

RED BLUFF INDEPENDENT.

RED BLUFF, WEDNESDAY, JULY 3, 1867.

LOCAL NEWS.

Regular Meetings.

RED BLUFF BOARD.—Business meeting on the first Saturday in each month; Drill, first Wednesday before the full moon.

ELECTION PRECINCTS.—The following order was made by the Board of Supervisors, at their adjourned meeting, June 29th, 1867:

Ordered, that all that portion of Cottonwood Township lying West of a line running due North and South from the forks of Dry creek and the South fork of Cottonwood (near B. W. Stewart's) be set off from Cottonwood to Red Bluff Township; and that the Southern boundary line of said Red Bluff Township be established as follows: Commencing at the S. E. corner of Ide's Grant, running thence West along the South line of said Grant to its S. W. corner; thence due South to the township line dividing Townships 25 & 26. N. R. 4. W. thence W. along said line to the Western boundary of Tehama County.

Ordered that a new election district be established in Red Bluff Township, to be known as "Sunberry's District," consisting of all that portion of said Township lying West of a line running due North and South from the forks of Dry creek and the South fork of Cottonwood, and that said district constitute a precinct to be known as "Sunberry's precinct."

THE SENTIMENT OF SHASTA.—Not long since, a weak-kneed Union man of this place, one who is "stuffed" on dead issues like the "Union and Bee," asked Sheriff Hopping, the big-hearted Hercules of Shasta, "what the Union men of Shasta were going to do with this dreary-afraid condition of affairs?" "What are we going to do? We are going to elect the whole State ticket, from the top of George Gorham's head to the soles of Charley Clayton's boots!" We commend the manly course of our neighbors to the sick kittens who are likely to sit still and whine over General Bidwell, "and him crucified," till the Copperheads run away with the election.

INDIANS SUOR.—On Thursday of last week, a party of Indian hunters, consisting of James Glascock, "old man Campbell" and another whose name we did not learn, came upon a party of ten Indians encamped on Ink's creek, above the Yokum place and killed seven of them, wounding two more. Two of these were runaways from the rancheria at Chico. A robe of rich furs, lined with quilted silk, was found among their plunder. We hope that a war of extermination will be waged upon the dirty, saddle-colored dogs, till the lives and property of our settlers are no longer endangered by their dangerous presence.

OURTAGE.—On the first page of to-day's paper will be found the speeches of Hon. J. G. McCullough and M. D. Boruck, before the State Convention. The first is a soul-inspiring panegyric on the mission of the Union safety. The last is a foretelling panacea for the political malady known as "sorehead." To our readers we say ponder them well, and to quote the words of Widow Bedott, "they will dew yew a powder of good."

TO SUBSCRIBERS.—The present issue being the commencement of a new volume, we desire to call the attention of some of our delinquent subscribers to the fact that unless the amount of their subscription that was due for Volume Seven, which expired last week, is paid before July 8th their names will be struck off the list. It is easier to pay four dollars than it is to pay eight, and we prefer doing a safe business.

SAD ACCIDENT.—From a letter received by Lieut. J. C. Coley, of this place, we learn that while on the way from Fort Crook to Camp Bidwell, Mrs. R. H. Chapin, the wife of the commanding officer, was thrown from her horse and sustained a fracture of three ribs. The many friends of the artless and amiable lady will be pained to hear of this sad occurrence.

DISTRICT COURT.—The jury in the case of the People vs. John B. Roden, after a deliberation of one hundred hours, and failing to agree were discharged Monday at 4 p. m. Yesterday the District Attorney entered a nolle prosequi in the action and the defendant was thereupon discharged and his bail exonerated.

CONGRESSIONAL DELEGATE.—Alvan Flanders, Union candidate for Delegate to Congress from Washington Territory is elected by about 100 majority. He was formerly one of the proprietors of the San Francisco Times, which was the Republican party organ of 1860. He will do.

SCHOOLS.—We have received from George F. Morris, Principal, a report of the Red Bluff Public School for the term ending June 14th, 1867: whole number of days attendance, 23919; average number belonging, 156; average daily attendance, 147; percentage of attendance, 93.

