## NOTICE.

I have this day disposed of my interest in the UNION Printing and Pabilshing establishment to J. GRAY. PAUL MORRILL. SACRAMENTO, May 10th, 1858.

By the above announcement it will be seen that P. MORRILL has sold his interest in the UNION establish-ment to J. GRAY, who will from this date be a member of our firm. The character of the paper and style of conducting business will be unchanged. JAMES ANTHONY & CO.

NEWS OF THE MORNING.

On our first and fourth pages will be found the much talked of closing speech of Senator Douglas in the U.S. Senate, March 22d, on the popular sovereignty question. There has been expressed a great desire to see it, and we give a considerable portion of our reading space to its publication. To-morrow we will give, on the other side, the famous speech of Senator Hammond, of South many of them it has sorely disappointed those and good faith. At the request of Graham we Carolina, and on the following day we will conclude with the truly patriotic remarks of Senator Crittenden, of Kentucky.

The Board of Supervisors met yesterday forenoon, and proceeded to an election of officers. Their proceedings will be found in another place. The attention of our readers is called to further details of intelligence from Salt Lake and the Southern Coast; to the proceedings of the Masonic and Odd Fellows' societies yesterday; to the account of Indian troubles north of Honey Lake Valley ; to the report of the City Treasurer, for the month ending May 3d, and other matters of general and local interest.

AN EXCELLENT PROVISION .- Section two of an Act passed by the last Legislature "to establish the pay of officers and employees of the Senate and Assembly," after reducing the per diem of the Secretary of the Senate, Chief Clerk of the Assembly and Sergeant-at-Arms of both Houses, from twelve to ten dollars per day, provides that the Assistant Sergeant-at-Arms, whose pay is reduced from eleven to nine dollars, "shall perform the services of Door-keepers of their respective Houses." The provision is a good one, almost too good to permit us to believe that all of the members of the late Legis lature could have knowingly consented to its in troduction. It is in better harmony with the ideas of parliamentary rule which many of them evinced during the session, to suppose that it escaped their attention in the struggle of business at the close of their legislative labors. An officer whose importance to party and personal details of legislative management was so well demonstrated last winter, and whose duties are classified under the soubriquet of "whippers-in" in the British House of Commons, could scarcely have been given up without a struggle by some of the late members. There was hardly a measure of great party or personal advantage introduced during the session, for which the Assistant Sergeants-at-Arms did not find it their especial duty to act as arms did not ind it their especial duty to act as general ushers and overseers among the mem-bers. The several Acts and relief bills on which the advocates of party or pelf made a decided stand, were engineered and log-rolled by the Sergeants-at-Arms. We do not know that the law-making usage seemed to sanction their al-most entire devotion to this business. If the most entire devotion to this business. If the office of whipper-in is now to be discontinued by restricting the Assistants to the duties of Door-keeper while the Houses are in session, we are glad of it, and only hope they may be kept to their posts. If it be necessary to keep an agent for looking after the interests what erroneous, but is mainly correct. The fight

GREAT INDIAN FIGHT NEAR HONEY LAKE.

One Garlow, who came down yesterday from the Big Meadows, informs us that on Thursday last, the news was brought to Brown's house by a Deputy Sheriff of Plumas county, of a fight which had taken place between a party of residents of Honey Lake and some Mormon emigrants on one side, and a party of Pitt River Indians on the other. It seems that the Mormons, who were on their way from Oregon to Salt Lake, had been robbed of their cattle by Indians, who subsequently offered to exchange the cattle for flour. This proposition was acceded to; but when once the rascally red skins had obtained moscession of the rascally red skins had obtained possession of the flour, they refused to give up the cattle. Pend-ing the parley that followed this treacherous act, a party from Honey Lake, who were in pur-suit of cattle which had been stolen, joined the Mormons, and made battle with the Indians. The fight lasted for two or three hours, and resulted A. . B. J B. J B. J P. M. T. T J. M. J J. M. J. M. J J. M. J. M. J. J. M. The above account, as we are advised, is someof special bills and claims requiring a little lobby took place at Goose Lake, about two hundred miles in a northerly direction from Honey Lake Valley, three hundred miles from Yreka, and near the Lawson route leading to the Humboldt Meadows. It was thought about twenty-five Indians were either killed or wounded, and ten Indian scalps obtained. More would have been taken had

