

COMMON COUNCIL.—A meeting of the Common Council was held last evening, Mayor Gray presiding, and the following Aldermen present: Messrs. Belding, Mills, Yates, Thresher, Howard, Jones.

Petition of Thomas Cunningham, Foreman of Eureka Engine Company No. 2, on behalf of said company, for a new horse carriage, the carriage now in use not being of sufficient size or strength. Referred to Fire and Water Committee.

Petition of T. R. Anthony, E. S. Holden and others, residents of the Second Ward, for the appointment of William Huntley as special police officer.

Ald. Howard moved the reconsideration of a former vote whereby the report of the Health Committee upon the communication of G. E. Taber, Chief of Police; was adopted, and the motion was carried.

Ald. Thresher then moved that said report be so amended as to limit the number of special police officers to four, which motion prevailed, and the report was adopted as amended.

On motion, the prayer of the petitioners for the appointment of William Huntley, as special police officer, was granted.

Street Committee reported the completion of repairs upon the old cemetery fence.

The following bills were referred: G. E. Taber, \$24, to Health Committee; Jones & Hewlett, \$23 80, to Finance Committee.

Remonstrance of A. Lewis, A. G. Ainsworth, F. J. Higgins and others, against the closing of certain streets in the northern limits of the city, and in the vicinity of the Insane Asylum, and protesting against the extension of any buildings or grounds to be occupied by insane patients over any lots, blocks or streets not included in the original grounds set apart for the use of the Asylum. The petitioners set forth that their property would be much impaired in value by a nearer proximity of any buildings or grounds appropriated to the uses of said Asylum. Received.

Fire and Water Committee were granted further time concerning an Engineer for Weber steam fire engine. Same Committee made a statement, (not designed as a report,) concerning the proposed donation of a lot by Capt. C. M. Weber upon which to erect a new house for their use.

The Mayor called attention to the increasing necessity of providing some means of obtaining funds for the erection of a new building for school purposes. Ald. Belding urged the raising of funds to be applied to the redemption of an outstanding school bond for \$3,500, bearing interest at 1 1/2 per cent. per month. No action was taken.

On motion, the matter concerning the existence of a contract for irrigating the trees and shrubbery on Court House square, was referred to the Street Committee, with instructions to report at next meeting.

On motion, Council adjourned until Monday, July 6th, at 8 o'clock, p. m.

DANGEROUS SPORT.—At a late hour on Sunday evening, the residents of the lower part of the city were startled from their slumbers by what was at first supposed to be the report of fire-arms. It proved, however, that some wags who were either unconscious or regardless of the danger to which they were rendering property liable, had fastened to the tails of a number of the most worthless representatives of the canine race that could be found prowling around at that hour of the night, some roman candles of more than average calibre, and at a given signal they applied the match and "let loose the dogs of war." It is unnecessary to say that the dogs devoted their best efforts to speed, the artillery in the rear throwing out a shower of sparks and occasionally sending forth various colored balls of light with a report which was calculated for the moment to add momentum in a forward direction. The night was comparatively dark, and the impromptu fire-works lighted up the streets through which they passed, scattering the sparks to the right and left, and presenting to the eyes of those who witnessed the exhibition, the appearance of a serpentine trail of fire. It was, doubtless, pronounced by those originating it, novel and interesting; but to the owners of stables and exposed property of an inflammable nature, it was no source of pleasure, while it was liable to end in a serious conflagration. Such practices should be discontinued and the guilty parties engaged in them be brought to account if there is any law to reach them.

CASE FOR THE CHARITABLE.—Some time last week, Mrs. Mary Gleason, a woman habitually intemperate, and a constant annoyance to those who have the misfortune to live in the neighborhood in which she resides, was sent to jail from the Police Court for a term of twenty-two and a half days, leaving to the charity of the public, a family of seven children, the eldest of whom is a boy nine years of age. The children are said to be capable and intelligent, requiring only a mother's care and attention to make them fit companions for those who have had the fortune to be born under luckier stars. It is a stigma upon humanity that these children should be thus allowed to grow up to follow the path which seems to be laid out for them, and the subject is one which appeals to the public authorities. If our country is as yet unprepared with a home for children of this class, it is none the less devolved upon the Board of Supervisors to make some provision for the poor and the destitute, as well as for the sick and helpless. They have the power under the law, and we know of no instance in which it might be exercised with greater credit, than in extending relief and protection to the destitute children to whom we have alluded.

