## SACRAMENTO DAILY UNION.

# SUPREME COURT DECISIONS,

## OCTOBER TERM, 1858.

Judgment affirmed. BALDWIN, J. TERRY, C. J.

Smith vs. Wilson.—Appeal from an order dis-solving an injunction. In this case, the answer and accompanying affidavit on which the motion was heard show that defendant was in possession of the land in question, claiming and holding under an adverse title; and the weight of evi-dence contained in the affidavits on both sides being in favor of the title under which he holds. the injunction was properly dissolved. (Eden on Injunction, 231 and note; 1 Howard, Miss.,

108.) Judgment affirmed. TERRY, C. J. FIELD, J.

#### FURTHER ATLANTIC NEWS.

We annex some further items of Atlantic intelligence, received by the late Overland

ports are rather discouraging. They showed us specimens which they brought from the mines, of the very finest quality, but in very small particles, and these intermixed with the black sand so that it is difficult to distinguish it in a small goose quill, and report it as the result of a Summer's hard labor. They believe that there is some gold there, but not in quantities sufficient to pay for mining. They were in the mines prospecting nearly three months. These reports and statements are corroborated by others whom we have met, and who advise us to return. Our boys, however, are nothing daunted or dispirited; all are determined to push on and prospect for themselves before re- and expect that they can finish the ditch by turning. Nothing less will satisfy them. We the 1st of January, if the weather is not too are told that there was snow in the mountains unfavorable. This ditch is fourteen miles long, to the depth of six inches in August. If the report be true, we may anticipate a severe Winter. We are prepared, however, for the worst that may befall us. We have had no difficult we have had no additional news beyond what you may have received. Most of our company will return im-mediately, should the gold hunt prove a humbug; there are others who will go through to finished to this place, and miners will com-California in the Spring, and a few who will go to Santa Fe, New Mexico.

A letter to the Missouri Republican, dated Independence, October 4th, says that the Pike Peak gold excitement is still on the increase there, a new impetus having been given by some recent developments made by returned parties.

Early on Sunday morning, Oct. 10th, a fire broke out in the Missouri Foundry, corner of Clark avenue and Eighth streets, owned by McPheters & Pauley. It was supposed to be the work of an incendiary. The loss was about \$6,000. The Washington Union closes a three col-

nmn article on Senator Douglas with this remark : "His heart is as treacherous as his principles are rotten.

The following is a resumé of mining intelligence for the past week :

AMADOR .- A correspondent of the Ledger,

CALIFORNIA MINES.

Остовки Тели, 1858. *H. A. Brown vs. A. A. Smith.*—This case is an action for the diversion of water. It seems to have been closely contasted on the facts, and the proof was conflicting. The jury, after hearing all the testimory, found for the defendant. This is precisely one of those suits which a jury of the vicinage is best qualified to try, and the base of both mountains running tunnels into their centers, where they expect to find heavy deposits of gold. The French compary who are engaged in the tunnel at Alum Peak, are in 250 feet, with an excellent prospect and pable mistake or error to be made out, before it overruled the verdict of the jury on issue of fact joined in such an action; and, certainly, no such case seems to be made by this record.
We think the Court below did not err in the instructions given. The Seventh and Eighth, instructions given. The situations given. The Seventh and Eighth, only ones which appear to be assailed with much confidence. And these, when considered in con-nection with the peculiar facts of this case, we think correctly state the law. The motion for a new trial, founded on the plaintiff's affidavit of surprise, was correctly overruled. The reasons given in the written opinion of the Judge below, to to be found in the record, are conclusive upon this subject. The Reporter will embody that opinion in his statement of the case.

the world when this country was submerged. I counted between fifty and sixty whims in operation or in course of construction. I next descended the north side of Alum Peak, and wound my way through gorges and ravines, and brought up at the foot of Iron Peak. Here were several companies at work prospect. ing, and among the number was John McGill, who had sunk a shaft twenty feet deep at the base of this mountain, and then started a drift northward and found a rich prospect. From thence he started a branch drift to the west-ward, and found the bed rock nitching, with a

ward, and found the bed rock pitching, with a strata of pay dirt that prospects fity-five cents to the tub. McGill and his mate are able to take out fifty tubs per day with ease. Their appliances consist of a common windlass which we have the wife of Billings and four children, had arrived in this city from Victoria several weeks

