PUBLIC SPEAKING.

JONATHAN LOGAN, Candidate for the State Senate from the 13th Senatorial District, will address the people at the following times and places:—

Kyles' Store, Wednesday, Aug. 31.
Red Bluff Thursday, Sept. 1.
Mayhows' Ranch, Friday, Sept. 2.
Tehama, Saturday, Sept. 3.

Mr. T. J. Butler, the Independent Candidate for the same office, is requested to meet Mr. Logan, on the stump, at the above appointments.

WHOSE FAULT IS IT.—Some of our subscribers, in different parts of the county, but particularly about Tehama, have recently made complaints that they do not receive the Beacon regularly. The fault does not lay with us. The Beacon, for the past eleven months, and during the administration of our predecessors has been mailed for Tehama regularly every Wednesday morning.

PIERCE, CHURCH & Co.—The Yreka Union speaks in terms of praise of this firm. You are right, Mac, when you say better men do not exist. Jesse Pierce is a whole-souled, and accomplished gentleman, and so is Comstock, what there is of him. Israel's motto is "fine goods are always done up in small packages." We are under obligations to them for purchasing our supplies in San Francisco for several months past.

FOR THE RESERVATION.—We learn that Breckenridge's party surprised a rancheria of thieving Indians on the head waters of Deer Creek, and killed all the bucks, and took the squaws and children to the Reservation. Or at least, they were seen on their way to that place on Sunday last.

IS EFFROY.—The Frenchmen in San Jose have burnt Emperor Napoleon in effigy. They think he is a disgrace to the name. Amen!

RICIN.—The Placerville Democrat says that Mr. Lardman struck a lead of decomposed quartz, on the 17th inst., on Crum's Gulch, near Georgetown, and took out four thousand dollars in a short time. It created great excitement when the fact became known.

COMMENCED.—Workmen are busily engaged in putting up another story on Mr. Doll's store-house. Had it not been for the disappointment in getting lumber, the work would now have been nearly finished.

PERSONAL.—The two Yreka papers are engaged in a warfare which has assumed a personal aspect. Fight about politics, gentlemen, but do not let your feelings get you into personal quarrels.

CONSTITUTIONAL CONVENTION.

Although, on our outside, will be found an editorial on this subject, the matter is of such vital interest to the people of the whole State, that we think too much importance cannot be attached to it. Therefore we again call the attention of our readers to the fact that they will be called upon, at the coming election, to vote for or against a Convention to revise our State Constitution. All who are familiar with the workings of the present Judiciary system, know the expenses are so great that the different counties can never expect to relieve themselves of the enormous debts that encumber them. The more we become involved, the greater our expenses are—script depreciates in value, and persons performing services for the county, where compensation is not provided by law, increase their demands in accordance with the depreciated value of our paper. To remedy the disadvantages under which we labor, the Judiciary should be greatly curtailed; the Grand Jury system should be totally abolished. It is an old fog notion, and as unjust as it is expensive. There is no duty performed by the Grand Jury that cannot be done by a Justice of the Peace, and a Board of Supervisors. The affairs of the county can be, and should be, looked after by the Board of Supervisors. They constitute the Legislature of the county; such, consequently, becomes their duty. An indictment, by a Grand Jury, after a commitment by a Justice of the Peace, is superfluous. A prisoner can be easily held to answer before a court of competent jurisdiction as before a Grand Jury. In many cases men maliciously charge others with crime, and present their case to the Grand Jury; an investigation follows; no evidence can be adduced in favor of the accused. If the complaining witness can, by his malicious promptings, make out his case, an indictment is found, and thus the stigma of felon is fastened upon the accused. When, if he had been allowed a hearing before a magistrate, and permitted to establish his answer, the malice of his enemy would have been thwarted, and his character would remain untarnished by suspicion. At least one-third of the annual expenses of each county arise out of its criminal courts; all of which might be easily dispensed with, and the ends of justice accomplished with a much less cost. More business would be thrown into the magistrate's court, and the consequence would be that better and more capable men would accept of the office. We have no fault to find with some of the magistrates of this county, believing, as we do, that they cannot be excelled in that capacity by any in the State; yet, as a general thing, qualified men will not accept of the office, for the reason that it is not sufficiently remunerative to induce them to neglect other, and, to them, more important business.

We have not the space to give this subject its merited consideration, but we hope that the citizens of this county will take the matter into their serious deliberation, when we have no doubt that they will all join with one accord in voting for the Convention. Next week, we shall speak of the subject again.

One matter we wish to call the attention of our brethren of the press to. That is, in printing tickets to be used at the election, do not fail to insert, "For a Convention."

BUTTE COUNTY.—Every day we receive new and encouraging intelligence of the Democracy in our sister County of Butte. She is about to throw off the yoke that has galled her neck, and rise up, and proclaim her freedom. Heretofore, or at least for two or three years, the Brods and Blacks have controlled the elections, but the 7th of September will tell another tale. Such an uprising of the true Democracy, in their might and power, has never been dreamed of, as will be seen on that day. Crosscut will receive a withering rebuke, one that will make his cheek burn, and teach him that the people of Butte are opposed to the diabolical shanders he belches forth, from week to week, in his Broderick Black Republican sheet.

