The Office of Superintendent of Public Schools.

The City.

The decision of the Board of Education last week to make the City Schools a free school is a pure and simple act of benevolence. It is a step in the right direction, and is an improvement on the former mode of proceeding. The Board of Education has always been a body of men of good will, and this act of benevolence is a proof of their willingness to do what they can for the benefit of the children of the City. The City Schools are the best schools in the city, and it is only right that they should be made free.

The Board of Education has also been asked to provide for the education of children whose parents are unable to pay the tuition fees. This is a step in the right direction, and is an improvement on the former mode of proceeding. The Board of Education has always been a body of men of good will, and this act of benevolence is a proof of their willingness to do what they can for the benefit of the children of the City.