Mail. Mail. The Kansas City Journal of Commerce, of October 7th, has a letter from a party of gold seekers, who left that city a short time ago. We make the following extracts: Council. Grove, K. T., Sept. 25th. Thus far we have progressed finely, losing none of our stock, and all the boys being in fine spirits. We have been met by several wagons returning from Pike's Peak, whose recame into the town he had but one dollar left, Mrs. Billings' room, and, after satisfying

fine spirits. We have been met by several taking out the dirt of three drifters, which wagons returning from Pike's Peak, whose re- amounts to from one hundred and fifty to two hundred tubs per day. They have been at work not quite a month and a half, and have out over four thousand tubs of dirt, which prospects from three to four bits per tub. The apparatus for this claim did not cost the ownbetween the gold and the sand. They exhibit ers more than twenty-five dollars, and will last for years.

NEVADA.—The Grass Valley National, of November 6th, has the following mining news: We learn from a correspondent that Lans-ing Swart & Co are about computing the Vis November 6th, has the following mining news :

ing, Swart & Co. are about completing the Vir- | escaped. ginia Ditch, now known under the new organization as the Omega Ditch Co. The company has now in their employment some sixty hands,

the 1st of January, if the weather is not too and takes water out of the South Yuba east of feet; top, seven feet; depth, four feet, with a heavy grade. A branch of the South Yuba Canal is just

mence to wash in a few days.

This portion of the county has scarcely been of \$5,470 73. prospected as yet, though from what we learn in regard to it, it is one of the richest mining regions in the county. There is room for hunlreds of men to work, and over three miles month. square of mining ground in this vicinity that has never been worked or even located, with plenty of water. We are astonished that more miners do not find their way there.

Bowman & Co.'s claims paid last season from \$6 to \$7 per day to the hand. They will commence washing in a few days; their claims are extensive and will not be exhausted for years. Prescott & Co.'s ground paid to the hand

last season from \$12 to \$14 per day. They are now preparing their claims for working. Marble & Co. will also be ready in a few days to recommence washing with hydraulic-the

HENRY H. HARTLEY, Attorney for Estate Sacramento City, Nov. 4th, 1858. n4

Administrator.

n4-law4wTh

A Washington dispatch states that it is the desire of the Administration that Gen. Denver shall recall his resignation of the Governorship of Kansas, and of this fact he has been advised. It is stated that he declines to do this. Gen. Comonfort, ex-President of Mexico,

was present at the late encampment of the First Division of the Massachusetts Militia. He came on the ground in a barouche drawn other dignitaries present. Dr. Charles W. Hitchcock has been ap-

pointed Inspector of Drugs and Medicines at San Francisco.

Commodore Tatnall, in his official dispatches to the Secretary of the Navy, dated July 5th, after saying that the entire East India squadron would soon be shown to the Japanese, remarks that no better opportunity could be selected for the temporary absence from the coast of China, as the recent treaties and termination of hostilities, together with the swarms of English and French ships-of-war in the rivers, must place all the foreign interests of a lawful kind in perfect safety for the present. He would return with the squadron to the coast of China about the last of October.

THEATRICAL .- George Vandenhoff' is shortly to reappear on the boards of the Theater Royal, Liverpool, the establishment at which he made his *debut* fifty years ago.

Julia Dean Hayne has terminated a ful engagement at the Boston Theater. Mrs. C. Howard and Watkins have closed their engagement at the Buffalo Theater, and

proceed to Dubuque, Iowa, where they play two weeks. The Florences were at Washington, D. C.

Mr. and Mrs. Chanfrau were at the Boston National. C. J. Boniface has joined that W. M. Fleming commences his engagement

at the Savannah Theater early in November. Sallie St. Clair was at Wood's Theater Cincin

ati, and Miss Avonia Jones had succeeded the Kellers at the National.