ANOTHER OLD SETTLER GONE.—We are pained to have to chronicle the death of the old pioneer, Sam. Neal, which took place at his ranch, on Friday evening last. Probably no man in Upper California, was better known, or had more warm personal friends than the deceased. He was one of the first American settlers in the Sacramento Valley, having come to this country at a very early period, probably over twenty years ago. He was like all the rest of that noble band of men who came here at that time, generous, kind, hospitable, and open-hearted, almost to a fault. He died quite wealthy; but during his life his vast amount of property never caused him to be proud or haughty to those less fortunate than himself. Many will be the tears shed by his friends for his untimely loss.

JONATHAN LOGAN.—This gentleman, our candidate for the State Senate, has been in Shasta County for a number of days, and both of the Shasta papers speak in terms of praise of him, and his chances of carrying that county.

LARGE TOMATO.—G. W. Hoag, has sent to this office the largest tomato we have seen this season—it weighed 1 1/2 lb. There is no soil in California superior to that on Mr. Hoag's ranch.

McDonald of the Yreka Union, had better put back La hem's name on his ticket. See last Saturday's issue—Red Bluff Beacon.

Latham "dropped" out when going to be squeezed, but we missed him, directly, and stuck him in again. Guess he "dropped" on Broderick, at Nevada—Yreka Union.

He "dropped," on him so hard in Sacramento, "he squashed him and killed him again."

THE SHASTA COURIER ON THE HEAD OF NAVIGATION.

The above paper of last Saturday contains another "sore-headed" article on the above subject. Shasta is really to be pitied, but the Courier man deserves more of it than any one else. He had already picked up his ears to hear the shrill whistle of steamboats while sitting in his cozy sanctum writing items of the increasing prosperity of Shasta since it had become the "Head of Navigation." His mind had no doubt dwelt with pleasure in anticipation of penning an article, announcing to his numerous readers that P. C. & Co., S. B. & Co., G. L. P. & Co., and others, having found that Red Bluff was on the "downward road to ruin," had determined to remove their extensive establishments to Shasta. And in one short week all the bright anticipations of the editor—all his "castles in the air," were scattered to the wind, and the editor wakes up to find it all a dream.

But, presto, change, he sees a remedy! He grasps it. One thread that is not yet broken. It may bear his weight. Let's try it. Here it is: "Small steamers are abundant at San Francisco. Why cannot our merchants charter one of them, and furnish it with full freights to Red Bluff just as often as it can make the trip? They may thus get their freight to Red Bluff for fifteen or twenty dollars per ton, instead of twenty-five, the amount they are now paying the California S. N. Company. Why not do this? The freightage of our own merchants will keep a small boat employed steadily."

He says nothing about rearing to Shasta in this paragraph. If he chartered a hundred tons to bring goods to this place, to be transported from here in wagons, we have no objections. But they will hardly bite of their own nose, by such an operation as this. By the way, we would advise them to charter the Anna. She has made two successful trips, and is now advertised in the San Francisco papers, for sale, charter, or for freight for Latona.

The editor of the Courier closes by saying "that no one can be blind to the fact that Red Bluff has made it greatly to the interest of the Cal. S. N. Company not to run their boats above that place." Now this is something new. We venture the assertion, without fear of contradiction, that not one cent, either directly or indirectly, has been paid, or offered to be paid, by any citizen of Red Bluff, or any body interested in it, to induce the Company not to run their boats above this town. If the river can be successfully navigated above this point, so that it will pay those who undertake it, the people of Red Bluff had rather see it now, than hereafter. They do not wish to invest any more money if the navigation of the river is practical, and will pay.

TEHAMA COUNTY PROPERTY.

Mr. Editor:—I am informed, by one of the Deputy Clerks, that the assessment roll for the present year, as handed in to the Board of Supervisors on the first Monday of August, contains only about one and a quarter millions of dollars. How is this? What is the reason? The assessment in '56 amounted to about \$1,700,000; in '57 to \$1,800,000; and in '58 to over \$2,000,000. The two former years, growing crops were not assessed. This and last year they were.

I may be met with the assertion that the difference is in the lower end of the county being cut off, and the fire at Tehama. Now, I venture the assertion that the property cut off, and now attached to Butte, that last year belonged to this county, (take last year's assessment as proof) together with the loss by fire at Tehama, as shown by the amounts reduced by the Board of Supervisors, does not amount to \$200,000. There has almost been that increase in Red Bluff since last year. I am of the opinion that there is over two millions of dollars in property in this county, at the valuation, usually put upon it by Assessors. I am told the Assessor is out engaged in making a supplemental list, I shall, therefore, let the matter rest till there is a final settling up of the whole matter.

I am, &c.