POLICE COURT.—Monday morning usually witnesses, in all well-regulated cities, a large if not respectable attendance upon the Police Courts. To this rule, however, we have to enter Stockton as an exception, and record the fact that but two individuals attended the morning levee given by Judge Brush yesterday, one of whom was a new-comer from the copper regions. If he failed to obtain satisfaction "indications" at Copperopolis, he struck something here which gave no chance of a doubt to overcome the individual alluded to, that he was compelled to take repose where he could find it most convenient, and accordingly resorted to the sidewalk. The Judge excused him from further attendance at Court, upon his promise that he would immediately leave for the mountains. George Pearson was up as a D. D., and paid a fine of \$5 and costs.

SPLENDID METEOR.—Last night at precisely 9 o'clock, one of the most splendid meteors we have ever beheld passed, apparently over the Eastern part of this city, parting in twain and expiring in a due northerly direction, about 30° above the horizon. Its course was from the southeast, and its brilliancy was such as to be seen in the state of a moon almost advanced to its first quarter, to illuminate the sky like a sheet of lightning.

DISTURBING A RELIGIOUS ASSEMBLY.—On Sunday evening the congregation at the Cumberland Presbyterian Church were seriously disturbed by two men who insisted upon approaching the open windows, and by their efforts at imitating the preacher, so annoyed those who formed the audience that the services were for the time suspended. The men were ordered away, but declined going until they found there was a prospect of falling into the hands of the police, when they exercised a wise discretion and left. They were, however, subsequently arrested upon the complaint of a member of the Church and lodged in jail, appearing yesterday before Justice Brush to answer. They gave their names as John Lucey and John Hurley, acknowledged the commission of the offense, and implored the court to impose a penalty as light as the law would permit, it being their first (and probably last) appearance in court under a charge carrying with it a disgrace which, in their sober moments, they realized to their shame. The Judge entered a fine of \$15 and costs, each, which was paid and the prisoners discharged.

PROBATE COURT.—This Court met yesterday and having transacted the business of which the following is a summary, adjourned until Monday, 29th inst: In the matter of the Estate of Patrick Tegart, deceased, the final account was allowed and the executors discharged from further duty. Estate of W. G. Hughes, deceased—hearing of the final account continued. Estate of Robert Fisher, deceased—annual account and motion that the executors be required to give bonds, were taken under advisement. Estate of E. H. Comstock, deceased—annual account allowed. Estate of B. F. Allen, deceased—motion for decree directing the administrator of said estate in the State of California to execute to Raynor & Patterson, petitioners, a conveyance in fee simple of premises mentioned, granted. Estate of Elvira Lewis, deceased—decree and due notice of publication granted.

NEW ENGINE HOUSE.—It was stated by Alderman Yates to the Council last evening, that a proposition had been made by Capt. C. M. Weber to donate the city a lot, of suitable size for a house for Weber steam fire engine, the lot to be located between the Corinthian building and Weber's office, provided the city would erect thereon a brick building that will be an ornament to the city; and provided further, that the city will remove the building now occupied by Weber Engine Company, and execute a conveyance of the lot upon which it stands to Chas. M. Weber. The proposition is a generous one, and will undoubtedly be accepted by the Council.

INCORPORATED.—The "Imperatrice Mining Company" filed their certificate of incorporation in the office of the County Clerk, yesterday. Their claim embraces thirty locations, situated in Salt Spring Valley, and is bounded as follows: "Beginning at a stake at the west corner of Black's ranch, running thence in a north-westerly direction, 4,500 feet along Bear Gulch, on its westerly side, to an oak tree marked with a notice of the location." The capital stock of the company is \$45,000 divided into 4,500 shares at \$10 each. The first Trustees are Messrs. J. Manandias, Felix Depas, Louis Bessier.

SEWER.—A sewer, for the drainage of waste water from a pump in front of the Union Saloon on the Levee, has been constructed at the expense of the proprietor of the building, and by this means a nuisance arising from a stagnant pool in front of the adjoining property, has been effectually abated. A sewer along the entire block, however, is an improvement much needed.

ANOTHER STAR.—It will be remembered that West Virginia has been recently admitted into the Union, and is necessary therefore that she be represented by a star in the space denominated the "Union" in our national flag. All American flags bearing a less number of stars than thirty-five, are therefore false colors and represent but a portion of the Union.

ELECTION OF OFFICERS.—An annual meeting of the Stockton Light Dragoons, for the election of commissioned officers, will be held at their armory at the usual hour, this evening.