Attention was called, in our paper of Friday Supervisors to elect certain officers upon their last, to the remarkable circumstance of a docufirst meeting, but the present Board met and ment bearing the signatures of the San Francisco delegates in the late Legislature, being on file in the office of Secretary of State, concerning which, one, at least, of the delegates, expressed to us his ignorance of how his name came to be placed there, and distinctly averred that he did not himself sign it to the document in question. The paper was a seventeen Senators and fitty-one Assemblymen, and among the grounds of the recommendation it was set forth that Graham was Chairman of the cerned, should be reëlected. A CARD. MESSES, EDITORS: I wish to correct a false impression in regard to the petition which was sent in to-day, to the Board of Supervisors, making serious complaints against the late Pound Master. I signed a petition, and obtained the signatures of several hundred chers, asking that the pound be abolished, as it was an unnecessary institution. We could have no other reason; there is now no pound, and we do not entertain the best feelings towards the Pound Master. Mr. Mayo has given general satisfaction; he has done his duty, and dealt fairly and honorably with every one, so far as I am informed; and though he has had my cows several times in the pound, I have no reason to complain; nor has any other person, as I believe. STAMP DIES .- It will be recollected that som important amendments were made to the revenue law by the late Legislature, in the matter of laying a tax upon bills of lading, or contracts for the transportation from this State of gold dust, coin, etc., and on policies of insurance or similar instruments. In accordance with the provisions of the law for affixing stamps in connection with this tax, the State Printer is now in San Francisco giving directions for the manufacture of the necessary dies. As a matter of reference, we will here give, from the Controller's office, the rates of the stamp tax in all its variations, as it will appear on the dies, viz.:

He was the friend of Deal, and his vote upon that ballot would have elected him. Deal made a good officer, when Captain of the Police, but we preferred to see the Board take up a new man-one who had not been connected with the Police or parties particularly. His election, however, we believe, would have been much more acceptable to the majority than that of Dressel, of San Francisco, and published by Lansing.

On the night of April 24th, the Mormon party was surprised by some fifty or sixty Indians, previous to its junction with the Honey Lake party, and twenty-three of their horses stampeded. Subsequently a parley was had, and the Indians agreed, in consideration of a tent and some clothing, to bring in the horses, and desired one of the Mormon party to go with them and help drive them in. Dr. Silas G. Higgins volunteered, and after being absent nearly all day, it appeared the Indians were returning with the horses when the party from Honey Lake, some fifteen persons, who had been hunting Indians for having committed robberies,

came up and fired upon the savages, without previous concert with the Mormons. Immediately the Indians turned their guns and arrows upon Higgins, fairly riddling his body, presuming that he had been guilty of treachery towards them. One ball passed through his groin, and lodged in his rectum. At last accounts he was still living,

Having visited San Bernardino during the past week, we had an opportunity of conversing with parties who had just arrived at that city from Salt Lake, and who assume to give authentic informa-tion of the proceedings thereat. It is stated that there will be no fight between the U.S. troops and the Mormons. This has always been our own opinion. But what is to become of the people? Rumor says that a portion of them are to take refuge in the mountains of the Sierra Nevada-that extensive valleys have been discovered there, capable of cultivation; that there is abundance of wood and water, and that with such supplies as they can at present command, a large colony can Notice.-The partnership of Rivett & CO. is this day dissolved by mutual consent, J. Again, it is stated that parties will proceed to the North-ern States of Mexico. This we do not believe, nor is it sustained by anything like probability. The people of Mexico have no sympathy with the prin-ciples or doctrines of Mormonism. wholly under the control of their priest, who will never permit so gross a heresy to gain a footing among them. If their lands are to be occupied, they would prefer the direct immigration of the American people rather than refugees from the outraged laws of their country. Moreover, we do not think it likely that the Mormons would seek a settlement in Sonora, for they well know that be-fore long they would be subjected to the operation of the same laws t. om whose restrictions they are now anxious to escape. Again, it is said, that fer-tile tracts have been discovered in the Mohave country; that a colony has been detailed to settle them, and that those who have lately visited San Bernardino did so for the purpose of obtaining supplies to carry this on. This looks reasonable, and under the circumstances very probable. The navigation of the Colorado up to within twenty miles of the Los Vegas, has been ascertained, and this will afford the means of easy transit to and from the new settlement.