TAX PAYER.
CALIFORNIA LIONESS.—The Courier says that a man named Nobles, living about fifteen miles from Shasta, on the Sacramento River, succeeded in killing a very large California lioness. The night previous he had killed and about half eaten a large sow. While being pursued, it "hook to the tree" several times, and once or twice was shot at by Mr. Nobles with bird-shot, under the impression that it was a fox or coyote. As soon as he became aware of its real character, however, he loaded his shot gun with a very heavy load of lead shot and buckshot, and firing, completely disabled the monster.

BATTLE WITH THE MOJAVES.—By the overland mail, of last Saturday, we have the news of a battle between Major Armstrong, with twenty-five men, and a large body of Mojave Indians, at a point about 45 miles south of Fort Mojave, on the 4th of August. The battle lasted for over three hours, and the Indians, in almost countless numbers, at one time had the little band entirely surrounded, and probably would have killed every man in a very short time, had not Lieut. Marshall, with other twenty-five men, just at the right moment, reinforced him. Twenty-three Indians were found dead on the ground, and many more were carried off the field dead and wounded, by those who retreated.

RANCH FOR SALE.—See the advertisement in another column, offering a ranch for sale. We are personally acquainted with the place, and can recommend it as one of the best bodies of land in Tehama County. It is thought almost the whole of it can be irrigated.

GRAND DEMOCRATIC RALLY.

See the notice, in another column, of two mass meetings, one to be held in this place on the 1st, and the other in Tehama, on the 3d. It was first intended to hold the one at Tehama on the 5th, but it was thought better to change it to Saturday the 3d.

Let every voter turn out, and give the speakers a hearty welcome. Some are candidates and some are not, but they are all laboring for the good old Democratic cause. Let Tehama give a good account of herself on the 7th of September.

JOHN C. BURCH.—The following complimentary notice of Mr. Burch, one of the Candidates for Congress on the Democratic ticket, is from the Trinity Journal, an independent or neutral paper, but one that rather takes sides against the ticket headed with the name of Milton S. Latham:—

It is due to Mr. Burch, as Congressional candidate, as a resident of this county, as its representative in Assembly and Senate for the past three years, and as the most unfaltering and faithful man of the party, that he should expect and receive the unanimous approval and support of his party here. During the mutations of prominent men of the Democratic party within the past four years, he has stood firm and unchanged in principle. By his ability, judgement, and fearless Democracy in the discharge of his duties in our State councils, he has conferred credit upon himself and his constituents, and it is a duty which this county owes, to award him, as a faithful public servant, its candid approval and support.

GEX. KIRBY'S COMMAND.—The Company organized in this place last week, left here on Wednesday morning for the mountains. The company consisted of about 75 men. First Lieut. Bailey, with a portion of the company, went to Antelope Mills; Captain Burns, with another detachment, went up the old Lassen trail, on the south side of Mill Creek. Lieut. Van Sled, and General Kirby, with the balance of the company, went up to the head of Rock Creek. From there they were to go to the Forks of Butte, which place they expected to arrive at this morning. We hope to hear of their operations in a few days.

A CHANCE TO GET YOUR MONEY BACK.—By looking at the lottery advertisement in this paper, you will find where you can get a large amount of money for a small investment, provided you draw a large prize. Mr. J. P. Brooks, Freeman & Co.'s agent in Auburn, drew a \$50,000 prize, a short time since; and four gentlemen in Placerville, by an investment of \$125 each, drew another \$50,000. Mr. Tallman, telegraph operator in Tehama, spent \$5 for a ticket, and drew \$150.

EXTENSIVE STOCK.—Sneath, Boardman & Co. have been receiving by every boat for nearly a month, large additions to their stock of goods, until their extensive house is crammed and jammed full. They have on hand now probably the largest amount of goods ever in Northern California, in one house.

BAKERY.—O'Neil & Clark have drawn out of the ice-cream business, and they are now running on the bakery alone.

NEW GROCERY STORE.—Messrs. Bettis and Burrichter have opened a family grocery store, next door to Pierce, Church & Co's, where those wishing articles in their line, by the small quantity, can be accommodated at the same rates prevailing in the larger stores. Give them a call.

CATTLE.—Mr. Healy offers stock cattle for sale. He will take hogs in part payment, though he wants it understood money will not be refused.

STRAY.—See the advertisement of a stray horse in this paper.

THE SAN JUAN ISLAND AFFAIR.—As this matter is creating some excitement just now we give the following particulars of the origin of the difficulty:

Some time since General Harney ordered Capt. Pickett's Company, 9th Infantry, to occupy San Juan Island, between the Gulf of Georgia and Puget Sound. This is one of the islands in dispute between the British and our people, situated on the boundary line. On Saturday, August 6th, an express arrived at Fort Vancouver, from Fort Steilacoom, Puget Sound, informing the General that the British had gone to the point occupied, with three of their vessels of war, and ordered Pickett to leave the island, which he refused to do. At the time this express left, no force had been used on either side; but Governor Stevens urged the General to send more troops up, and accordingly, General Harney ordered the four companies of 3d Artillery stationed at this post to proceed immediately. Two companies left on the 8th of August, and the other two the next morning. The British have sent to Fousier river for all their troops. Both parties are now occupying the island.