SCARCITY OF LABORERS.—We are informed that it is with considerable difficulty that farm-hands can be obtained for the harvesting of the present grain crop. Good wages are offered for competent hands during the harvest season.

SHIPMENTS.—Per steamer Cornelia, for San Francisco, yesterday, 808 sack copper ore, 107 hides, 7 blocks marble, 30 sacks vegetables; per steamer Ceres, 10 tons wheat, 10 tons flour, 30 bales wool, 2 bales hops.

NEWSPAPER FAVORS.—We are indebted to J. W. Sullivan for newspaper and magazine favors, as follows: The Atlantic Monthly, for June, Harper's Pictorial History of the Great Rebellion, Once a Week, the London News, London Times, Vanity Fair, Punch, the London Dispatch, the Index, the N. Y. Albion, N. Y. Times, Herald, Tribune, the Sunday Mercury, the Dublin Irishman, Harper's Weekly, Frank Leslie's Pictorial, the Louisville Journal, Mo. Republican and Courier; all of the latest Eastern dates, and received by the steamer Orizaba.

SEESH IN SIERRA.—The Sierra Democrat of June 20th says: The Seesh Convention on the 18th failed to swallow up most of the Union Democratic element of the county. War Democrats couldn't stand the press, and will probably go with the Unionists. They have now got their eyes fairly open and see that the Butte platform nation-savers have not relinquished one jot or tittle of their seesh faith, so that the giving up of their organization, forgetting all past differences, etc., is mere sham, and gotten up for the sole purpose of gulling Union Democrats into a seesh trap.

COL. J. C. MCKIBBIN, of Rosecrans's staff, was one of the escort guard who accompanied Vallandigham on his recent trip to Dixie.

RELATIVE TEMPERATURE.—In Stockton on the 18th instant the Mercury stood at 80° in the shade; in Nevada at 95°; in Marysville at 100°; in Sacramento at 94°.

ST. LOUIS REVOLUTIONIZED.—The Missouri Democrat says the official majority in that city for Drake, Radical Emancipation candidate for delegate to the State Convention, is 3,147 votes.

POST OFFICE.—Efforts are being made to have a Post Office established at Blue Mountain City. The constantly increasing population demands one for their convenience.

ANOTHER INDIAN ATTACK.—The Visalia Delta of the 18th instant, says: While five teamsters with freight from Los Angeles, were passing through the Kelsey cañon on Thursday last, they were attacked by a band of Indians, about forty in number, who were firing with rifles, killed one named Martin Hart, who was hit fairly in the head, while Oliver Burke was shot in the arm. Burke fired twice at the Indians, killing one. Dawson then took him in his arms and was carrying him off when he was again shot in the side and requested Dawson to lay him down as he was dying, when he again fired at the Indians and died in preparing the fourth fire. Grit to the last. Dawson, Hertz and Twitty escaped. The Indians, after overhauling everything, dressing themselves finely in store clothes, and securing two cases of pistols, left. They were mostly Teahatchapas.

SHOWING THE CLOVEN FOOT.—The Mariposa Gazette of the 20th, says: at a secess [copperhead?] meeting held at Concert Hall last Saturday night, one of the speakers after a long tirade of abuse of New England used the following: Massachusetts said she could whip South Carolina! She sent ironclads down to take Charleston! Did she take it? No! she had to haul off and quit.

The shout which according to the Gazette, followed this, was an exact expression of the wishes and hopes of the Copperhead party.

HIS WIFE.—The rebel General Lloyd Tilgham, killed in the battle of Edward's Ferry near Vicksburg, married Miss Augusta Boyd of Portland, Maine, daughter of Gen. James C. Boyd.

SPECIAL NOTICES.

Go to Henderson if you are in want of ARTIFICIAL TEETH. je13

Frese's Hamburg Tea and Hamburg PLASTER.—Frese's Hamburg Tea is a curative and preventive for Coughs, Severe Colds, Fever and Ague, Dyspepsia, Rheumatism, and all complaints arising from impurities of the Blood. It cures Headache, Bowel, Kidney and Liver Complaints, cleansing and purifying the stomach and blood. It is a preventive against contagion, and its timely use will avert almost any sickness. It restores the appetite and is most pleasant and palatable to take. Being purely vegetable it can, with entire safety, be given to children. One trial will convince any one of its excellent quality, and once used, no family will do without it.

