the door. Bond drew his pistol, and while in the act of drawing it, or after he had done so, was stabbed from behind by Edward Mc Cauly. Bond fired and shot Carr. Both men died soon after. Water. Ald. Bowstead, from the Levee Committee, to whom was referred the petition of J. H. Edward McCauly ran away, but was shortly ar-rested by officer Stetson and Mr. Caldwell, and de-livered into the custody of Justice Drake. A crowd of people soon gathered from all directions, and after a little while the sheriff's deputies, with a posse of citizens, arrived on the ground from So-nora. The people wanted to give the prisoner an immediate trial, and some were crying out to hang him, while the officers did their best to prevent hasty action. While the excitement was at its pitch, Sheriff Stuart arrived at the scene. He ap-pealed to the people present to sustain the laws After some discussion, the motion was with-drawn, and the matter referred to a committee of one from each Ward, consisting of Ald. On the Sunday evening following, Malone again accosted O'Sullivan on the street, and asked and fully appreciated. He has also taken an achim to stop. O'Sullivan however passed into the tive part in the San Francisco public schools, and City Hotel, where he was followed by Malone. who demanded a retraction of the offensive words. This O'Sullivan refused to do, when Malone'drew a pistol and presented it at the breast of O'Sullivan, while with his left hand he struck him twice. O'Sullivan was about to use a stick which he held in his hand, but reflecting that this might excuse the taking of his life, he desisted, merely remarking that he (Malone) had come to murder him, which he could do, as he had the advantage. Deputy Sheriff Sedgwick making his appearance, disarmed Malone. O'Sullivan then aimed a blow at his head, when Malone closed upon him and wrested the stick from his bands. Malone was then taken before a justice of the peace and bound over in the sum of \$5,000 to appear before the Court of Sessions. Such is in substance the statement made in the Herald.

THE WAY IT IS DONK .- The Republicans are

working like beavers, and they are efficiently assisted from the other side. By the last steamer, a friend from San Francisco informs us, thousands of Republican documents were received for gratuitous distribution throughout the State. Between twenty and thirty thousand papers, pamphlets, speeches, &c., were received in this city on Saturday last, through one Express company .---All the leading papers received for circulation in California, from New York and Boston, are also many months had been bestowed in its preparaof the same stripe. THE TELEGRAPH TO BE EXTENDED TO CARSON VALLEY .- The San Andreas Independent, by one of the recent arrivals at that place from Carson Valley, has information that the citizens of the valley are about organizing a company to establish a telegraph line, by the Big Tree road, so as to intersect the Alta Telegraph line at Murphy's. This would not only bring Carson Valley in immediate communication with the principal cities of California, but would be the completion of the first link in the great chain of telegraphic communication with the Atlantic. To us who are in California, this line would not be of so much importance as to the citizens of the valley. Already a semi-monthly express runs from Murphy's, on the arrival of each steamer, making the distance from Murphy's through to Carson Vallev in fourteen hours.

UNJUST SUSPICIONS .- On Saturday last, Oct. 17th, some fishes were stolen from a wing dam in the river opposite Oroville, and some Indians were suspected of the theft. SACRAMENTO, October 19th, 1856. To JOHN C. KEENAN, Esq., Foreman of Knickerbocke Engine Company No. 5:

Sir,-Permit me to express my grateful sense of you kindness, and that of the gallant members of Knicker bocker Engine Company, for your generous exertions t save my property from the fire on Saturday evenin last, on N street, between 4th and 5th. Although it was not in human power to have saved the building-ye your efforts and care in preventing the destruction the fruit trees and shrubbery, which I valued very highly and had labored for years to cultivate, hav placed me under lasting obligations to you.

Gentlemen, I regret that I am unable at present manifest my gratitude in a more substantial way than by thanks. The satisfaction of having aided in the cause of humanity is of itself a proud reward, yet th knowledge that your efforts are gratefully appreciated by those in whose behalf they are bestowed, may in some degree increase even the reward which a generou action brings. Repeating my thanks,

I remain yours gratefully, ISAAC WILLIAMS. To JOHN C. KEENAN, ESQ., Foreman of Knickerbocke Engine Company No. 5.