Mrs. C. N. Sinclair and Mr. Sedley were to embark for the United States on the 2d of October.

tober. Mrs. Kimberley, who is at present at Mt. Carmel, Ct., will devote the coming Winter to the delivery of the following poems: Two Millions, The Courtship of Miles Standish, Aurora Leigh, and Hiawatha. J. W. Wallack, Jr., opens at the Boston

Museum Oct. 25th. G. W. Stoddart and Miss Anna Taylor are

engaged at the St. Louis Theater for the Winter

The Martinetti troupe were at Toronto, Canada West.

Henry Wallack will retire from the theatrical profession at the end of the present

THE BARRATRY CASE .- The case of Captain Frederick Billings, charged with barratry, by running off with the brig Kate Foster from Valparaiso, came up for preliminary examina-tion before the United States Commissioner, Cutler McAllister, this afternoon, at half-past one o'clock. The United States District At-torney, P. Della Torre, appeared for the Gov-ernment, and J. B. Manchester for the de-fendant. The prisoner was present; his wife, with an infant child, and a number of spectators. The examination proceeded by calling J. P. Haven as an expert, to show that Captain Billings' signature to bills of lading of the cargo of the Kate Foster was the same as the name with which he signed certain papers given to Daniel Gibb, of this city, virtually eknowledging the running off with the vessel. The next testimony was that of the Captain of the Lord Raglan, on which Billings came to this city, giving the circumstances under which he left Victoria, under an assumed name

and the second second

to work it out. The pay heretofore has been 10 per day to the hand. Cubbert, Templar & Co., of Diamond creek. \$10 per day to the ha are now engaged in preparing their claims for by four grays. He was received with much honor, and was presented to the Governor and returns that has ever been realized in this region. They have prospected as high as \$47

piece of mining ground, requiring many years

to the pan of gravel. SISKIYOU .- The Chronicle, of November 4th, records the following :

At Greenhorn, "Hunt's claim," owned by Dr Whitten and others, is averaging \$8 per day to the hand. On Saturday they realized \$72, the result of three men's labor. At McAdams creek, we learn, the miners are doing well; among others is reported the Hard Scrabble claim, which yields from twenty to thirty ounces per day. From Ætna we hear of one or two claims

that are averaging nearly an ounce per day to the hand.

The quartz vein in Scott valley, near the cañon, is reported to be one of the richest in the State. Some little attention is now being

devoted to quartz mining. Claims are averaging good pay in the im-mediate corporation of Yreka. The diggings are deep, and are worked by drifting. An improved method for this portion of the country is just introduced in the use of a steam engine on the claim owned by Short, Johnson, Day & Co. The gravel is sixty feet from the surface, and is raised very rapidly by the engine. Its proprietors inform us that the water raised from the claim by this engine of five-horse

power is sufficient for the use of the claim, and nearly saves the expense of running the engine. WALKER RIVER MINES .--- A correspondent of the San Andreas Independent, writing from Badger Datt Bagley J H Baker G W

Walker's, says : A pack train passed through this place lately, from Walker river, they having been over with supplies for the miners, from Mariposa, but on account of the snow, were unable to return by the training the superscript of the that route. They report that there are seventy men at work upon the liver, and that the aver-Beadle Wm age wages are \$2 per day to the hand, and that most of them have an average of \$1,000 in dust, the result of six months' work, over and above all expenses. They have pack animals with them to enable them, in case of getting Berange S out of provisions and supplies, to procure then from Carson Valley. They speak of the Big Tree route as being in excellent condition, and that there is still a drove of 300 cattle in the mountains feeding.

THE INDIANS NORTH.—The Humboldt Times, of October 30th, says: Capt. Messick's company surprised a camp of hostile Indians on the afternoon of the 26th, in the vicinity of Pardee's ranch, near the new Dissist trail. The Indians of one at took to the the bush and made a running fight, observing the Daner Schordla Denison D same tactics as when Miller and Stephens man Trinity trail. The Indians at once took to the same tactics as when Miller and Stephens were bay Joel Davis Andrew was shot in the shoulder, but is not danger ously hurt. Four warriors were killed; also, two children accidentally. Two squaws and two Denkers Chas Delamater G children were made prisoners. The Indians had previously burned Pardee's ranch. They had previously burned Pardee's ranch. Life also dug up the potatoes, threshed out the oats, killed the hogs and poultry, and carried Eastle Mr Eastle Mr Eastley Chas A Edwards J P off every thing of value, The Land Office has been removed from Humboldt Point, an imaginary town, to Bucks-Fackler John