To guard against counterfeiters, observe the seal of Frese & Co., Hamburg, on every genuine package Frese's Hamburg Tea is the only genuine article Copyright secured.

The following letter, which emphatically speaks for itself, was written by the Dean of the Faculty of the Philadelphia College of Medicine to the editors of the Pacific Medical and Surgical Journal, San Francisco, for publication: PHILADELPHIA, January 17, 1862.

To the Editors of the Pacific Medical Journal.—Gentlemen: My attention has been called to an article in the December number of your journal, in regard to the ad eundem degree granted by the Philadelphia College of Medicine, to Dr. L. J. Czapka. When the application for the degree was made to the Faculty, it was accompanied by affidavits and testimonials to the effect that Dr. Czapka was a regular graduate M. D. of the University of Feeth, had served as a surgeon in the Hungarian army, and was a regular practitioner of medicine. On the strength of these the degree was granted. The ad eundem degree, as its name implies, is conferred on graduates only, and gives no new privileges. Had there been the slightest suspicion of irregularity, the application would have been refused. By inserting this in your journal you will do an act of justice to the College, and confer a favor on

Yours, very respectfully, H. RAND, Dean of the Faculty of the Philadelphia College of Medicine.

DR. L. J. CZAPKA'S Private Medical and Surgical Institute on Sacramento street, near Montgomery, opposite the Pacific Mail Steamship Company's office, San Francisco. The Doctor offers free consultations and asks no remuneration unless he effects a cure. Office hours from 9 A. M. to 9 P. M. ap23-3m

WOLFE'S AROMATIC

SCHIEDAM SCHNAPPS!

A UNIVERSAL CURATIVE IN CONSUMPTION, removing the Cough.

Recommended by the Medical Faculty as Cathartic in the removal of DYSPEPSIA in all its forms.

In DROPSY its established curative properties have long been without a rival, as attested by universal medical testimony.

The Diuretic and Solvent properties of the "Aromatic Schiedam Schnapps," render it decidedly efficacious in GRAVEL, and all other affections of the kidneys.

IN GOUT and RHEUMATISM, if taken in the form of warm punch, the patient lying warmly covered in bed, this pure alcoholic distillation will effect a speedy cure.

Taken as a hot punch in humoral and spasmodic ASTHMA, it affords immediate relief from the distressing symptoms.

By its peculiar and specific qualities, it arrests the progress of other alcoholic preparations and mixtures of the kind, and rapidly produces healthy secretions. It is taken with hot water and sugar.

Administered in CHOLERA, CHOLERA MORBUS, and COLIC, it removes spasm, restores the function of the liver, and rapidly produces healthy secretions. It is taken with hot water and sugar.

As a NERVINE, a TONIC, and a PURIFIER of the blood, a trial of fifteen years in all climates and under all circumstances, has stamped it with universal approval.

Peculiarly adapted to the complaints of delicate FEMALES, it stands pre-eminent among the established curatives of the day.

It is the only alcoholic preparation, in our country, that can be generally imbibed with pleasure and safety—never, even when taken to excess, producing headache or other unpleasant consequences.

Aromatic Schiedam Schnapps as a Beverage.

As a general beverage, a necessary corrector of water rendered impure by vegetable decomposition or other causes, as Lime, Stone, Sulphate of Copper, etc., the Aromatic Schiedam Schnapps is superior to every other alcoholic preparation. Its purity and exemption from all grossly intoxicating properties, combined with its mildly stimulating and invigorating elements, establish it as the only alcoholic beverage in our country that can be imbibed with pleasure and safety. The nervous torpor and debility which follow the administration of other alcoholic preparations and mixtures of the day, succeed by their intense and painful nervous reactions, as unknown, as the subsequent effects of the Schiedam Schnapps were, when taken over so freely, while as a Stomachic, a Tonic, an Appetizer, and a Nervine peculiarly adapted to the diseases of delicate females, it stands pre-eminent among the established curatives of the day.

A public trial of fifteen years duration, in every section of the world, of the Schiedam Aromatic Schnapps, its unqualified endorsement by the Medical Faculty, and a sale unequalled by any other alcoholic distillation, has insured for it the reputation of purity and salubrity claimed for it by the proprietor on its original introduction to the public. He will add that it is bottled at his distillery in Holland, thus avoiding the possibility of any adulteration.

Put up in Quart and Pint Bottles, handsomely wrapped in yellow paper; for sale by all Druggists, Apothecaries, and Grocers in the United States.

UDOLPHO WOLFE, 22 Beaver street, New York.