SCHOENFELD.—The boys of Red Bluff will find a splendid assortment of fire-works at the old stand of Schoenfeld, opposite the Luna House. He has everything from a penny pinwheel to a golden rain rocket.

PACIFIC RAILROAD.—The distance from New York to Sacramento, by railroad route, is 3,129 miles, of which 1,837 have been completed and are now in successful operation, leaving but 1,292 miles yet to be built.

PANORAMA.—We learn that the Stereopticon, a panorama of Europe, will be exhibited here on or about the tenth of the present month. J. H. Warwick, the well-known comedian, accompanies the show as lecturer.

CONFISH.—Tipton & Burit have just received a lot of Ochotek sea-fish in brine which need a trial only, to prove their excellence. To those who don't eat meat on Friday, they will be a real luxury.

THE FOUNTAIN.—To-morrow will be a quiet day from all appearances. No procession, no salute, no flag-raising, no oration, no nothing. Truly, "the times are sadly out of joint."

FAVOR.—Thanks to Robert E. Blossom for a bushel basket of harvest apples, apricots and plums. Bob, here's hoping you will have more than a bushel majority of the votes for Sheriff.

APPOINTMENT.—The Board of Supervisors have appointed George F. Morris, Superintendent of Common Schools, vice W. T. Cressler, resigned.

ONE DAY.—Thirty and bested individuals are informed that Mrs. Delrechio will have ice-cream at her house all day to-morrow.

CONFLAGRATION.—The town of West Point in Calaveras county was destroyed by fire on the 20th ult. Loss \$100,000.

MARCUS D. BORUCK.—We learn with pleasure that this gentleman will be a candidate for reelection to the Clerkship of the House of Assembly of the next Legislature, and to which position he will doubtless be elected by acclamation. If there ever was a man who deserved well of his party, it is M. D. Boruck, and laying aside the work and labor done by him for the organization, not only through the columns of the Spirit of the Times of which widely read and influential journal he is editor, but in many other respects; his magnanimous action in the late State Convention in yielding up a prominent place on the State ticket voluntarily, the Supreme Clerkship, in order to strengthen the party, should entitle him to, and he will receive the united support of the Union men of the Assembly. Boruck is in a prominent position before the people of the State, and the time will come when he will be honored by them. He was the Clerk of the last Assembly, and in the fulfillment of his entire official duties he maintained a high reputation for promptness, ability and integrity. He was the best Clerk, since the day of Anderson. Marcus has our best wishes for his success.

MAXIMILIAN.—A dispatch dated New York, June 28th, says that the Emperor of Austria having been informed by telegraph of the capture of his brother, immediately instructed his Minister here to renew the request before made to this Government, that other measures might be taken in behalf of Maximilian. An interview occurred on the 29th of last month between Seward and Count Weydenbruck, in the course of which the Secretary expressed a willingness to comply with his wishes. The Austrian Court resolved at once to intrust Campbell with the mission. On the following day, the Russian, English and French Ministers received successively, from their Courts telegraphic instructions to apply to the Secretary of State requesting the United States Government to exert its good offices once more to save the life of Maximilian. These gentlemen will execute the mission confided to them with great zeal and ability. They received from Seward assurance that all should be done that is possible to secure the object desired.

Since the above was in type, we learn that Maximilian was publicly executed at the City of Mexico on the 19th day of June.

CHEAP TRAVELING.—The Opposition Steamship Co. have recently bought the fine new steamship Oregonian, 3,000 tons burthen, and will place her on the route to Nicaragua. She is a magnificent steamer and will carry homeward bound or Westward bound passengers, as quickly and as safely as any steamship afloat. We shall soon, expect to see this company making regular semi-monthly trips, as they have added not only the Oregonian, but will soon have on this side the new steamship Nevada.

CANNON MANUFACTURED.—An iron cannon was manufactured at one of our foundries, on Wednesday, says the Grass Valley National for the citizens of Lake City. It was made out of an old eight inch shaft, the bore being an inch and a half in diameter and fifteen inches in length. After being bored it was put into a lathe and turned, and then by some means or other beautifully polished.

DRUGS.—Our late war our shipping was nearly destroyed.—Examiner.

Yes, what shipping you had met with an accident off the French coast, one morning, by coming in contact with the U. S. ship Kearyear.—Oakland News.

