EXPRESS OF TRASH.

In preparing the classification of the garbage in the city, the police officers have been instructed to see that it is properly sorted. The city council has passed an ordinance providing for the collection of garbage, and the police are required to enforce it. The ordinance provides that all garbage shall be collected in special carts, and that the same shall be removed from the streets at least once a week. The police officers are directed to see that the garbage is properly sorted, and that it is not mixed with any other refuse. The ordinance also provides that the garbage shall be collected at the expense of the city, and that the expenses of collection shall be paid by the owners of the houses. The police officers are also instructed to see that the garbage is not thrown on the streets, and that it is not allowed to accumulate on the sidewalks. The ordinance provides that the police officers shall have the power to compel the owners of houses to remove garbage from the streets, and that they shall be liable for any damage caused by the accumulation of garbage. The ordinance also provides that the police officers shall have the power to issue citations to the owners of houses for violations of the ordinance, and that they shall be punishable by a fine of not more than $50. The ordinance further provides that the police officers shall have the power to remove garbage from the streets, and that they shall be liable for any damage caused by the removal of garbage. The ordinance also provides that the police officers shall have the power to issue warrants for the arrest of persons who refuse to comply with the provisions of the ordinance.
