Terry L. Jones Professional Biography

I have been a professional archaeologist working almost exclusively in California for 45 years. I began my career working with the Tolowa for the US Forest Service in northwestern California. I worked extensively for various consultants and Caltrans in the Monterey Bay area with Rumsen people in the 1980s and 90s. I also worked with Ohlone people in the San Francisco Bay area and the northern Chumash on the coast of San Luis Obispo County. Beginning in the 1990s I developed a relationship with Salinan people on the Big Sur coast with whom I co-authored at least one paper. For the last 25 years I've taught archaeology at Cal Poly San Luis Obispo and have worked closely with yak tichu tichu yak tilhini northern Chumash, particularly tribal chairwoman, Mona Tucker. In 2012 we received the State of California, Governor's Historic Preservation Award, for the Restoration of *Tstywi* on the Pecho Coast. In 2014 I successfully nominated, Mona's sister, LeiLyn Odum for the Society for California Archaeology's Indian Heritage Preservation Award. In 2021 Mona and I co-authored an In Memoriam for LeiLyn. I've written dozens of archaeological reports and participated in dozens of re-burials of human remains and grave goods.