Yes, and loud above the roar of angry waters that swept over the hull of the damned and doomed pirate ship, rose the voice of a representative man of the chivalry, "save me, I'm the Captain."

The sooner that man's (John Conness) name ceases to be the property of California the better for the State.—(S. C.) Sentinel.

Kernel, if you think so, why don't you go and assassinate the Senator, as your fellow-Democrat, Booth, did President Lincoln?

DESPERATE SUICIDE.—A man named Peter Hersewell committed suicide in New York, May 31st. He lay down on the sidewalk and stabbed himself with a knife. It cut the heart in two places, but he lived long enough to inform an officer where he resided.

BLOOD.—For all diseases arising from an impure state of the blood, use Hall's Sarsaparilla, Yellow Dock and Iodide of Potass. There is nothing equal to it.

A COMMENT.—We have, for the first time, seen fit to republish a notice by a cotemporary of this paper, because it emanates from the Shasta Courier, the editor of which is a man who wastes no ink in sycophantic flattery, but speaks his mind at all times, freely and without reserve.

The Red Bluff Independent has just closed its seventh volume, and enters upon another year with excellent prospects. The Independent is a sound Union journal. Its editor was a delegate to the State Convention, and although a strong Bidwell man, we are pleased to note that he possesses the good sense and decency to accept the situation, and has not uttered a word about "corruption," "foul play," &c., because of the failure of his favorite to secure a nomination. We commend his explanation in this respect to others. His head is eminently level on questions of party discipline, and the duty of sustaining the nominees of the Convention. Let the Union men of Tehama county give the Independent a hearty support, and encourage its publisher in his gallant fight against the Copperheads of that locality.

HARVESTING IN BUTTS COUNTY.—The Oroville Record, of June 29th has the annexed:

Our farmers have been busy during the past week in harvesting their wheat, and labor is in good demand. There is no excuse for idleness now, and no reason why Fall and Winter should find the laborer penniless. Every ranchero wants help, and the streets of every town do, and by right ought to contain no unemployed person. The period for securing the golden grain has arrived, and now is the time to labor and gather in prosperity for the balance of the season. So far as we have learned the crop is a fair one in this county, and from other wheat growing portions of the State it is mentioned as being quite up to, if not above the average of last year's crop. With a good crop and the world for a market the farmers of California ought to be content to labor during seed time and harvest, and reap their reward.

THE WAY TO TALK IT.—In a recent speech at Sacramento, Senator Stewart, of Nevada, brought down the house by the pithy assertion that "the Union party was determined that emigrants should be permitted to go down, and hoe corn on every acre of the Southern lands, without the aid of bayonets to protect them."

and General Stage Office.

MAIN STREET, RED BLUFF.

THE undersigned would respectfully announce to his

traveling public that he will keep this

old established first-class brick Hotel, and will be

happy to furnish them with the best accommodations at

prices to suit the times. This Hotel was built and fitted

up with especial reference to the comfort and conven-

ience of boarders. The rooms are large, well lighted,

and ventilated. Being entirely of brick and not adjacent

to any wooden structures, is perfectly safe from fire.

Families can obtain elegant suites of rooms, when they

desire them. The parlors are pleasant and command a

fine view of the magnificent scenery of the surrounding

country. Stages arrive and depart daily, for the North and South

and travelers will find this the best stopping place north

of Marysville. The tables are always supplied with the best

that the market affords.

WILLIAM MCCONNORS,

Red Bluff, January 1, 1867.

THE PULPIT SPEARS.—Rev. Horatio Stebbins of San Francisco, one of the most learned and eloquent divines in the State, in the course of a letter to the recent Union mass meeting, thus delivers a home thrust at the so-called independent press.

There is one aspect of the present canvass that attracts my attention. It is the disposition in some quarters to howl down men, to ride over them and trample them under foot. There is a passion to vilify, abuse and calumniate. This excites my indignation, and content, and if nothing else were at stake would decide my position. I resist and resent it, and though I stand utterly alone I would resist and resent it with my last breath. It is the bane of our politics that as soon as a man is put up for office he is maligned abused, traduced. If any man knows where he affirms, and has a charge to bring, that the State may suffer no damage, let him say what, when, where, how, or let him hold his peace.