SCHOOL CENSUS OF MURPHY'S .- Whole number of children under eighteen years of age is he feit victoria, under an assumed name Next the book-keeper of Hillman's Temperance House was examined, to show how Mrs. Bil-lings, and afterwards Captain Billings, stop-ped at that house, under the assumed name of Burton,—San Francisco Bulletin, Nov, 6th,

port.

HOME INDUSTRY! RAT

THE SUBSCRIBER desires to announce to the public that he has now on hand ane ready for sale, of HIS OWN MANUFACTURE, one of the most complete assort-ments of

AGRICULTURAL IMPLEMENTS in this State, and all to be offered on the most liber terms. The assortment embraces everything wants for Fall and Winter use.

for Fall and Winter use. The Implements offered are such, in quality and chain acter, as have been examined by Committees at the several Fairs of the State, and to which have bee awarded, at the State Fair at Marysville, the Mechanic Fair of San Francisco, and the Santa Clara County Fai four Gold Medals, five Silver Medals, and twenty-fiv Diplomas. Among the prominent implements offered i

SMITH'S PATENT GANG-PLOW,

STRIFT'S PARTSN'T GANGE LOW, which was tried at the State Fair in Marysville, and the County Fair at San Jose, to the entire satisfaction of every observer. With this implement one man and four horses can do the work of three men and six horse with the single plow, and in a much better manner. THE SKELETON CLODCRUSHER

**FIELD ROLLER.** This is an implement long wanted by the farmer of this country, to whom it will be of untold value. It is composed of 3-inch sections, which operate inde-pendently of each other, and will thoroughly pulverize, breaking every lump of earth, leveling the land, and leaving a sprinkling of loose earth on the surface to protect the germinating grain in its early stages, and scure and protect it from drought, greatly increasing the yield, besides preparing the land for the better op-eration of the reaper. Extra Sized Deep Tiller Plow; Second and Third Sized Deep Tiller Plow; Side Hill Plows, important for hilly farms; the Shovel Plows; Weeding and Hilling Plows. FIELD ROLLER.

THE SUBSOIL PLOW.

THE SUBSOIL PLOW. This all-important Plow deserves the special atten-tion of every cultivator in our State, and we invite them to call and examine those made by us. We have various styles of Plows fitted to every use. In fact, we manufacture to order any style of plow needed by the California grain grower, or the cultivator of the soil in every branch of cultivation. We also offer to our patrons the following Imported Plows: THE CELEBRATED THE CELEBRATED CINCINNATI EAGLE STEEL PLOW We have them both Right Hand and Left Hand These plows are most favorably known by all who have known and used them, as they combine strength and durability, and are of easy draught. THE GALENA, BOSTON AND NEW YORK PLOW, We also offer at low rates. We also offer at low rates. -PLOW MATERIALS --Such as Plow Wood, of the best timber, thoroughly seasoned; Plow Wheels; Plow Coulters (rolling, stand-ing or hanging); the Plow Clevis, Hooks, Chains, etc. Harrows, square, double and extra size; Broadcast Sowers; Horse Cultivators; Horse Hoes; Fanning Mills; Grain Drills; Cheese Presses; Butter-working Churns; Wine and Cider Presses; with every other im-plement of utility. Cultivator Teeth, Harrow Teeth, Plow Castings, Ex-tras, etc. tras, etc. The above goods are all offered for sale, and the

The above goods are all offered for sale, and they will be sold at such prices as to defy competition, and at the same time give satisfaction to his potrons, so that they shall continue to give him their custom, and thus SUPPORT HOME INDUSTRY. The articles now offered as imported, are such as are not yet manufac-tured HERE, but the subscriber is determined to engage in their manufacture, or offer a better at the earliest moment, and thus his establishment shall offer ex-clusively HOME MANUFACTURES.
